**PART C**

**Sec. C-1. 20-A MRSA §4251**, as amended by PL 1989, c. 548, §2, is further amended to read:

**§4251. Intent**

The intent of this subchapter is to encourage school administrative units to place an increased emphasis on instruction and curriculum for all children ~~ages 4 to 9~~ beginning at 4 years of age in public pre-

school programs to grade 2. This subchapter is not intended as a method of financing existing efforts but as a way of encouraging the development of new or expanded programs.

**Sec. C-2. 20-A MRSA §4252, sub-§1**, as enacted by PL 1983, c. 576, §1, is amended to read:

**1. Class size.** Reduce the ~~student teacher ratio class size~~ in all classrooms ~~within one or more grades, kindergarten through grade 3,~~ to a recommended ratio of 15 to 1 and maximum ratio of 18 to 1;

**Sec. C-3. 20-A MRSA §4722-A, sub-§4**, as enacted by PL 2011, c. 669, §7, is amended to read:

**4. Grants; contingent extension of full implementation.** During the period of transition to proficiency-based graduation in accordance with this section, the department, if funds are available, shall make annual transition grants to each school administrative unit equal to 1/10 of 1% of the school administrative unit's total cost of education calculated under section 15688, subsection 1 to be used in the manner determined by the school administrative unit to fund the costs of the transition not otherwise subsidized by the State ~~through the 2014-2015 school year~~. The date for implementation of the awarding of diplomas based on student demonstration of proficiency as described in this section is extended one year for each year for which transition grants are not made available to a school administrative unit or for which levels of general purpose aid for local schools fall below school year 2012-2013 levels. Beginning in the 2015-2016 school year, the department, if funds are available, shall make annual transition grants to each school administrative unit that operates schools equal to 1/9 of 1% of the school administrative unit's total cost of education calculated under section 15688, subsection 1 to be used in the manner determined by the school administrative unit to fund the costs of the transition not otherwise subsidized by the State.

**Sec. C-4. 20-A MRSA §15671, sub-§1-A**, as enacted by PL 2013, c. 368, Pt. C, §4, is amended to read:

**1-A. State funding for kindergarten to grade 12 public education.** Beginning in fiscal year ~~2015-16~~ 2016-17 and in each fiscal year thereafter until the state share percentage of the total cost of funding public education from kindergarten to grade 12 reaches 55% pursuant to subsection 7, paragraph B, the State shall increase the state share percentage of the funding for the cost of essential programs and services by at least one percentage point per year over the percentage of the previous year and the department, in allocating funds, shall make this increase in funding a priority. For those fiscal years that the funding appropriated or allocated for the cost of essential programs and services is not sufficient to increase the state share percentage of the total cost of funding public educa-

tion from kindergarten to grade 12 by at least one percentage point, no new programs or initiatives may be established for kindergarten to grade 12 public education within the department that would divert funds that would otherwise be distributed as general purpose aid for local schools pursuant to subsection 5.

**Sec. C-5. 20-A MRSA §15671, sub-§5-A**, as amended by PL 2013, c. 581, §6, is further amended to read:

**5-A. Funds from casino slot machines or table games.** Revenues received by the department from casino slot machines or casino table games pursuant to Title 8, section 1036, subsection 2-A, paragraph A or Title 8, section 1036, subsection 2-B, paragraph A must be distributed until the end of fiscal year 2014-15 as general purpose aid for local schools, and each school administrative unit shall make its own determination as to how to allocate these resources. Beginning in fiscal year ~~2015-16~~ 2017-18, \$4,000,000 in revenues must be distributed by the department to provide start-up funds for approved public preschool programs for children 4 years of age in accordance with chapter 203, subchapter 3. Neither the Governor nor the Legislature may divert the revenues payable to the department to any other fund or for any other use. Any proposal to enact or amend a law to allow distribution of the revenues paid to the department from casino slot machines or casino table games for another purpose must be submitted to the Legislative Council and to the joint standing committee of the Legislature having jurisdiction over education matters at least 30 days prior to any vote or public hearing on the proposal.

B. The department may use funds, insofar as resources permit, provided under and in accordance with the United States Social Security Act or state funds appropriated for this purpose or a combination of state and federal funds to provide assistance to families under this chapter. In addition to assistance for families described in this subsection, funds must be expended for the following purposes:

(1) To continue the pass-through of the first \$50 per month of current child support collections and the exclusion of the \$50 pass-through from the budget tests and benefit calculations;

(2) To provide financial assistance to non-citizens legally admitted to the United States who are receiving assistance under this subsection as of July 1, 2011. Recipients of assistance under this subparagraph are limited to the categories of noncitizens who would be eligible for the TANF programs but for their status as aliens under PRWORA. Eligibility for the TANF program for these categories of noncitizens must be determined using the criteria applicable to other recipients of assistance from the TANF program. Any household receiving assistance as of July 1, 2011 may continue to receive assistance, as long as that household remains eligible, without regard to interruptions in coverage or gaps in eligibility for service. A noncitizen legally admitted to the United States who is neither receiving assistance on July 1, 2011 nor has an application pending for assistance on July 1, 2011 that is later approved is not eligible for financial assistance through a state-funded program unless that noncitizen is:

(a) Elderly or disabled, as described under the laws governing supplemental security income in 42 United States Code, Sections 1381 to 1383f (2010);

(b) A victim of domestic violence;

(c) Experiencing other hardship, such as time necessary to obtain proper work documentation, as defined by the department by rule. Rules adopted by the department under this division are routine technical rules as defined by Title 5, chapter 375, subchapter 2-A; or

(d) Unemployed but has obtained proper work documentation, as defined by the department by rule. Rules adopted by the department under this division are

routine technical rules as defined by Title 5, chapter 375, subchapter 2-A;

(3) To provide benefits to certain 2-parent families whose deprivation is based on physical or mental incapacity;

(4) To provide an assistance program for needy children, 19 to 21 years of age, who are in full-time attendance in secondary school. The program is operated for those individuals who qualify for TANF under the United States Social Security Act, except that they fail to meet the age requirement, and is also operated for the parent or caretaker relative of those individuals. Except for the age requirement, all provisions of TANF, including the standard of need and the amount of assistance, apply to the program established pursuant to this subparagraph;

(5) To provide assistance for a pregnant woman who is otherwise eligible for assistance under this chapter, except that she has no dependents under 19 years of age. An individual is eligible for the monthly benefit for one eligible person if the medically substantiated expected date of the birth of her child is not more than 90 days following the date the benefit is received;

(6) To provide a special housing allowance for TANF families whose shelter expenses for rent, mortgage or similar payments, homeowners insurance and property taxes equal or exceed 75% of their monthly income. The special housing allowance is limited to \$200 per month for each family. For purposes of this subparagraph, "monthly income" means the total of the TANF monthly benefit and all income countable under the TANF program, plus child support received by the family, excluding the \$50 pass-through payment;

(7) In determining benefit levels for TANF recipients who have earnings from employment, the department shall disregard from monthly earnings the following:

- (a) One hundred and eight dollars;
- (b) Fifty percent of the remaining earnings that are less than the federal poverty level; and
- (c) All actual child care costs necessary for work, except that the department may limit the child care disregard to \$175 per month per child or \$200 per month per child under 2 years of age or with special needs;

(7-A) In determining eligibility and benefit levels, the department may apply a gross income test only to applicants and not to recipients;

(8) In cases when the TANF recipient has no child care cost, the monthly TANF benefit is the maximum payment level or the difference between the countable earnings and the standard of need established by rule adopted by the department, whichever is lower;

(9) In cases when the TANF recipient has child care costs, the department shall determine a total benefit package, including TANF cash assistance, determined in accordance with subparagraph (7) and additional child care assistance, as provided by rule, necessary to cover the TANF recipient's actual child care costs up to the maximum amount specified in section 3782-A, subsection 5. The benefit amount must be paid as provided in this subparagraph.

(a) Before the first month in which child care assistance is available to an ASPIRE-TANF recipient under this paragraph and periodically thereafter, the department shall notify the recipient of the total benefit package and the following options of the recipient: to receive the total benefit package directly; or to have the department pay the recipient's child care assistance directly to the designated child care provider for the recipient and pay the balance of the total benefit package to the recipient.

(b) If an ASPIRE-TANF recipient notifies the department that the recipient chooses to receive the child care assistance directly, the department shall pay the total benefit package to the recipient.

(c) If an ASPIRE-TANF recipient does not respond or notifies the department of the choice to have the child care assistance paid directly to the child care provider from the total benefit package, the department shall pay the child care assistance directly to the designated child care provider for the recipient. The department shall pay the balance of the total benefit package to the recipient;

(10) Child care assistance under this paragraph must be paid by the department in a prompt manner that permits an ASPIRE-TANF recipient to access child care necessary for work; and

(11) The department shall adopt rules pursuant to Title 5, chapter 375 to implement this

subsection. Rules adopted pursuant to this subparagraph are routine technical rules as defined in Title 5, chapter 375, subchapter 2-A.

B. The department shall provide limited transitional transportation benefits to meet employment-related costs to ASPIRE-TANF program participants who lose eligibility for TANF assistance due to employment. The department may also make transitional transportation benefits available to families in which one or both adults are working and who, although they remain financially eligible for TANF benefits, request that their benefits be terminated. Benefits may be provided for up to ~~12~~ 18 months following loss of TANF eligibility. The department may adopt rules that impose a weekly limit on available transitional transportation benefits and that require a contribution from each participant toward the cost of transportation.

**Sec. 1. 30-A MRSA §3106-A** is enacted to read:

**§3106-A. Municipal authority to manage abandoned properties**

**1. Definitions.** As used in this section, unless the context otherwise indicates, the following terms have the following meanings.

A. "Property defects" means the conditions that, in the judgment of the municipality, contribute to blight as a result of the continued lack of care, maintenance or security of a property.

B. "Responsible parties" means the owner or owners of record.

**2. Municipal authority.** In accordance with this section, the municipal officers or the officers' designee may regulate the care, maintenance and security of property determined to be abandoned under subsection 4, if the responsible parties fail to address the property defects after notice and an opportunity to comply. The municipality may recover its costs from the responsible parties. The authorities established by this section may not be construed to replace or supplant any municipal authority to provide for basic necessities under Title 14, section 6026-A or address dangerous properties under Title 17, chapter 91, subchapter 4. Municipal action under this section may not be interpreted to bestow any responsibility on the municipality to safeguard or otherwise preserve or protect abandoned property.

**3. Notice of foreclosure; designation of representative.** When initiating a foreclosure action on a property, a foreclosing mortgagee shall notify the municipality where the property is situated and designate an in-state representative responsible for the property.

**4. Determination of abandonment.** Before a municipality may initiate corrective action measures to address property defects pursuant to this section, either a court or the municipal officers must have determined that the property has been abandoned according to the evidence of abandonment described in Title 14, sec-

tion 6326, subsection 2, paragraph A, C, D, E, F, G or H.

A. The municipal officers shall provide notice to the responsible parties and hold a hearing before making a determination that a property has been abandoned. The notice of hearing must:

(1) State the scheduled date, time and location of the hearing; and

(2) Inform the responsible parties that, upon a finding of abandonment, the municipality may require the responsible parties to correct any property defects within 30 days of the issuance of a notice to correct or, if a permit is required to correct property defects, the municipality may require the responsible parties to promptly seek a permit and to correct the defects within 30 days of the issuance of the permit.

B. A hearing under paragraph A may be held no less than 7 days after receipt or publication of the notice.

C. An order issued by the municipality determining that a property is abandoned may be combined with the notice to correct set forth in subsection 5.

**5. Notice to correct.** Upon a finding of abandonment, the municipal officers may give written notice to the responsible parties to correct identified property defects. The municipal notice to correct under this section must:

A. Identify the property defects;

B. State the municipality's intention to take appropriate preventive or corrective measures to address the property defects;

C. Identify the measures the municipality will take if the responsible parties have not remedied the property defects identified within 30 days of the notice to correct;

D. State the municipality's intention to subsequently recover the municipality's direct, legal and administrative costs from the responsible parties; and

E. Inform the responsible parties of their ability to avert the municipality's actions by remedying the property defects as identified in the notice.

**6. Notice process.** A notice required to be given under this section is governed by the following.

A. Notice must be hand-delivered or mailed by certified mail, return receipt requested, to the responsible parties. Notice is sufficient if the signed receipt is returned or the certified mail is returned as refused by the recipient.

B. If the address of the responsible parties cannot be determined with reasonable diligence, the notice is sufficient if it is published twice consecutively in a daily or weekly newspaper having general circulation in the municipality in which the property is located.

**7. In-state representatives.** Mortgagees who have initiated a foreclosure on a property shall designate a representative whose place of business is within this State to be responsible for responding to municipal inquiries regarding the property. The foreclosing mortgagee shall provide the municipality in which the property is located with the contact information for the mortgagee's in-state representative. For the purposes of this subsection, "contact information" means both a mailing address and a direct telephone number with a functioning voice mailbox, as well as the responsible party's direct e-mail address when available.

**8. Recovery of costs.** All responsible parties are jointly and severally liable to a municipality for its direct, legal and administrative costs incurred while remedying or attempting to remedy the property defects pursuant to this section. The responsible parties shall reimburse the municipality for its costs within 30 days after demand, or a special tax may be assessed against the property in the amount of those costs and may be collected in the same manner as other state, county and municipal taxes are collected.

**9. Appeals.** An appeal from a finding of abandonment by the municipal officers pursuant to this section is to the Superior Court, pursuant to the provisions of the Maine Rules of Civil Procedure, Rule 80B.

**5. Coverage not dependent on denial of claim.** Coverage under an automobile insurance policy maintained by a transportation network company may not be dependent on the denial of the claim under a personal automobile insurance policy.

**6. Insurer.** Insurance required by this section may be placed with an insurer that is licensed under the provisions of this Title or is authorized as a surplus lines insurer pursuant to chapter 19.

**7. Satisfaction of financial responsibility requirements.** Insurance satisfying the requirements of this section is deemed to satisfy the financial responsibility requirement for a motor vehicle set forth in section 2902 and Title 29-A, section 1605.

**8. **3. Contact insurer or agent.** That the transportation network company driver must contact the driver's personal automobile insurer or insurance producer to advise the insurer or producer that the driver will be providing transportation network services and to determine the coverage, if any, that may be available from the driver's personal automobile insurance policy; and

**4. Potential impact on lien.** That, if the motor vehicle that the transportation network company driver uses to provide transportation network services has a lien against it, using the motor vehicle for transportation network services without physical damage coverage may violate the terms of the contract with the lienholder.

**1. Exclude coverage.** Notwithstanding section 2902 or Title 29-A, section 1605, an insurer that writes automobile insurance in this State may exclude coverage afforded under the policy issued to an owner or operator of a personal vehicle for any loss or injury that occurs while a transportation network company driver is logged into a transportation network company's digital network or while a driver is engaged in a prearranged ride. - A. Liability coverage for bodily injury and property damage;
- B. Uninsured vehicle and underinsured motor vehicle coverage;

Nothing in this section may be construed to preclude an insurer from entering into a contract to provide coverage for a transportation network company driver's personal vehicle.

**2. No duty to indemnify.** If an insurer has excluded coverage described in section 7303, the insurer has no duty to defend or indemnify any claim expressly excluded. Nothing in this chapter may be construed to invalidate or limit an exclusion contained in a policy, including any policy in use or approved for use in this State prior to the effective date of this chapter, that excludes coverage for vehicles used to carry persons or property for a charge or available for hire by the public.

**3. Right of contribution.** An automobile insurer that defends or indemnifies a claim against a driver that is excluded under the terms of its policy has a right of contribution against other insurers that provide automobile insurance to the same driver in satisfaction of the coverage requirements of section 7303 at the time of loss.

**4. Cooperation.** In a claims coverage investigation, a transportation network company and any insurer potentially providing coverage under section 7303 shall cooperate to facilitate the exchange of relevant information with directly involved parties and any insurer of the transportation network company driver if applicable, including but not limited to:

A termination based on a 30-day notice is not affected by the receipt of money, whether previously owed or for current use and occupation, until the date a writ of possession is issued against the tenant during the period of actual occupancy after receipt of the notice. When the tenancy is terminated, the tenant is liable to the process of forcible entry and detainer without further notice and without proof of any relation of landlord and tenant unless the tenant has paid, after service of the notice, rent that accrued after the termination of the tenancy. These provisions apply to tenancies of buildings erected on land of another party. Termination of the tenancy is deemed to occur at the expiration of the time fixed in the notice. A 30-day notice under this paragraph and a 7-day notice under subsection 2 may be combined in one notice to the tenant.

**Sec. 7. 14 MRSA §6002, sub-§1, ¶¶B and C,** as enacted by PL 2009, c. 171, §2, are further amended to read:

B. The tenant, the tenant's family or an invitee of the tenant caused or permitted a nuisance within the premises, has caused or permitted an invitee to cause the dwelling unit to become unfit for human habitation or has violated or permitted a violation of the law regarding the tenancy; ~~or~~

C. The tenant is 7 days or more in arrears in the payment of rent; ~~and~~

**Sec. 8. 14 MRSA §6002, sub-§1, ¶D** is enacted to read:

D. The tenant is a perpetrator of domestic violence, sexual assault or stalking and the victim is also a tenant.

**Sec. 9. 14 MRSA §6002, sub-§4** is enacted to read:

**4. Victims of domestic violence, sexual assault or stalking.** A victim may terminate the victim's tenancy in a tenancy-at-will or a lease with a term of less than one year with 7 days' written notice and documentation required pursuant to section 6001, subsection 6, paragraph H due to an incident or threat of domestic violence, sexual assault or stalking. A victim of domestic violence, sexual assault or stalking may terminate the victim's tenancy in a lease with a term of one year or more with 30 days' written notice and documentation required pursuant to section 6001, subsection 6, paragraph H. When written notice is pro-

vided to the landlord, the victim is not liable for any rent due beyond the date the notice expires or the date the victim vacates the unit, whichever is later, unless the victim has prepaid rent for the month, in which case the landlord is not required to refund the rent for that month.

**Sec. 10. 14 MRSA §6010** as corrected by RR 2013, c. 2, §26, is amended by adding at the end 2 new paragraphs to read:

A perpetrator of domestic violence, sexual assault or stalking that occurs in a residential rental property against a tenant of the property, household member or a tenant's guest is liable to the tenant for the tenant's damages as a result of the domestic violence, sexual assault or stalking regardless of whether or not the perpetrator is also a tenant. Such damages include, but are not limited to, moving costs, back rent, current rent, damage to the unit, court costs and attorney's fees.

Nothing in this section relating to damages as a result of domestic violence, sexual assault or stalking creates liability on behalf of a landlord.

**Sec. 11. 14 MRSA §6025, sub-§1,** as amended by PL 1999, c. 204, §1, is further amended to read:

**1. Tenant obligations.** A tenant may not unreasonably withhold consent to the landlord to enter into the dwelling unit in order to inspect the premises, make necessary or agreed repairs, decorations, alterations or improvements, supply necessary or agreed services or exhibit the dwelling unit to prospective or actual purchasers, mortgagees, tenants, workers or contractors.

A tenant may not change the lock to the dwelling unit without giving notice to the landlord and giving the landlord a duplicate key within 48 hours of the change. A victim may change the locks to the unit at the victim's expense. If the victim changes the locks to the unit, the victim shall provide the landlord with a duplicate key within 72 hours of changing the locks. For the purposes of this subsection, "victim" has the same meaning as in section 6000, subsection 4.

When possible, a replacement or replica of the removed memorial must be placed in the original location along with information as to the location of the original memorial. If such placement is not possible, a sign must be placed recording the new location of the memorial.

All costs associated with actions taken pursuant to this section must be paid by the person or entity that requests the repair, maintenance or removal of a tomb, monument, gravestone, marker or other structure placed or designed as a memorial to the dead, or any portion or fragment of any such memorial, or any fence, railing, curb or other enclosure in the burial lot or cemetery.

The owner, operator or caretaker of a burial lot or a cemetery association that authorizes removal of a memorial pursuant to this section is not responsible or liable for the location or care of the memorial.

The order of the court must provide notice that if either party objects to the allocation, that party may file a complaint pursuant to section 1654 and that an order from that action supersedes this initial allocation of parental rights and responsibilities. In resolving parental rights and responsibilities issues, the court may not delay entering a determination of parentage and an initial order concerning child support.

**3. Final orders.** Final orders concerning child support or parental rights and responsibilities are governed by chapters 51 and 55, respectively.

**§1841. Admission of parentage authorized**

**1. Admission of parentage.** A respondent in a proceeding to adjudicate parentage may admit to the parentage of a child by filing a pleading to that effect or by admitting parentage under penalty of perjury when making an appearance or during a hearing.

**2. **SUBCHAPTER 3****VOLUNTARY ACKNOWLEDGMENT OF PATERNITY****§1861. Acknowledgment of paternity**

The woman who gives birth to a child and a man, not her spouse, claiming to be the genetic father of the child may sign an acknowledgment of paternity with intent to establish paternity.

**§1862. Execution of acknowledgment of paternity**

**1. Requirements.** An acknowledgment of paternity under section 1861 must:

**B.** Be signed, or otherwise authenticated, under penalty of perjury by the woman giving birth and by the man seeking to establish his paternity;

**E.** State that the man signing the acknowledgment believes himself to be the biological father; and

**F.** State that the signatories understand that the acknowledgment is the equivalent of a court de-

termination of paternity of the child and that a challenge to the acknowledgment is permitted only under limited circumstances and is barred after 2 years.

**2. Notice.** Before the woman giving birth or alleged father may sign an acknowledgment of paternity under section 1861, the woman giving birth and the putative father must be given oral and written notice of the alternatives to, the legal consequences of and the rights and responsibilities that arise from signing the acknowledgment.

**3. Acknowledgment voidable.** An acknowledgment of paternity under section 1861 is voidable if it:

**A.** States that another person is a presumed parent, unless a denial of parentage signed or otherwise authenticated by the presumed parent is filed with the State Registrar of Vital Statistics;

**§1864. Filing of an acknowledgment of paternity and related denial of parentage**

**1. Acknowledgment and denial.** An acknowledgment of paternity and related denial of parentage under this subchapter must be filed with the State Registrar of Vital Statistics and may be contained in a sin-

gle document or may be signed in counterparts and may be filed separately or simultaneously. If the acknowledgment and denial are both necessary, neither is valid until both are filed.

**2. Effective date.** Subject to subsection 1, an acknowledgment of paternity or denial of parentage takes effect on the filing of the document with the State Registrar of Vital Statistics, whichever occurs later.

**3. Signed by minor.** An acknowledgment of paternity or denial of parentage signed by a minor is valid if it is otherwise in compliance with this chapter.

#### **§1865. Equivalent to adjudication**

**1. Acknowledgment.** Except as otherwise provided in sections 1867 and 1868, a valid acknowledgment of paternity under section 1861 filed with the State Registrar of Vital Statistics is equivalent to an adjudication of parentage of a child and confers upon the acknowledged father all of the rights and duties of a parent.

**2. Denial.** Except as otherwise provided in section 1867 and section 1868, subsection 1, a valid denial of parentage under section 1863 filed with the State Registrar of Vital Statistics in conjunction with a valid acknowledgment of paternity under section 1861 is equivalent to an adjudication of the nonparentage of the presumed parent and discharges the presumed parent from all rights and duties of a parent.

#### **§1868. Challenge to acknowledgment**

**1. Challenge by signatory.** After the period for rescission under section 1867 has expired, a signatory of an acknowledgment of paternity or denial of parentage may commence a proceeding to challenge the acknowledgment or denial only:

A. On the basis of fraud, duress or material mistake of fact; and

B. Within 2 years after the acknowledgment or denial is filed with the State Registrar of Vital Statistics.

**2. Challenge by person not a signatory.** If an acknowledgment of paternity has been made in accordance with this subchapter, an individual who is neither the child nor a signatory to the acknowledgment of paternity and who seeks to challenge the validity of the acknowledgment and adjudicate parentage must commence a proceeding not later than 2 years after the effective date of the acknowledgment, as provided in section 1864, unless the individual did not know and could not reasonably have known of the individual's potential genetic parentage on account of material misrepresentation or concealment, in which case the proceeding must be commenced no later than 2 years after discovery.

**3. Burden of proof.** A party challenging an acknowledgment of paternity or denial of parentage pursuant to this section has the burden of proof.

#### **§1869. Procedure for rescission or challenge**

**3. Suspension of legal responsibilities.** Except for good cause shown, during the pendency of a proceeding under section 1867 or 1868 to rescind or challenge an acknowledgment of paternity or denial of parentage, the court may not suspend the legal responsibilities of a signatory arising from the acknowledgment, including the duty to pay child support.

**4. Proceeding to rescind or challenge.** A proceeding under section 1867 or 1868 to rescind or challenge an acknowledgment of paternity or denial of parentage must be conducted as a proceeding to adjudicate parentage under subchapter 1.

**5. Amendment to birth record.** At the conclusion of a proceeding under section 1867 or 1868 to rescind or challenge an acknowledgment of paternity or denial of parentage, the court shall order the State Registrar of Vital Statistics to amend the birth record of the child, if appropriate.

**§1870. Ratification not permitted**

A court or administrative agency conducting a judicial or administrative proceeding may not ratify an unchallenged acknowledgment of paternity under section 1861.

**§1871. Forms for acknowledgment and denial of paternity**

To facilitate compliance with this subchapter, the State Registrar of Vital Statistics shall prescribe forms for the acknowledgment of paternity and the denial of parentage. A valid acknowledgment of paternity or denial of parentage is not affected by a later modification of the prescribed form.

**§1872. Release of information**

The State Registrar of Vital Statistics may release information relating to an acknowledgment of paternity under section 1861 as provided in Title 22, section 2706.

**§1873. Adoption of rules**

The State Registrar of Vital Statistics may adopt rules to implement this subchapter. Rules adopted pursuant to this section are routine technical rules for the purposes of Title 5, chapter 375, subchapter 2-A.

**SUBCHAPTER 4****PRESUMED PARENTAGE****§1881. Presumption of parentage**

**1. Marital presumption established.** A person is presumed to be the parent of a child if:

A. The person and the woman giving birth to the child are married to each other and the child is born during the marriage;

B. The person and the woman giving birth to the child were married to each other and the child is born within 300 days after the marriage is terminated by death, annulment, divorce or declaration of invalidity or after a decree of separation; or

C. Before the birth of the child, the person and the woman giving birth to the child married each other in apparent compliance with law, even if the attempted marriage is or could be declared invalid, and the child is born during the invalid marriage or within 300 days after its termination by death, annulment, divorce or declaration of invalidity or after a decree of separation.

**2. Equivalent status in other jurisdictions.** The marital presumption in subsection 1 applies to a legal relationship that provides substantially the same rights, benefits and responsibilities as marriage and is recognized as valid in the state or jurisdiction in which it was entered.

**3. Nonmarital presumption established.** A person is presumed to be a parent of a child if the person resided in the same household with the child and openly held out the child as that person's own from the time the child was born or adopted and for a period of at least 2 years thereafter and assumed personal, financial or custodial responsibilities for the child.

**4. Rebuttal of presumption.** A presumption established under this subchapter may be rebutted only by a court determination.

**§1882. Challenge to presumed parent**

**1. Two-year limitation.** Except as provided in subsection 2, a proceeding to challenge the parentage of an individual whose parentage is presumed under section 1881 must be commenced not later than 2 years after the birth of the child; otherwise the presumption cannot be rebutted.

**2. Later than 2 years.** A proceeding to challenge the parentage of an individual whose parentage is presumed under section 1881 may be commenced more than 2 years after the birth of the child in the following situations.

A. A presumed parent under section 1881, subsection 1 who is not the genetic parent of a child and who could not reasonably have known about the birth of the child may commence a proceeding under this subsection within 2 years after learning of the child's birth.

B. An alleged genetic parent who did not know of the potential genetic parentage of a child, and who could not reasonably have known on account of material misrepresentation or concealment, may commence a proceeding under this subsection within 2 years after discovering the potential genetic parentage. If the individual is adjudicated to be the genetic parent of the child, the court may not disestablish a presumed parent and, consistent with section 1853, subsection 2, the court shall determine parental rights and responsibilities of the parents in accordance with section 1653.

C. A mother or a presumed parent under section 1881, subsection 3 disputing the validity of the presumption may commence a proceeding under this subsection at any time.

**§1883. Multiple presumptions**

If 2 or more conflicting presumptions arise under this subchapter, the court shall adjudicate parentage and determine parental rights and responsibilities in accordance with section 1653.

**SUBCHAPTER 5**  
**DE FACTO PARENTAGE**

**§1891. De facto parentage**

**1. De facto parentage.** The court may adjudicate a person to be a de facto parent.

**2. Standing to seek de facto parentage.** A person seeking to be adjudicated a de facto parent of a child under this subchapter must establish standing to maintain the action in accordance with the following.

**A.** A person seeking to be adjudicated a de facto parent of a child shall file with the initial pleadings an affidavit alleging under oath specific facts to support the existence of a de facto parent relationship with the child as set forth in subsection 3. The pleadings and affidavit must be served upon all parents and legal guardians of the child and any other party to the proceeding.

**B.** An adverse party, parent or legal guardian who files a pleading in response to the pleadings in paragraph A shall also file an affidavit in response, serving all parties to the proceeding with a copy.

**C.** The court shall determine on the basis of the pleadings and affidavits under paragraphs A and B whether the person seeking to be adjudicated a de facto parent has presented prima facie evidence of the requirements set forth in subsection 3. The court may in its sole discretion, if necessary and on an expedited basis, hold a hearing to determine disputed facts that are necessary and material to the issue of standing.

**D.** If the court's determination under paragraph C is in the affirmative, the party claiming de facto parentage has standing to proceed to adjudication under subsection 3.

**3. Adjudication of de facto parent status.** The court shall adjudicate a person to be a de facto parent if the court finds by clear and convincing evidence that the person has fully and completely undertaken a permanent, unequivocal, committed and responsible parental role in the child's life. Such a finding requires a determination by the court that:

**A.** The person has resided with the child for a significant period of time;

**B.** The person has engaged in consistent caretaking of the child;

**C.** A bonded and dependent relationship has been established between the child and the person, the relationship was fostered or supported by another parent of the child and the person and the other parent have understood, acknowledged or accepted that or behaved as though the person is a parent of the child;

**D.** The person has accepted full and permanent responsibilities as a parent of the child without expectation of financial compensation; and

**E.** The continuing relationship between the person and the child is in the best interest of the child.

**4. Orders.** The court may enter the following orders as appropriate.

**A.** The court may enter an interim order concerning contact between a person with standing seeking adjudication under this subchapter as a de facto parent and the child.

**B.** Adjudication of a person under this subchapter as a de facto parent establishes parentage, and the court shall determine parental rights and responsibilities in accordance with section 1653. The court shall make appropriate orders for the financial support for the child in accordance with the child support guidelines under chapter 63. An order requiring the payment of support to or from a de facto parent does not relieve any other parent of the obligation to pay child support unless otherwise ordered by a court.

**5. Other parents.** The adjudication of a person under this subchapter as a de facto parent does not disestablish the parentage of any other parent.

**SUBCHAPTER 6**  
**GENETIC PARENTAGE**

**§1901. Scope of subchapter**

This subchapter governs procedures and requirements of genetic testing and genetic testing results of an individual to determine parentage and adjudication of parentage based on genetic testing, whether the individual voluntarily submits to testing or is tested pursuant to an order of the court or the department.

**§1902. Requirements for genetic testing**

**1. Type of genetic testing.** Genetic testing must be of a type reasonably relied upon by experts in the field of genetic testing and performed in a testing laboratory accredited by:

**A.** A national association of blood banks approved by the department; or

**B.** An accrediting body designated by the federal Secretary of Health and Human Services.

**2. Specimen.** A specimen used in genetic testing may consist of one or more samples, or a combination of samples, of blood, buccal cells, bone, hair or other body tissue or fluid. The specimen used in the testing need not be of the same kind for each individual undergoing genetic testing.

**3. Selection of databases; objections.** Based on the genetic population group of an individual, a testing

laboratory shall determine the databases from which to select frequencies for use in calculation of the probability of genetic parentage. If there is disagreement as to the testing laboratory's choice, the following provisions apply.

A. The court, upon motion, may require the testing laboratory, prior to adjudication, to recalculate the test results using a different database for genetic population groups from that used by the laboratory.

B. The individual objecting to the testing laboratory's initial choice shall:

(1) If the frequencies are not available to the testing laboratory for the genetic population groups requested, provide the requested frequencies compiled in a manner recognized by an accrediting body under subsection 1; or

(2) Engage another accredited testing laboratory to perform the calculations.

C. The testing laboratory may use its own statistical estimate if there is a question regarding which database for genetic population groups is appropriate. The testing laboratory shall calculate the frequencies using statistics, if available, for any other database requested.

**4. Additional genetic testing.** If, after recalculation under subsection 3 using a different database for genetic population groups, genetic testing does not rebuttably identify the genetic parent of a child under section 1904, an individual who has been tested may be required to submit to additional genetic testing.

### **§1903. Report of genetic testing**

**1. Report; self-authenticating.** A report of genetic testing must be in a record and signed under penalty of perjury by a designee of the testing laboratory. A report made under the requirements of this subchapter is self-authenticating.

**2. Documentation.** Documentation from the testing laboratory of the following information is sufficient to establish a reliable chain of custody that allows the results of genetic testing to be admissible without testimony:

A. The names and photographs of the individuals whose specimens have been taken;

B. The names of the individuals who collected the specimens;

C. The places and dates the specimens were collected;

D. The names of the individuals who received the specimens in the testing laboratory; and

E. The dates the specimens were received.

### **§1904. Genetic testing results**

**1. Results identify as genetic parent.** Under this chapter, a person is rebuttably identified as the genetic parent of a child if the genetic testing of the person complies with this subchapter and the results disclose:

A. In the case of paternity:

(1) That the man has at least a 99% probability of paternity, using a prior probability of 0.50, as calculated by using the paternity index obtained in the testing; and

(2) A paternity index of at least 100 to 1; and

B. In the case of maternity:

(1) That the woman has at least a 99% probability of maternity, using a prior probability of at least 0.50, as calculated by using the maternity index obtained in the testing; and

(2) A maternity index of at least 100 to 1.

**2. Identification of genetic parent.** Identification of a genetic parent through genetic testing does not establish parentage absent adjudication under this chapter.

**3. Rebuttal.** A person identified under subsection 1 as the genetic father or genetic mother of the child may rebut the genetic testing results only by other genetic testing satisfying the requirements of this subchapter that:

A. Excludes the person as a genetic father or genetic mother of the child; or

B. In the case of a genetic father, identifies another man as the possible genetic father of the child or, in the case of a genetic mother, identifies another woman as the possible genetic mother of the child.

**4. Further genetic testing.** Except as otherwise provided in section 1909, if more than one person is identified by genetic testing as the possible genetic father or genetic mother of the child, the court shall order them to submit to further genetic testing to identify the sole genetic father or genetic mother.

### **§1905. Costs of genetic testing**

**1. Payment for the costs advanced.** The payment for the costs, if any, of initial genetic testing must be advanced:

A. By the department in a proceeding in which the department is providing services;

B. By the individual who made the request;

C. As agreed by the parties; or

D. As ordered by the court.

**2. Reimbursement.** In cases in which the payment for the costs of initial genetic testing is advanced pursuant to subsection 1, paragraph A, the department may seek reimbursement from a person who is rebuttably identified through the genetic testing as the genetic father or genetic mother.

**§1906. Additional genetic testing**

The court shall order additional genetic testing upon the request of a party who contests the result of the initial testing. If the initial genetic testing identified a person as the genetic father or genetic mother of the child under section 1904, the court or agency may not order additional testing unless the party provides advance payment for the testing.

**§1907. Genetic testing when specimens not available**

**1. Specimen not available; submission of specimens.** Subject to subsection 2, if a genetic testing specimen is not available from a person who may be the genetic father or genetic mother of a child, for good cause and under circumstances the court considers to be just, the court may order the following individuals to submit specimens for genetic testing:

- A. The parents of the person;
- B. Brothers and sisters of the person;
- C. Other children of the person and their mothers; and
- D. Relatives of the person necessary to complete genetic testing.

**2. Finding required.** Issuance of an order under this section requires a finding that a need for genetic testing outweighs the legitimate interests of the individual sought to be tested.

**§1908. Deceased person**

For good cause shown, the court may order genetic testing of a deceased person.

**§1909. Identical sibling**

**1. Genetic testing of sibling.** The court may order genetic testing of a sibling of a person if the person is commonly believed to have an identical sibling and evidence suggests that the sibling may be the genetic father or genetic mother of the child.

**2. Nongenetic evidence.** If a person and a sibling of the person tested pursuant to subsection 1 satisfy the requirements as the identified genetic father or genetic mother of the child under section 1904 without consideration of another identical sibling being identified as the genetic father or genetic mother of the child, the court may rely on nongenetic evidence to adjudicate parentage under this chapter.

**§1910. Confidentiality of genetic testing**

**1. Release of report.** A report of genetic testing for parentage is confidential and may not be released except as provided in this subchapter.

**2. Intentional release of identifiable specimen.** An individual who intentionally releases an identifiable specimen of another individual for any purpose other than that relevant to a proceeding regarding parentage without a court order or the written permission of the individual who furnished the specimen commits a Class E crime.

**§1911. Court order for testing**

**1. Order to submit to genetic testing.** Except as provided in section 1912 or as otherwise provided in this chapter, the court may order a child and other designated individuals to submit to genetic testing if the request for testing is supported by the sworn statement of a party to a proceeding setting forth a reasonable, good faith basis for alleging or denying genetic parentage.

**2. Presumption of genetic maternity.** Genetic testing of the woman who gave birth to a child is not required and may not be ordered to prove that she is the genetic mother, unless there is a reasonable, good faith basis to dispute genetic maternity.

**3. No presumed, acknowledged or adjudicated parent.** The department may seek an order for genetic testing only if there is no presumed parent, acknowledged father, adjudicated parent or intended parent who consented to assisted reproduction pursuant to this chapter. Genetic testing may not be ordered if the person who is the subject of the request for order is a donor.

**4. In utero testing.** If a request for genetic testing of a child is made before birth, the court may not order in utero testing.

**5. Concurrent or sequential testing.** If 2 or more individuals are subject to court-ordered genetic testing, the testing may be ordered concurrently or sequentially.

**§1912. Authority to deny requested order for genetic testing or admission of test results**

**1. Grounds for denial.** In a proceeding to adjudicate parentage, the court may deny a motion seeking an order for genetic testing or deny admissibility of the test results at trial if the court determines that:

- A. The conduct of the parties estops a party from denying parentage; or
- B. It would be an inequitable interference to the relationship between the child and a parent or otherwise contrary to the best interest of the child.

**2. Factors.** In determining whether to deny a motion seeking an order for genetic testing under this

chapter or a request for admission of such test results at trial, the court shall consider the best interest of the child, including the following factors, if relevant:

A. The length of time between the proceeding to adjudicate parentage and the time that a parent was placed on notice that genetic parentage is at issue;

B. The length of time during which the parent has assumed a parental role for the child;

C. The facts surrounding discovery that genetic parentage is at issue;

D. The nature of the relationship between the child and the parent;

E. The age of the child;

F. Any adverse effect on the child that may result if parentage is successfully disproved;

G. The nature of the relationship between the child and any alleged parent;

H. The extent to which the passage of time reduces the chances of establishing the parentage of another person and a child support obligation in favor of the child; and

I. Factors in addition to those in paragraphs A to H that may affect the equities arising from the disruption of the relationship between the child and the parent or the chance of other adverse effect to the child.

**3. Guardian ad litem.** In a proceeding involving the application of this section, a minor or incapacitated child may be represented by a guardian ad litem.

**4. Order.** In cases involving an acknowledged or presumed parent, if the court denies a motion seeking an order for genetic testing, the court shall issue an order adjudicating the acknowledged or presumed parent to be the parent of the child.

**§1913. Admissibility of results of genetic testing; expenses**

**1. Record admissible; objection.** Except as otherwise provided in subsection 3, a record of a genetic testing expert is admissible as evidence of the truth of the facts asserted in the report unless a party objects to its admission within 14 days after its receipt by the objecting party and cites specific grounds for exclusion. The admissibility of the report is not affected by whether the testing was performed:

A. Voluntarily or pursuant to an order of the court; or

B. Before or after the commencement of the proceeding.

**2. Testimony of experts.** A party objecting to the results of genetic testing may call one or more ge-

netic testing experts to testify in person or by telephone, videoconference, deposition or another method approved by the court. Unless otherwise ordered by the court, the party offering the testimony bears the expense for the expert's testifying.

**3. Results inadmissible; exceptions.** If a child has a presumed parent, acknowledged father or adjudicated parent, the results of genetic testing are admissible to adjudicate parentage only:

A. With the consent of each person who is a parent of the child under this chapter, unless the court otherwise orders under section 1912; or

B. Pursuant to an order of the court under section 1911.

**4. Copies of bills and records as evidence.** Copies of bills and records of expenses paid for prenatal care, childbirth, postnatal care and genetic testing are admissible as evidence without requiring 3rd-party foundation testimony and are prima facie evidence of amounts incurred for those expenses or testing on behalf of the child.

**§1914. Consequences of declining genetic testing**

**1. Adjudication contrary to position.** If an individual whose paternity is being determined under this chapter declines to submit to genetic testing ordered by the court, the court for that reason may adjudicate parentage contrary to the position of that individual.

**2. Testing of woman giving birth; unavailable or declines.** Genetic testing of the woman who gave birth to a child is not a condition precedent to testing the child and a man whose paternity is being determined under this chapter. If the woman who gave birth is unavailable or declines to submit to genetic testing, the court may order the testing of the child and every person whose genetic parentage is being adjudicated.

**§1915. Adjudication of parentage based on genetic testing**

**1. Parentage based on genetic testing.** If the court adjudicates parentage based on genetic testing, the following apply.

A. Unless the results of genetic testing are admitted to rebut other results of genetic testing:

(1) If genetic testing results pursuant to section 1904 exclude a person as the genetic parent of a child, the court shall find that person is not a genetic parent of the child and may not adjudicate the person as the child's parent on the basis of genetic testing; and

(2) If genetic testing results pursuant to section 1904 identify a person as the genetic parent of a child, the court shall find that person

to be the genetic parent and may adjudicate the person as the child's parent, unless otherwise provided by this chapter.

B. If the court finds that genetic testing under section 1904 neither identifies nor excludes a person as the genetic parent of a child, the court may not dismiss the proceeding. In that event, the results of genetic testing and other evidence are admissible to adjudicate the issue of parentage.

2. Inadmissible evidence. Testimony relating to sexual relations or possible sexual relations of the woman giving birth at a time other than the probable time of conception of the child is inadmissible in evidence.

3. Adjudication consistent with this chapter. An adjudication of parentage based on genetic testing is subject to the requirements and limitations of this chapter.

## **SUBCHAPTER 7**

### **PARENTAGE BY ASSISTED REPRODUCTION**

#### **§1921. Scope of subchapter**

This subchapter does not apply to the birth of a child conceived by means other than assisted reproduction.

#### **§1922. Parental status of donor**

1. Donor not a parent. A donor is not a parent of a child conceived through assisted reproduction.

2. Exceptions. Notwithstanding subsection 1:

A. A person who provides a gamete or gametes or an embryo or embryos to be used for assisted reproduction for the person's spouse is a parent of the resulting child; and

B. A person who provides a gamete or gametes or an embryo or embryos for assisted reproduction is a parent of the resulting child if the person has a written agreement or agreements with the person giving birth and any intended parent that the person will be a parent.

#### **§1923. Parentage of child of assisted reproduction**

A person who provides gametes for and consents to or a person who consents to assisted reproduction by a woman as provided in section 1924 with the intent to be the parent of a resulting child is a parent of the resulting child.

#### **§1924. Consent to assisted reproduction**

1. Written consent. Consent by a person who intends to be a parent of a child born through assisted reproduction must be set forth in a signed record that is executed by each intended parent and provides that the signatories consent to use of assisted reproduction to conceive a child with the intent to parent the child.

2. Lack of written consent; parentage. Failure of a person to sign a consent required by subsection 1 before or after birth of the child does not preclude a finding of parentage:

A. If consent can be proved by other means and the consenting individual resided with the child after birth and undertook to develop a parental relationship with the child; or

B. As provided in this chapter.

3. Consent form. Consent under subsection 1 executed via a consent form adopted by the Office of Data, Research and Vital Statistics must be accepted and relied upon for purposes of issuing a birth record.

#### **§1925. Challenge by spouse to consent**

1. Challenge by spouse to consent. The spouse of a person who gives birth to a child through assisted reproduction may challenge the spouse's own parentage of the child only if:

A. The spouse did not provide gametes or embryos for the assisted reproduction;

B. The spouse did not before or after the birth of the child consent to the assisted reproduction by the person who gave birth;

C. The spouse and the person who gave birth to the child have not cohabitated since the time of the child's birth; and

D. The spouse did not openly hold out the child as the spouse's own.

#### **§1926. Effect of dissolution of marriage or withdrawal of consent**

1. Dissolution of marriage prior to transfer or implantation. If a marriage is dissolved before transfer or implantation of gametes or embryos, the former spouse is not a parent of the resulting child unless the former spouse consented in a signed record with notice to the other spouse and the woman giving birth that, if assisted reproduction were to occur after a divorce, the former spouse would be a parent of the child.

2. Withdrawal of consent prior to transfer or implantation. The consent of a person to assisted reproduction under section 1924 may be withdrawn by that person in a signed record with notice to the person giving birth and any other intended parent before transfer or implantation of gametes or embryos. A person who withdraws consent under this subsection is not a parent of the resulting child.

#### **§1927. Parent status of deceased person**

If a person who consented in a signed record under section 1924 to be a parent by assisted reproduction dies before transfer or implantation of gametes or embryos, the deceased person is not a parent of the resulting child unless the deceased person consented in

a signed record that, if assisted reproduction were to occur after death, the deceased person would be a parent of the child.

### **§1928. Birth orders**

**1. Proceeding for birth order.** Before or after the birth of the resulting child, a party consenting to assisted reproduction, a person who has a written agreement to be a parent pursuant to section 1922, subsection 2, paragraph B, the intended parent or parents or the person giving birth may commence a proceeding in District Court to obtain an order:

A. Declaring that the intended parent or parents are the parent or parents of the resulting child and ordering that parental rights and responsibilities vest exclusively in the intended parent or parents immediately upon the birth of the child;

B. Sealing the record from the public to protect the privacy of the child and the parties; or

C. For any relief that the court determines necessary and proper.

**2. State not a necessary party.** Neither this State nor the State Registrar of Vital Statistics is a necessary party to a proceeding under subsection 1.

### **§1929. Laboratory error**

If due to a laboratory error the resulting child is not genetically related to either of the intended parents, the intended parents are the parents of the child unless otherwise determined by the court.

## **SUBCHAPTER 8**

### **GESTATIONAL CARRIER AGREEMENT**

#### **§1931. Eligibility to enter gestational carrier agreement**

**1. Eligibility of gestational carrier.** In order to execute an agreement to act as a gestational carrier, a woman must:

A. Be at least 21 years of age;

B. Have previously given birth to at least one child;

C. Have completed a medical evaluation that includes a mental health consultation;

D. Have had independent legal representation of her own choosing and paid for by the intended parent or parents regarding the terms of the gestational carrier agreement and have been advised of the potential legal consequences of the gestational carrier agreement; and

E. Not have contributed gametes that will ultimately result in an embryo that she will attempt to carry to term, unless the gestational carrier is entering into an agreement with a family member.

**2. Eligibility of intended parent or parents.** Prior to executing a gestational carrier agreement, a person or persons intending to become a parent or parents, whether genetically related to the child or not, must:

A. Complete a medical evaluation and mental health consultation; and

B. Retain independent legal representation regarding the terms of the gestational carrier agreement and have been advised of the potential legal consequences of the gestational carrier agreement.

#### **§1932. Gestational carrier agreement authorized**

**1. Written agreement.** A prospective gestational carrier who is eligible pursuant to section 1931, her spouse if she is married and the intended parent or parents may enter into a written agreement that:

A. The prospective gestational carrier agrees to pregnancy by means of assisted reproduction;

B. The prospective gestational carrier and her spouse, if she is married, have no rights and duties as the parents of a child conceived through assisted reproduction; and

C. The intended parent or parents will be the parents of any resulting child.

**2. Intended parents.** The intended parent or parents must be parties to a gestational carrier agreement.

**3. Enforceable.** A gestational carrier agreement is enforceable only if it meets the following requirements.

A. The agreement must be in writing and signed by all parties.

B. The agreement must require no more than a one-year term to achieve pregnancy.

C. At least one of the parties must be a legal resident of the State.

D. The agreement must be executed before the commencement of any medical procedures other than the medical evaluations required by section 1931 and, in every instance, before transfer of embryos.

E. The gestational carrier and the intended parent or parents must meet the eligibility requirements of section 1931.

F. If any party is married, the party's spouse also must be required to execute the agreement.

G. The gestational carrier and the intended parent or parents must be represented by independent legal counsel in all matters concerning the agreement and each counsel shall affirmatively so state

in a written declaration attached to the agreement. The declarations must state that the agreement meets the requirements of this chapter and must be solely relied upon by health care providers and staff at the time of birth and by the Office of Data, Research and Vital Statistics for birth registration and certification purposes.

H. The gestational carrier and each intended parent must sign a written acknowledgment of having received a copy of the agreement.

I. The signature of each party to the agreement must be notarized, acknowledged or attested by a person authorized to take oaths in accordance with the laws of the jurisdiction where it is executed.

J. The agreement must expressly provide that:

(1) The gestational carrier:

(a) Must undergo assisted reproduction and attempt to carry and give birth to any resulting child;

(b) Has no claim to parentage of all resulting children to the intended parent or parents immediately upon the birth of the child or children regardless of whether a court order has been issued at the time of birth; and

(c) Must acknowledge the exclusive parentage of the intended parent or parents of all resulting children;

(2) If the gestational carrier is married, her spouse:

(a) Must acknowledge and agree to abide by the obligations imposed on the gestational carrier by the terms of the gestational carrier agreement;

(b) Has no claim to parentage of any resulting children to the intended parent or parents immediately upon the birth of the children regardless of whether a court order has been issued at the time of birth; and

(c) Must acknowledge the exclusive parentage of the intended parent or parents of all resulting children;

(3) The gestational carrier has the right to use the services of a health care provider of her choosing to provide her care during her pregnancy;

(4) The intended parent or parents must:

(a) Be the exclusive parent or parents and accept parental rights and responsibilities of all resulting children immediately upon birth regardless of the num-

ber, gender or mental or physical condition of the child or children; and

(b) Assume responsibility for the financial support of all resulting children immediately upon the birth of the children; and

(5) All parties must provide records related to the medical evaluations conducted pursuant to section 1931, subsection 2, paragraph A.

**4. Reasonable expenses.** A gestational carrier agreement may provide for payment of reasonable expenses, which, if paid to a prospective gestational carrier, must be negotiated in good faith between the parties.

**5. Decision of gestational carrier.** A gestational carrier agreement may not limit the right of the gestational carrier to make decisions to safeguard her health.

### **§1933. Parentage; parental rights and responsibilities**

If a gestational carrier agreement satisfies the requirements of this chapter:

**1. Parentage.** The intended parent or parents are by operation of law the parent or parents of the resulting child immediately upon the birth of the child, and the resulting child is considered the child of the intended parent or parents immediately upon the birth of the child.

A. Neither the gestational carrier nor her spouse, if any, is the parent of the resulting child.

B. A person who is determined to be a parent of the resulting child is obligated to support the child. The breach of the gestational carrier agreement by the intended parent or parents does not relieve the intended parent or parents of the obligation to support the resulting child;

**2. Parental rights and responsibilities.** Parental rights and responsibilities vest exclusively in the intended parent or parents immediately upon the birth of the resulting child; and

**3. Laboratory error.** If due to a laboratory error the resulting child is not genetically related to either the intended parent or parents or any donor who donated to the intended parent or parents, the intended parent or parents are considered the parent or parents of the child.

### **§1934. Birth orders**

**1. Action for birth order.** Pursuant to a valid gestational carrier agreement under this subchapter, before or after the birth of the resulting child a party to the gestational carrier agreement may commence a proceeding in District Court to obtain an order:

A. Designating the contents of the birth certificate in accordance with Title 22, section 2761 and directing the Office of Data, Research and Vital Statistics to designate the intended parent or parents as the parent or parents of the child. The State Registrar of Vital Statistics may charge a reasonable fee for the issuance of a birth certificate;

B. Declaring that the intended parent or parents are the parent or parents of the resulting child and ordering that parental rights and responsibilities vest exclusively in the intended parent or parents immediately upon the birth of the child;

C. Sealing the record from the public to protect the privacy of the child and the parties; or

D. For any relief that the court determines necessary and proper.

2. State not a necessary party. Neither this State nor the State Registrar of Vital Statistics is a necessary party to a proceeding under subsection 1.

#### §1935. Exclusive, continuing jurisdiction

Subject to the jurisdictional standards of section 1745, the court conducting a proceeding under this subchapter has exclusive, continuing jurisdiction of all matters arising out of the gestational carrier agreement until a child born to the gestational carrier during the period governed by the agreement attains the age of 180 days.

#### §1936. Termination of gestational carrier agreement

1. Termination of agreement; parties. A party to a gestational carrier agreement may withdraw consent to any medical procedure and may terminate the gestational carrier agreement at any time prior to any embryo transfer or implantation by giving written notice of termination to all other parties.

2. Obligations upon termination; no liability to gestational carrier. Upon termination of the gestational carrier agreement under subsection 1, the parties are released from all obligations recited in the agreement except that the intended parent or parents remain responsible for all expenses that are reimbursable under the agreement incurred by the gestational carrier through the date of termination. The gestational carrier is entitled to keep all payments she has received and obtain all payments to which she is entitled. Neither a prospective gestational carrier nor her spouse, if any, is liable to the intended parent or parents for terminating a gestational carrier agreement.

#### §1937. Effect of subsequent marriage

1. Agreement valid. The subsequent marriage of the gestational carrier does not affect the validity of a gestational carrier agreement.

2. Subsequent consent not required. The consent of the subsequent spouse of the gestational carrier to the agreement is not required.

3. No marital presumption. The subsequent spouse of the gestational carrier is not presumed to be a parent of the resulting child.

#### §1938. Effect of noncompliance; standard of review; remedies

1. Not enforceable. Except as otherwise provided, a gestational carrier agreement that does not meet the requirements of this subchapter is not enforceable.

2. Standard of review. In the event of noncompliance with the requirements of this subchapter or with a gestational carrier agreement, a court shall determine the respective rights and obligations of the parties to the gestational carrier agreement, including evidence of the intent of the parties at the time of execution.

3. Remedies. Except as expressly provided in a gestational carrier agreement and in subsection 4, in the event of a breach of the gestational carrier agreement by the gestational carrier or the intended parent or parents, the gestational carrier or the intended parent or parents are entitled to all remedies available at law or in equity.

4. Genetic testing. If the parentage of a child born to a gestational carrier is alleged to not be the result of assisted reproduction, and this question is relevant to the determination of parentage, the court may order genetic testing.

5. Specific performance. Specific performance is not an available remedy for a breach by the gestational carrier of any term in a gestational carrier agreement that requires the gestational carrier to be impregnated or to terminate a pregnancy. Specific performance is an available remedy for a breach by the gestational carrier of any term that prevents the intended parent or parents from exercising the full rights of parentage immediately upon birth of the child.

Bills and records of expenses paid for pregnancy, ~~child birth~~ childbirth and genetic testing are admissible as evidence without requiring 3rd-party foundation testimony and are prima facie evidence of amounts incurred for those services or for testing on behalf of the child. Chapter 63 applies to an award of past support, which is calculated by applying the current child support guidelines to the period for which past support is owed.

**Sec. B-4. 19-A MRSA §1556,** as repealed and replaced by PL 2001, c. 471, Pt. A, §23, is amended to read:

#### §1556. Remedies

The experts may be called by the court as witnesses to testify to their findings and may be subject to cross-examination by the

parties. A party or person at whose suggestion the tests have been ordered may demand that other experts, qualified as examiners of blood or tissue types, perform independent tests under order of court, the results of which may be offered in evidence. The court shall determine the number and qualifications of those experts.

**Sec. B-7. 19-A MRSA §1560,** as enacted by PL 1995, c. 694, Pt. B, §2 and affected by Pt. E, §2, is repealed.

#### §1561. Effect of test results

**1. Effect of results.** The results of the tests required pursuant to ~~section 1558~~ chapter 61, subchapter 6 are evidence to be used in determining paternity as follows.

~~A. If the court finds that the conclusion of all the experts, as disclosed by the evidence based upon the tests, is that the alleged father is not the parent of the child, the question of paternity must be resolved accordingly.~~

B. If the experts disagree in their findings or conclusions, the question must be submitted upon all the evidence.

~~C. If the experts conclude that the blood or tissue tests show that the alleged father is not excluded and that the probability of the alleged father's paternity is less than 97%, this evidence must be admitted by the court and weighed with other competent evidence of paternity.~~

~~D. If the experts conclude that the blood or tissue tests show that the alleged father is not excluded and that the probability of the alleged father's paternity is 97% or higher, the alleged father is presumed to be the father, and this evidence must be admitted.~~

~~The court shall admit as evidence the results of any genetic test that is of a type generally acknowledged as reliable by accreditation bodies designated by the federal Secretary of the Department of Health and Human Services and performed by a laboratory approved by such an accredited body.~~

~~**2. Chain of custody; evidence.** Notarized documentation of the chain of custody of the blood and tissue samples is competent evidence to establish the chain of custody.~~

**3. Notarized reports; challenges.** A notarized report of the blood and tissue tests, prepared by the appointed experts, must be admitted at trial, unless a written challenge to the testing procedure or the results of the blood and tissue tests has been filed with the court and delivered to opposing counsel at least 30

days before a hearing set to determine the issue of paternity. Failure to make that timely challenge constitutes a waiver of the right to have the experts appear in person and is not grounds for a continuance of the hearing to determine paternity.

~~**2. Parental rights and responsibilities.** The court may order an initial allocation of parental rights and responsibilities. The order of the court must provide notice that if either party objects to the allocation, that party may file a complaint pursuant to section 1654 and that an order from that action supersedes this initial allocation of parental rights and responsibilities. It is within the court's discretion to award or allocate parental rights and responsibilities under this subchapter and the department is not a party to this issue. In resolving parental rights and responsibilities issues, the court may not delay entering a determination of paternity and an initial order concerning child support. After a final paternity order has been entered, the department may file a motion to withdraw. Whether or not the department has withdrawn, a party or a parent may file a motion to modify pursuant to section 1653 or section 2009. A copy of the motion must be served in accordance with the Maine Rules of Civil Procedure on the other parent and the department, if the department has not withdrawn. A showing of substantial change in circumstances is not required if the moving party has not previously appeared in the action.~~

**3. Scope of authority.** The court shall consider and act on child protection petitions regardless of other decrees regarding a child's care and custody. The requirements and provisions of Title 19-A, chapter 58 do not apply to child protection proceedings. If custody or parentage is an issue in another pending proceeding, the proceedings may be consolidated in the District Court with respect to the issue of custody issue, parentage or both. In any event, the court shall make an order on the child protection petition in accordance with this chapter. That order takes precedence over any prior order regarding the child's care and custody.

**Sec. C-29. 22 MRSA §4036, sub-§2-A** is enacted to read:

**2-A. Determination of parentage.** In a protection order or in a judicial review order, the court may determine the parentage of the child. The court's determination of the child's parentage must be made pursuant to Title 19-A, chapter 61 and has the same legal effect as a determination of parentage made pursuant to that chapter.

**Sec. 2. 39-A MRSA §105, sub-§4**, as amended by PL 2013, c. 63, §5, is further amended to read:

**4. Hearing.** A hearing, if requested by a party within 10 days of the board's decision on a petition, must be conducted under the Maine Administrative Procedure Act. A ruling by the board or ~~hearing officer~~ administrative law judge under this section is final and not subject to review by the Superior Court.

**Sec. 3. 39-A MRSA §152, sub-§5**, as enacted by PL 1991, c. 885, Pt. A, §8 and affected by §§9 to 11, is amended to read:

**5. Employment of and contracts with administrative law judges and mediators.** The board shall obtain the services of persons qualified by background and training to serve as ~~hearing officers~~ administrative law judges, who are authorized to take action and enter orders consistent with this Act in all cases assigned to them by the board, and mediators. In the exercise of its discretion, the board may obtain the services of ~~hearing officers~~ administrative law judges and mediators by either of the 2 following methods:

A. The board may contract for the services of ~~hearing officers~~ administrative law judges and mediators, in which case they must be paid reasonable per diem fees for their services plus reimbursement of their actual, necessary and reasonable expenses incurred in the performance of their duties, consistent with policies established by the board; or

B. The board may employ ~~hearing officers~~ administrative law judges and mediators to serve at

the pleasure of the board and who are not subject to the Civil Service Law. They are entitled to receive reimbursement of their actual, necessary and reasonable expenses incurred in the performance of their duties, consistent with policies established by the board.

**Sec. 4. 39-A MRSA §153, sub-§9,** as amended by PL 2005, c. 603, §3, is further amended to read:

**9. Audit and enforcement.** The executive director shall establish an audit, enforcement and monitoring program by July 1, 1998, to ensure that all obligations under this Act are met, including the requirements of section 359. The functions of the audit and enforcement program include, but are not limited to, auditing timeliness of payments and claims handling practices of insurers, self-insurers, the Maine Insurance Guaranty Association and 3rd-party administrators; determining whether insurers, self-insurers, the Maine Insurance Guaranty Association and 3rd-party administrators are unreasonably contesting claims; and ensuring that all reporting requirements to the board are met. When auditing the Maine Insurance Guaranty Association, the program shall consider when the Maine Insurance Guaranty Association obtained the records of an insolvent insurer. The program must be coordinated with the abuse investigation unit established by section 153, subsection 5 as appropriate. The program must monitor activity and conduct audits pursuant to a schedule developed by the deputy director of benefits administration. Audit working papers are confidential and may not be disclosed to any person outside of the board except the audited entity. For purposes of this subsection "audit working papers" means all documentary and other information acquired, prepared or maintained by the board during the conduct of an audit or investigation, including all intra-agency and interagency communications relating to an audit or investigation and draft reports or any portion of a draft report. The final audit report, including the underlying reconciled information, is not confidential. At the end of each calendar quarter, the executive director shall prepare a compliance report summarizing the results of the audits and reviews conducted pursuant to this subsection. The executive director shall submit the quarterly compliance reports to the board, the Bureau of Insurance and the Director of the Bureau of Labor Standards within the Department of Labor. An annual summary must be provided to the Governor and to the joint standing committees of the Legislature having jurisdiction over labor and banking and insurance matters by February 15th of each year. **Sec. 5. 39-A MRSA §205, sub-§9, ¶B,** as amended by PL 2011, c. 647, §2, is further amended to read:

B. In all circumstances other than the return to work or increase in pay of the employee under paragraph A, if the employer, insurer or group self-insurer determines that the employee is not eligible for compensation under this Act, the employer, insurer or group self-insurer may discontinue or reduce benefits only in accordance with this paragraph.

(1) If no order or award of compensation or compensation scheme has been entered, the employer, insurer or group self-insurer may discontinue or reduce benefits by sending a certificate by certified mail to the employee and to the board, together with any information on which the employer, insurer or group self-insurer relied to support the discontinuance or reduction. The employer may discontinue or reduce benefits no earlier than 21 days from the date the certificate was mailed to the employee, except that benefits paid pursuant to section 212, subsection 1 or section 213, subsection 1 may be discontinued or reduced based on the amount of actual documented earnings paid to the employee during the 21-day period if the employer files with the board the documentation or evidence that substantiates the earnings and the employer only reduces or discontinues benefits for any week for which it possesses evidence of such earning. The certificate must advise the employee of the date when the employee's benefits will be discontinued or reduced, as well as other information as prescribed by the board, including the employee's appeal rights.

(2) If an order or award of compensation or compensation scheme has been entered, the employer, insurer or group self-insurer shall petition the board for an order to reduce or discontinue benefits and may not reduce or discontinue benefits until the matter has been resolved by a decree issued by a hearing officer ~~or an administrative law judge~~. The employer, insurer or group self-insurer may reduce or discontinue benefits pursuant to such a decree pending a motion for findings of fact and conclusions of law or pending an appeal from that decree. Upon the filing of a petition, the employer may discontinue or reduce the weekly benefits being paid pursuant to section 212, subsection 1 or section 213, sub-

section 1 based on the amount of actual documented earnings paid to the employee after filing the petition. The employer shall file with the board the documentation or evidence that substantiates the earnings and the employer may discontinue or reduce weekly benefits only for weeks for which the employer possesses evidence of such earnings.

**Sec. 6. 39-A MRSA §206, sub-§2**, as enacted by PL 1991, c. 885, Pt. A, §8 and affected by §§9 to 11, is amended to read:

**2. Employee selection.** After 10 days from the inception of health care under subsection 1, the employee may select a different health care provider by giving to the employer the name of the health care provider and a statement of intention to treat with the health care provider. The employer may file a petition objecting to the named health care provider selected by the employee and setting forth reasons for the objection. The issue of the health care provider must be set for mediation pursuant to section 313. If the objection is not resolved through mediation, after notice to all parties and a prompt hearing by ~~a hearing officer~~ an administrative law judge, the ~~hearing officer~~ administrative law judge may order one of the following:

A. If the employer can not show cause why the employee should not commence or continue treatment with the health care provider of the employee's choice, the ~~hearing officer~~ administrative law judge shall order that the employer is responsible for payment for treatment received from the health care provider; or

B. If the employer can show cause why the employee should not commence or continue treatment with the health care provider of the employee's choice, the ~~hearing officer~~ administrative law judge shall order that the employer is not responsible and that the employee is responsible for payment for treatment received from the health care provider from the date the order is mailed.

**Sec. 7. 39-A MRSA §207, first ¶**, as amended by PL 2001, c. 278, §1, is further amended to read:

An employee being treated by a health care provider of the employee's own choice shall, after an injury and at all reasonable times during the continuance of disability if so requested by the employer, submit to an examination by a physician, surgeon or chiropractor authorized to practice as such under the laws of this State, to be selected and paid by the employer. The physician, surgeon or chiropractor must have an active practice of treating patients. For purposes of this section, "active practice" may be demonstrated by having active clinical privileges at a hospital. A physician or surgeon must be certified in the field of practice that treats the type of injury complained of by the em-

ployee. Certification must be by a board recognized by the American Board of Medical Specialties or the American Osteopathic Association or their successor organizations. A chiropractor licensed by the Board of Chiropractic Licensure, who has an active practice of treating patients may provide a 2nd opinion when the initial opinion was given by a chiropractor. Once an employer selects a health care provider to examine an employee, the employer may not request that the employee be examined by more than one other health care provider, other than an independent medical examiner appointed pursuant to section 312, without prior approval from the employee or ~~a hearing officer~~ an administrative law judge. This provision does not limit an employer's right to request that the employee be examined by a specialist upon referral by the health care provider. Once the employee is examined by the specialist, the employer may not request that the employee be examined by a different specialist in the same specialty, other than an independent medical examiner appointed pursuant to section 312, without prior approval from the employee or the board. The employee has the right to have a physician, surgeon or chiropractor of the employee's own selection present at such an examination, whose costs are paid by the employer. The employer shall give the employee notice of this right at the time the employer requests an examination.

**Sec. 8. 39-A MRSA §213, sub-§1**, as repealed and replaced by PL 2011, c. 647, §7, is amended to read:

**1. Benefit and duration.** While the incapacity for work is partial, the employer shall pay the injured employee a weekly compensation as follows.

A. If the injured employee's date of injury is prior to January 1, 2013, the weekly compensation is equal to 80% of the difference between the injured employee's after-tax average weekly wage before the personal injury and the after-tax average weekly wage that the injured employee is able to earn after the injury, but not more than the maximum benefit under section 211. Compensation must be paid for the duration of the disability if the employee's permanent impairment, determined according to subsection 1-A and the impairment guidelines adopted by the board pursuant to section 153, subsection 8, resulting from the personal injury is in excess of 15% to the body. In all other cases an employee is not eligible to receive compensation under this paragraph after the employee has received a total of 260 weeks of compensation under section 212, subsection 1, this paragraph or both. The board may in the exercise of its discretion extend the duration of benefit entitlement beyond 260 weeks in cases involving extreme financial hardship due to inability to return to gainful employment. This authority may be delegated by the board, on a case-by-case basis, to ~~a hearing of-~~

~~fi~~ ~~er~~ an administrative law judge or a panel of 3 ~~hearing officers administrative law judges~~. Decisions made under this paragraph must be made expeditiously. A decision under this paragraph made by ~~a hearing officer~~ an administrative law judge or a panel of 3 ~~hearing officers administrative law judges~~ may not be appealed to the board under section 320, but may be appealed pursuant to section 322.

B. If the injured employee's date of injury is on or after January 1, 2013, the weekly compensation is equal to 2/3 of the difference, due to the injury, between the employee's average gross weekly wages, earnings or salary before the injury and the average gross weekly wages, earnings or salary that the employee is able to earn after the injury, but not more than the maximum benefit under section 211. An employee is not eligible to receive compensation under this paragraph after the employee has received a total of 520 weeks of compensation under section 212, subsection 1-A, this paragraph or both. The board may in the exercise of its discretion extend the duration of benefit entitlement beyond 520 weeks in cases involving extreme financial hardship due to inability to return to gainful employment. This authority may be delegated by the board, on a case-by-case basis, to ~~a hearing officer~~ an administrative law judge or a panel of 3 ~~hearing officers administrative law judges~~. The board, ~~hearing officer~~ administrative law judge or panel shall make a decision under this paragraph expeditiously. A decision under this paragraph made by ~~a hearing officer~~ an administrative law judge or a panel of 3 ~~hearing officers administrative law judges~~ may not be appealed to the board under section 320, but may be appealed pursuant to section 321-A.

Orders extending benefits beyond 520 weeks are not subject to review more often than every 2 years from the date of the board order or request allowing an extension.

**Sec. 9. 39-A MRSA §303**, as amended by PL 2013, c. 63, §8, is further amended to read:

**§303. Reports to board**

When any employee has reported to an employer under this Act any injury arising out of and in the course of the employee's employment that has caused the employee to lose a day's work, or when the employer has knowledge of any such injury, the employer shall report the injury to the board within 7 days after the employer receives notice or has knowledge of the injury. An insured employer that has notice or knowledge of any such injury and fails to give timely notice to its insurer shall reimburse the insurer for any penalty that is due as a result of the late filing of the report of injury. The employer shall also report the average weekly wages or earnings of the employee, as defined

in section 102, subsection 4, together with any other information required by the board, within 30 days after the employer receives notice or has knowledge of a claim for compensation under section 212, 213 or 215, unless a wage statement has previously been filed with the board. The wage statement must report the earnings or wages of the employee on a weekly basis, unless the employee is paid on other than a weekly basis, in which case the employer may report the earnings or wages in the same manner as earnings or wages are paid. A copy of the wage information must be mailed to the employee. The employer shall report when the injured employee resumes the employee's employment and the amount of the employee's wages or earnings at that time. The employer shall complete a first report of injury form for any injury that has required the services of a health care provider within 7 days after the employer receives notice or has knowledge of the injury. The employer shall provide a copy of the form to the injured employee and retain a copy for the employer's records but is not obligated to submit the form to the board unless the injury later causes the employee to lose a day's work. The employer is also required to submit the form to the board if the board has finally adopted a major substantive rule pursuant to Title 5, chapter 375, subchapter 2-A to require the form to be filed electronically.

If an employee has had an incapacity beyond the 14-day period established in section 204 and subsequently returns to work and attends medical appointments related to the injury, the employer is not required to report the lost time for such appointments to the board if the employee did not lose wages for attending such appointments.

**Sec. 10. 39-A MRSA §309, sub-§3**, as amended by PL 2005, c. 99, §1, is further amended to read:

**3. Witnesses; discovery.** All witnesses must be sworn. Sworn written evidence may not be admitted unless the author is available for cross-examination or subject to subpoena; except that sworn statements by a medical doctor or osteopathic physician relating to medical questions, by a psychologist relating to psychological questions, by a chiropractor relating to chiropractic questions, by a certified nurse practitioner who qualifies as an advanced practice registered nurse relating to advanced practice registered nursing questions or by a physician's assistant relating to physician assistance questions are admissible in workers' compensation hearings only if notice of the testimony to be used is given and service of a copy of the letter or report is made on the opposing counsel 14 days before the scheduled hearing.

Depositions or subpoenas of health care practitioners who have submitted sworn written evidence are permitted only if the ~~hearing officer~~ administrative law

judge finds that the testimony is sufficiently important to outweigh the delay in the proceeding.

The board may establish procedures for the pre-filing of summaries of the testimony of any witness in written form. In all proceedings before the board or its designee, discovery beyond that specified in this section is available only upon application to the board, which may approve the application in the exercise of its discretion.

**Sec. 11. 39-A MRSA §312, sub-§9**, as enacted by PL 1991, c. 885, Pt. A, §8 and affected by §§9 to 11, is amended to read:

**9. Annual review.** The board shall create a review process to oversee on an annual basis the quality of performance and the timeliness of the submission of medical findings by the independent medical examiners and shall develop rules in relation to timeliness and procedures applicable to this section.

**Sec. 12. 39-A MRSA §315, first ¶**, as enacted by PL 1991, c. 885, Pt. A, §8 and affected by §§9 to 11, is amended to read:

Upon filing of the mediator's report indicating that mediation has not resolved all issues in dispute, the matter must be referred to the board, which shall fix a time for hearing upon at least a 5-day notice given to all the parties or to the attorney of record of each party. All hearings must be held before ~~a hearing officer~~ an administrative law judge employed by the board at such towns and cities geographically distributed throughout the State as the board designates. If the designated place of hearing is more than 10 miles from the place where the injury occurred, the employer shall provide transportation or reimburse the employee for reasonable mileage in traveling within the State to and from the hearing. The amount allowed for travel is determined by the board and awarded separately in the decree.

**Sec. 13. 39-A MRSA §318**, as amended by PL 2013, c. 63, §10 and affected by §16, is further amended to read:

**§318. Hearing and decision**

The ~~hearing officer~~ administrative law judge shall hear those witnesses as may be presented or, by agreement, the claims of both parties as to the facts may be presented by affidavits. If the facts are not in dispute, the parties may file with the ~~hearing officer~~ administrative law judge an agreed statement of facts for a ruling on the applicable law. From the evidence or statements furnished, the ~~hearing officer~~ administrative law judge shall in a summary manner decide the merits of the controversy. The ~~hearing officer's~~ administrative law judge's decision must be filed in the office of the board and a copy, attested by the clerk of the board, mailed promptly to all parties interested or to the attorney of record of each party. The ~~hearing~~

~~officer's~~ administrative law judge's decision, in the absence of fraud, on all questions of fact is final; but if the ~~hearing officer~~ administrative law judge expressly finds that any party has or has not sustained the party's burden of proof, that finding is considered a conclusion of law and is reviewable in accordance with section 322.

The ~~hearing officer~~ administrative law judge, upon motion by the petitioning party, may include a finding in the decree that the employer's refusal to pay the benefits at issue was not based on any rational grounds developed between the claim and formal hearing. Upon such a finding, the employer shall pay interest to the employee under section 205, subsection 6 at a rate of 25% per annum from the date each payment was due, instead of 10% per annum.

The ~~hearing officer~~ administrative law judge, upon the motion of a party made within 20 days after notice of the decision or upon its own motion, may find the facts specially and state separately the conclusions of law and file the appropriate decision if it differs from the decision filed before the request was made. Those findings and conclusions and the revised decision must be filed in the office of the board and a copy, attested by the clerk of the board, must be mailed promptly to all parties interested. The running of the time for appeal is terminated by a timely motion made pursuant to this section and the full time for appeal commences to run from the filing of those findings and conclusions and the revised decision.

Clerical mistakes in decrees, orders or other parts of the record and errors arising from oversight or omission may be corrected by the board at any time of its own initiative, at the request of the ~~hearing officer~~ administrative law judge or on the motion of any party and after notice to the parties. During the pendency of an appeal, these mistakes may be corrected before the appeal is filed with the division and thereafter, while the appeal is pending, may be corrected with leave of the division.

**Sec. 14. 39-A MRSA §320**, as amended by PL 2013, c. 63, §§11 and 12 and affected by §16, is further amended to read:

**§320. Review by full board**

~~A hearing officer~~ An administrative law judge may request that the full board review a decision of the ~~hearing officer~~ administrative law judge if the decision involves an issue that is of significance to the operation of the workers' compensation system. Except when a motion is filed to find the facts specially and state separately the conclusions of law, the request must be made within 25 days of the issuance of a decision. If a motion is filed to find the facts specially and state separately the conclusions of law, the request must be made within 5 days of the issuance of a decision on the motion. There may be no such review of

findings of fact made by ~~a hearing officer~~ an administrative law judge.

If ~~a hearing officer~~ an administrative law judge asks for review, the time for appeal is stayed and no further action may be taken until a decision of the board has been made. If the board reviews a decision of ~~a hearing officer~~ an administrative law judge, any appeal must be from the decision of the board and must be made to the Law Court in accordance with section 322. The time for appeal begins upon the board's issuance of a written decision on the merits of the case or written notice that the board denies review.

The board shall vote on whether to review the decision. If a majority of the board's membership fails to vote to grant review or the board fails to act within 60 days after receiving the initial request for review, the decision of the ~~hearing officer~~ administrative law judge stands, and any appeal must be made to the division in accordance with section 321-B. If the board votes to review the decision, the board may delegate responsibility for reviewing the decision of the ~~hearing officer~~ administrative law judge under this section to panels of board members consisting of equal numbers of representatives of labor and management. Review must be on the record and on written briefs only. Upon a vote of a majority of the board's membership, the board shall issue a written decision affirming, remanding, vacating or modifying the ~~hearing officer's~~ administrative law judge's decision. The written decision of the board must be filed with the board and mailed to the parties or their counsel. If the board fails to adopt a decision by majority vote, the decision of the ~~hearing officer~~ administrative law judge stands and is subject to direct appellate review in the same manner as if the board had not voted to review the decision.

**Sec. 15. 39-A MRSA §321-A, sub-§§2 and 3,** as enacted by PL 2011, c. 647, §20, are amended to read:

**2. Composition.** The division is composed of full-time ~~hearing officers~~ administrative law judges who are appointed by the executive director of the board to serve on panels to review decisions under section 318. The executive director of the board shall appoint no fewer than 3 full-time ~~hearing officers~~ administrative law judges to serve as members of a panel. ~~A hearing officer~~ An administrative law judge may not serve as a member of a panel that reviews a decision of that ~~hearing officer~~ administrative law judge. ~~A hearing officer~~ An administrative law judge may be a member of more than one panel at the discretion of the executive director of the board.

**3. Rules.** The board shall adopt rules of procedure designed to provide a prompt and inexpensive review of a decision by ~~a hearing officer~~ an administrative law judge. Rules adopted pursuant to this sub-

section are routine technical rules as defined in Title 5, chapter 375, subchapter 2-A.

**Sec. 16. 39-A MRSA §321-B,** as amended by PL 2013, c. 63, §§13 and 14 and affected by §16, is further amended to read:

**§321-B. Appeal from administrative law judge decision**

**1. Procedure.** An appeal of a decision by ~~a hearing officer~~ an administrative law judge pursuant to section 318 to the division must be conducted pursuant to this subsection.

A. A party in interest may file with the division a notice of intent to appeal a decision by ~~a hearing officer~~ an administrative law judge pursuant to section 318 within 20 days after receipt of notice of the filing of the decision by the ~~hearing officer~~ administrative law judge.

B. At the time of filing an appeal under this section, the appellant shall file with the division a copy of the decision appealed. The failure of an appellant who timely files an appeal in accordance with paragraph A to provide a copy of the decision does not affect the jurisdiction of the division to determine the appeal on its merits unless the appellee shows substantial prejudice from that failure.

**2. Basis.** A finding of fact by ~~a hearing officer~~ an administrative law judge is not subject to appeal under this section.

**3. Action.** The division, after due consideration, may affirm, vacate, remand or modify a decree of ~~a hearing officer~~ an administrative law judge and shall issue a written decision. The written decision of the division must be filed with the board and mailed to the parties or their counsel.

**4. Publication of decisions.** The division shall publish the decisions issued under subsection 3 and make them available to the public at such cost as is required to pay for suitable publication. The division shall distribute copies of all written decisions to the State Law Library and the county law libraries.

**Sec. 17. 39-A MRSA §322,** as amended by PL 2011, c. 647, §21, is further amended to read:

**§322. Appeal from decision of appellate division or board**

**1. Appeals.** Any party in interest may present a copy of the decision of the division or ~~a decision~~ of the board, if the board has reviewed a decision pursuant to section 320, to the clerk of the Law Court within 20 days after receipt of notice of the filing of the decision by the division or the board. Within 20 days after the copy is filed with the Law Court, the party seeking review by the Law Court shall file a petition seeking appellate review with the Law Court that sets forth a

brief statement of the facts, the error or errors of law that are alleged to exist and the legal authority supporting the position of the appellant.

**2. Procedures.** The Law Court shall establish and publish procedures for the review of petitions for appellate review of decisions of the board.

**3. Discretionary appeal; action.** Upon the approval of 3 or more members of a panel consisting of no fewer than 5 Justices of the Law Court, the petition for appellate review may be granted. If the petition for appellate review is denied, the decision of the board is final. The petition must be considered on written briefs only.

If the petition for appellate review is granted, the clerk of the Law Court shall notify the parties of the briefing schedule consistent with the Maine Rules of Civil Procedure and in all respects the appeal before the Law Court must be treated as an appeal in an action in which equitable relief has been sought, except that there may be no appeal upon findings of fact. The Law Court may, after due consideration, reverse, modify or affirm any decision of the board.

**Sec. 18. 39-A MRSA §324, sub-§1,** as amended by PL 2013, c. 63, §15, is further amended to read:

**1. Order or decision.** The employer or insurance carrier shall make compensation payments within 10 days after the receipt of notice of an approved agreement for payment of compensation or within 10 days after any order or decision of the board awarding compensation. If the board enters a decision awarding compensation, and a motion for findings of fact and conclusions of law is filed with the ~~hearing officer~~ administrative law judge or an appeal is filed with the division pursuant to section 321-B or the Law Court pursuant to section 322, payments may not be suspended while the motion for findings of fact and conclusions of law or appeal is pending. The employer or insurer may recover from an employee payments made pending a motion for findings of fact and conclusions of law or appeal to the division or the Law Court if and to the extent that the ~~hearing officer~~ administrative law judge, division or the Law Court has decided that the employee was not entitled to the compensation paid. The board has full jurisdiction to determine the amount of overpayment, if any, and the amount and schedule of repayment, if any. The board, in determining whether or not repayment should be made and the extent and schedule of repayment, shall consider the financial situation of the employee and the employee's family and may not order repayment that would work hardship or injustice. The board shall notify the Commissioner of Health and Human Services within 10 days after the receipt of notice of an approved agreement for payment of compensation or within 10 days after any order or decision of the board awarding compensation identifying the employee who is to re-

ceive the compensation. For purposes of this subsection, "employer or insurance carrier" includes the Maine Insurance Guaranty Association under Title 24-A, chapter 57, subchapter 3.

**Sec. 19. 39-A MRSA §329,** as enacted by PL 1999, c. 202, §1, is amended to read:

**§329. Interpreter required**

An employee whose native language is not English and who does not understand the English language to the degree necessary to reasonably understand and participate in proceedings that affect the employee's rights is entitled to have an interpreter present at all proceedings before the board or a ~~hearing officer~~ an administrative law judge relating to that employee's rights. The board shall provide and pay the cost of the interpreter. To the extent possible, the board shall seek advice from the Department of Labor in locating appropriate interpreters to meet the needs of employees in the workers' compensation system.

**Sec. 20. 39-A MRSA §353, first ¶,** as enacted by PL 1991, c. 885, Pt. A, §8 and affected by §§9 to 11, is amended to read:

An employee may not be discriminated against by any employer in any way for testifying or asserting any claim under this Act. Any employee who is so discriminated against may file a petition alleging a violation of this section. The matter must be referred to a ~~hearing officer~~ an administrative law judge for a formal hearing under section 315, but any ~~hearing officer~~ administrative law judge who has previously rendered any decision concerning the claim must be excluded. If the employee prevails at this hearing, the ~~hearing officer~~ administrative law judge may award the employee reinstatement to the employee's previous job, payment of back wages, reestablishment of employee benefits and reasonable attorney's fees.

**Sec. 21. 39-A MRSA §355-C, sub-§3,** as enacted by PL 2001, c. 448, §5, is amended to read:

**3. Determinations.** The committee shall review requests for reimbursement within 14 days of receipt of the request or within a longer period of time if mutually acceptable to the parties. The committee shall issue a final determination, designated as such, to each insurer or self-insurer that has requested reimbursement. An insurer or self-insurer may petition the board for a hearing before a ~~hearing officer~~ an administrative law judge within 30 days of notice of the determination. Review by the board is limited to errors of law and abuse of discretion.

**13. Waiver; disqualifying offense.** In the event that no other federal or state law mandates an employment prohibition by an employer subject to this chapter, an individual who is banned from employment because of a disqualifying offense may initiate a request for a waiver under subsection 8, paragraph H in accordance with a process established by rules adopted pursuant to this chapter under the following circumstances:

A. The individual is seeking to be employed or is currently employed by an employer subject to the requirements of this chapter;

B. The employer has chosen to sponsor the individual's request for the removal of the ban in order to create or maintain an employment relationship; and

(1) The nature and gravity of the disqualifying offense or offenses;

(2) The time that has passed since the disqualifying offense or offenses;

(3) The nature of the employment held or sought;

(4) Whether the criminal conduct was employment-related; and

(5) A reasonable conclusion that the individual does not pose a threat of harm to a protected individual or others in the care and support of the individual.

The waiver must be sought with respect to the prospective or continued employment by a specific employer that is willing to sponsor the individual's request. An employee seeking a waiver may be conditionally employed in accordance with section 9057, subsection 4 and section 9058, subsection 3 until the waiver is denied.

**14. Approval of waiver.** The department shall specify in rule the criteria for issuing a waiver for a disqualifying offense. The waiver determination is based on a consideration of the facts and circumstances of the specific individual's conviction that include the passage of time, extenuating circumstances, a demonstration of rehabilitation and the relevancy of the particular disqualifying offense with respect to the current or prospective employment with a sponsoring

employer. All waivers are contingent on a final determination by the department that the employer has reasonably determined that the health and safety of a protected individual is not in jeopardy and a denial of a waiver request is not otherwise warranted in accordance with federal or state law.

**15. Waivers; factors.** The department shall specify in rule the minimum factors that an employer must consider when sponsoring a waiver under subsection 13. Any factors that an employer chooses to consider must be objectively reasonable in supporting the attestation that the individual to whom the waiver would apply is unlikely to cause harm to a protected individual or others in the employer's care. Objectively reasonable factors include:

A. The age of the individual applying for a waiver at the time of the disqualifying offense;

B. The amount of time that has passed since the disqualifying offense occurred;

C. The total number and type of disqualifying offenses;

D. Any proven mitigating circumstances surrounding the disqualifying offense;

E. Objective evidence that the individual has successfully completed a criminal rehabilitation program;

F. The relevance of the circumstances pertaining to the disqualifying offense with respect to the nature of the proposed employment;

G. The length and consistency of similar employment post-conviction if applicable;

H. Whether the individual is bonded under federal or state law; and

I. Personal references or recommendations from employers on behalf of the individual.

**16. Denial or revocation of waiver.** The department shall establish by rule informal and formal review procedures for denial or revocation of a waiver. Denial or revocation of waiver procedures must comply with the Maine Administrative Procedures Act and final determinations may be appealed pursuant to the Maine Administrative Procedures Act in Title 5, Part 18, Chapter 375, subchapter 4. Rules concerning the denial or revocation of waiver procedures include, but are not limited to, the following:

A. The process of filing a waiver request;

B. The time frame for filing a waiver request;

Rules adopted pursuant to this subsection are routine technical rules as defined in Title 5, chapter 375, subchapter 2-A.

17. Immunity. A provider that denies employment for an individual selected for hire or continued employment as a direct access worker, including during any period of conditional employment, and that reasonably relies upon information obtained through a final background check report regarding the individual is not liable in an action brought by the individual based on an employment determination resulting from the information.

18. Presumption of good faith. In a proceeding regarding immunity from liability, there is a rebuttable presumption of good faith.

B. The department shall establish procedures to search and monitor applicable registries and databases for notations or new information not reported in earlier background check reports that

prohibit or disqualify employment as a direct access worker.

2. Rap back monitoring program. The bureau is authorized to initiate and provide services pursuant to federal or state rap back monitoring to report new criminal record events to the Background Check Center for noncriminal justice purposes.

3. Collection of identifier data. The bureau shall coordinate with the Background Check Center to collect the personally identifiable information and relevant data of individuals as needed to meet the requirements of the rap back monitoring program or as otherwise required by this chapter and other laws.

### §551. Maine Ground and Surface Waters Clean-up and Response Fund

The ~~Maine Coastal Ground and Inland Surface Oil Waters Clean-up and Response Fund~~ is established to be used by the department as a nonlapsing, revolving fund for carrying out the purposes of this subchapter. ~~The balance in the fund is limited to \$6,000,000, the sum of which includes all funds credited under this section \$18,500,000.~~ The Department of Environmental Protection shall collect fees in accordance with subsection 4. To this fund are credited all license and registration fees, fees for late payment or failure to register, penalties, transfer fees, reimbursements, assessments and other fees and charges related to this subchapter, ~~and to and subchapter 2-B.~~ To this fund are charged any and all expenses of the department related to this subchapter, including administrative expenses, costs of removal of discharges of pollutants, 3rd-party damages, costs of cleanup of discharges of oil and oil by-products, including, but not limited to, restoration of water supplies and 3rd-party damages covered by this subchapter any obligations of the State pursuant to Title 10, section 1024, subsection 1.

Money in the fund, not needed currently to meet the obligations of the department in the exercise of its responsibilities under this subchapter must be deposited with the Treasurer of State to the credit of the fund, and may be invested in such manner as is provided for by statute. Interest received on that investment must be credited to the Maine Coastal and Inland Surface Oil Clean-up Fund fund.

~~**1-A. Sensitive area data management and mapping.** The Legislature may allocate no more than \$350,000 per year of the amount then currently in the fund until fiscal year 1994 95 to mapping, data management and computerization related to the protection of sensitive areas and similar activities required under section 546 B. This limitation does not include personnel costs. The allocations must be made in accordance with section 555. After fiscal year 1993 94, the Legislature must review the need for these activities before allocating additional funds.~~

**1-B. Research and development.** The Legislature may allocate not more than ~~\$250,000~~ \$100,000 per annum of the amount currently in the fund to be devoted to research and development in the causes, effects and removal of pollution caused by oil, ~~petroleum products and their by products on waters of the State.~~ Researchers receiving funds under this subsection shall use vessels based in this State as platforms when practicable. Such allocations must be made in accordance with section 555.

**2. Third-party damages.** Any person claiming to have suffered property damage or actual economic damages, including, but not limited to, loss of income and medical expenses arising from physical bodily injury, directly or indirectly as a result of a discharge

of oil prohibited by section 543 including all discharges of oil from interstate pipelines, in this subsection called "the claimant," may apply within 12 months after the occurrence of a discharge to coastal waters and for other ~~surface~~ discharges within 2 years after the occurrence or discovery of the injury or damage, whichever date is later, to the commissioner stating the amount of damage alleged to have been suffered as a result of that discharge. The commissioner shall prescribe appropriate forms and details for the applications. The commissioner may contract with insurance professionals to process claims. The commissioner may, upon petition and for good cause shown, waive the time limitation for filing damage claims. All 3rd-party damage claims for which no determination of award has been made must be processed in accordance with the substantive and procedural provisions of this section.

A. When a responsible party is known, the commissioner shall send by certified mail to the responsible party notice of claim and written notice of the right to join the 3rd-party damage claim process as an interested party. A responsible party shall provide written notification to the department of the responsible party's intent to join within 10 working days of receipt of this notice. If the responsible party joins as an interested party and formally agrees in writing to the amount of the damage claim, the determination of the amount of the claim and award is binding in any subsequent action for reimbursement to the fund. If a claimant has not been compensated for 3rd-party damages by the responsible party or the expenses are above the responsible party's deductible and the claimant, the responsible party and the commissioner agree as to the amount of the damage claim, or if the responsible party does not join as an interested party or when the responsible party is not known after the commissioner has exercised reasonable efforts to ascertain the responsible party, and the claimant and the commissioner agree as to the amount of the damage claim, the commissioner shall certify the amount of the claim and the name of the claimant to the Treasurer of State and the Treasurer of State shall pay the amount of the claim from the ~~Maine Coastal and Inland Surface Oil Clean-up Fund fund.~~

B. If the claimant, the responsible party and the commissioner are not able to agree as to the amount of the damage claim, or if the responsible party does not join as an interested party or when the responsible party is not known after the commissioner has exercised reasonable efforts to ascertain the responsible party, and the claimant and the commissioner are not able to agree as to the amount of the damage claim, the claim is subject to subsection 3-A.

C. Third-party damage claims must be stated in their entirety in one application. Damages omitted from any claim at the time the award is made are waived unless the damage or injury was not known at the time of the claim.

D. Damage claims arising under this subchapter that are a result of a prohibited discharge to coastal waters are recoverable only in the manner provided under this subchapter, it being the intent of the Legislature that the remedies provided in this subchapter for discharges to coastal waters are exclusive.

E. Awards from the fund on damage claims may not include any amount the claimant has recovered, on account of the same damage, by way of settlement with the responsible party or the responsible party's representatives or judgment of a court of competent jurisdiction against the responsible party to the extent these amounts are duplicative.

F. A claimant shall take all reasonable measures to prevent and minimize damages suffered by the claimant as a result of a discharge of oil. Reasonable measures include title searches and site assessments for the acquisition of commercial or industrial properties.

G. The remedies provided for 3rd-party damage claims compensated under this subchapter are nonexclusive for damages that are not a result of prohibited discharges to coastal waters. A court awarding damages to a claimant as a result of a discharge of oil to surface waters prohibited by section 543 shall reduce damages awarded by any amounts received from the fund to the extent these amounts are duplicative.

H. Payments from the fund for 3rd-party damage claims may not exceed \$200,000 per claimant except when the damages are a result of a discharge to coastal waters or when the claimant is a publicly owned or operated public water system.

I. A 3rd-party damage claim for damages to real estate may not include the devaluation of the real estate associated with the loss of a water supply if the commissioner finds under section 548 or section 568, subsection 2 that a public or private water supply is available and if that water supply best meets the criteria of that section and the property owner did not agree to be served by that public or private water supply. If a water supply well is installed after October 1, 1994 to serve a location that immediately before the well installation was served by a viable community public water system, and the well is or becomes contaminated with oil:

(1) A 3rd party may not recover damages under this subchapter for expenses incurred in

treating or replacing the well if the well is installed in an area delineated as contaminated as provided in section 548, subsection 1; and

(2) A 3rd-party damage claim under this subchapter with regard to treatment or replacement of the well is limited to reimbursement of the expense of installing the well and its proper abandonment if the well is installed in any other area.

For purposes of this paragraph, "viable community public water system" has the same meaning as in section 548.

J. A claimant is not eligible for compensation under this subsection for costs, expenses or damages related to a discharge if the commissioner determines that the claimant is a responsible party ~~as defined under section 542, subsection 9-C.~~

K. Prior to forwarding a claim to the hearing examiner under subsection 3-A, the commissioner may require that the amount of the claim be finalized.

L. Third-party damage claims may not include expenditures for the preparation and prosecution of the damage claim, such as legal fees or real estate appraisal fees.

M. The commissioner may dismiss a 3rd-party damage claim for untimely filing, for failure by the claimant to provide the information necessary to process the claim within 60 days after the claimant receives written notice that the claim is insufficient for processing or for ineligibility as determined by the commissioner under paragraph J. A dismissal may be appealed to Superior Court in accordance with Title 5, chapter 375, subchapter 7.

**2-B. Claimant contact.** When the commissioner becomes aware of a claimant under subsection 2, the commissioner shall send a letter by certified mail to inform that person of the 3rd-party damage claims process under subsection 2. The letter must contain the name and telephone number of a contact person available to explain the claims procedure.

**3-A. Determination of disputed 3rd-party damage claims.** The commissioner shall establish a disputed claims processing capability within the department to hear and determine claims filed under this subchapter that are not agreed upon by the claimant and the commissioner and any responsible party who has joined as an interested party.

A. An independent hearing examiner appointed by the commissioner shall hear and determine any disputed 3rd-party damage claims. The parties to the hearing are the commissioner and the claimant.

B. To the extent practical, all claims arising from or related to a common discharge must be heard and determined by the same hearing examiner.

C. Hearings before the hearing examiner are informal and the rules of evidence applicable to judicial proceedings are not binding. The hearing examiner may administer oaths and require by subpoena the attendance and testimony of witnesses and the production of books, records and other evidence relative or pertinent to the issues presented to the hearing examiner for determination.

D. Determinations made by the hearing examiner are final and those determinations may be subject to review by a Justice of the Superior Court, but only as to matters related to abuse of discretion by the hearing examiner. The party seeking review of a hearing examiner's determination must file an appeal in the Superior Court within 30 days of the determination. Determinations made by the hearing examiner must be accorded a presumption of regularity and validity in a subsequent reimbursement action, but this presumption may be rebutted by responsible parties.

E. The commissioner shall certify the amount of the damage award, if any, after determination by the hearing examiner and shall certify the name of the claimant to the Treasurer of State.

**4. Funding.** ~~The Maine Coastal and Inland Surface Oil Clean-up Fund fund~~ is funded pursuant to this subsection.

~~A. License fees are 3¢ per barrel of unrefined crude oil and all other refined oil, including #6 fuel oil, #2 fuel oil, kerosene, gasoline, jet fuel and diesel fuel, transferred by the licensee during the licensing period and A fee is assessed on the first transfer of products listed in this subsection by oil terminal facility licensees and on a person required to register with the commissioner under section 545-B who first transports oil into the State. These fees must be paid monthly by the licensee on the basis of records certified to the commissioner. License fees must be paid to the department and upon receipt by it credited to the Maine Coastal and Inland Surface Oil Clean-up Fund fund.~~

A-1. A fee is assessed of:

- (1) Three cents per barrel of unrefined crude oil and liquid asphalt;
- (2) Seven cents per barrel of #6 fuel oil;
- (3) Twenty-two cents per barrel of #2 fuel oil, kerosene, jet fuel, diesel fuel and other refined products and their by-products not otherwise specified in this subsection, excluding liquid asphalt; and

(4) Forty-one cents per barrel of gasoline.

This paragraph does not apply to waste oil transported into the State in any motor vehicle that has a valid license issued by the department for the transportation of waste oil pursuant to section 1319-O, subsection 1, paragraph C and is subject to fees established under section 1319-I.

~~D. Any A person required to register under section 545-B and who first transports oil in Maine shall pay 3¢ per barrel for all crude and refined oil, including #6 fuel oil, #2 fuel oil, kerosene, gasoline, jet fuel, diesel fuel and liquid asphalt transported by the registrant during the period of registration. Fees must be paid monthly by the registrant on the basis of records certified to the commissioner. Fees must be paid to the department and upon receipt by it credited to the Maine Coastal and Inland Surface Oil Clean-up Fund. The registrant subject to this subsection shall make available to the commissioner and the commissioner's authorized representatives all documents relating to the oil the person transported by the registrant or transferred during the period of registration or the licensed period. This paragraph does not apply to waste oil transported into Maine in any motor vehicle that has a valid license issued by the department for the transportation of waste oil pursuant to section 1319-O and is subject to fees established under section 1319-I.~~

E. When the commissioner projects that the fund balance will reach \$6,000,000 \$18,500,000, the commissioner shall provide a 15-day notice that the per barrel fees assessed under this subsection will be suspended. The \$6,000,000 \$18,500,000 fund limit may be exceeded to accept transfer fees assessed or received after the 15-day notice has been issued. Following any suspension of fees assessed under this subsection, the commissioner shall provide a 15-day advance notice to licensees before fees are reimposed.

F. If the fund balance is reduced to \$6,000,000 or less, the Clean-up and Response Fund Review Board under section 568-B may adopt rules increasing the fees imposed under paragraph A-1 by up to 20¢ per barrel for gasoline and up to 10¢ per barrel for other petroleum products, except unrefined crude oil, liquid asphalt and #6 fuel oil, as necessary to avoid a shortfall in the fund. The Clean-up and Response Fund Review Board may use the emergency rule-making procedures under Title 5, section 8054 if necessary to ensure that the fee increase is instituted in time to avoid a shortfall. Any fee increase adopted pursuant to this paragraph terminates and the fees imposed under paragraph A-1 apply when the fund balance reaches \$10,000,000.

**4-A. Penalty for late payment of fees.** Fees assessed under subsection 4 are due to the department on or before the last day of the month immediately following the month in which the oil was transferred or first transported in this State. Licensees or registrants who fail to pay the fee by that date shall pay an additional amount equal to 10% of the amount assessed under subsection 4. The department may waive the penalty for good cause shown by the licensee or registrant. Good cause may include, without limitation, events that may not be reasonably anticipated or events that were not under the control of the licensee or registrant.

**4-B. Reimbursement for fees imposed on transfers out of state.** Any person who paid a fee under subsection 4, paragraph A-1, subparagraph (2), (3) or (4) on petroleum products that were exported from this State must be reimbursed by the department in the following amounts upon presentation of documentation of that payment and transfer:

- A. Four cents per barrel of #6 fuel oil;
- B. Nineteen cents per barrel of #2 fuel oil, kerosene, jet fuel, diesel fuel and other refined products and their by-products not otherwise specified in this subsection, excluding liquid asphalt; and
- C. Thirty-eight cents per barrel of gasoline.

A fee paid on a transfer out of state is eligible for reimbursement under this subsection only if documentation of that payment and transfer are presented to the department within 12 months of the transfer.

**5. Disbursements from fund.** Money in the ~~Maine Coastal and Inland Surface Oil Clean-up Fund~~ shall fund may be disbursed for the following purposes and no others:

- A. Administrative expenses, ~~personnel expenses~~ personal services and equipment costs of the ~~commissioner~~ department related to the administration and enforcement of this subchapter and subchapter 2-B, except that total disbursements for personal services may not exceed \$7,000,000 per fiscal year;
- B. All costs, including without limitation personnel undertaking oil spill response and clean-up activities and equipment expenses, involved in the removal of oil, the abatement of pollution and the implementation of remedial measures including restoration of water supplies, related to the discharge of oil, petroleum products and their by-products covered by this subchapter, including the discharge of oil from an oil storage facility not paid by a responsible party or an applicant for coverage by the fund, and all discharges from interstate pipelines and other discharges prohibited by section 543;

C. Sums allocated to research and development in accordance with this section;

D. Payment of ~~3rd party~~ 3rd-party claims awarded in accordance with this section that are not paid by the responsible party or applicant for coverage by the fund and payment of 3rd-party damage claims that are paid to owners or operators pursuant to section 568-A, subsection 6;

E. Payment of costs of hearings, independent hearing examiners and independent claims adjusters for 3rd-party damage claims;

F. Payment of costs of insurance by the State to extend or implement the benefits of the fund;

H. Sums, up to \$50,000 each year, that have been allocated by the Legislature on a contingency basis in accordance with section 555 for payment of costs for damage assessment for specific spills and site-specific studies of the environmental impacts of a particular discharge prohibited by section 543 that may have adverse economic effects and occur subsequent to such an allocation, when those studies are determined necessary by the commissioner; ~~and~~

I. Payment of costs for the collection of overdue reimbursements-;

J. All costs associated with the Board of Underground Oil Storage Tank Installers, not to exceed \$100,000;

K. Payments to or on behalf of applicants eligible for coverage by the fund under section 568-A, subsection 1 for expenses above the deductible specified in section 568-A, subsection 2 incurred in commissioner-approved clean-up activities and specified in an agreement under section 568-A, subsection 4;

L. All costs associated with the Clean-up and Response Fund Review Board, not to exceed \$200,000;

M. Costs incurred by the Office of the State Fire Marshal to implement the duties assigned to the State Fire Marshal in this chapter, not to exceed \$150,000;

N. Sums up to \$500,000 annually to retrofit, repair, replace or remove aboveground oil storage tanks or facilities when the commissioner determines that action is necessary to abate an imminent threat to a groundwater restoration project, a public water supply or a sensitive geologic area, including coastal islands and peninsulas. Money available under this paragraph may be disbursed by the department to pay reasonable costs actually incurred by municipalities in assisting the department in taking actions under this paragraph. Money available under this paragraph may also be

used by the department to fund educational efforts that encourage the retrofit, repair, replacement or removal of aboveground oil storage tanks or facilities. Money may not be disbursed from the fund for the purposes of this paragraph until the department has presented a plan for such disbursements to the Clean-up and Response Fund Review Board. Money may not be disbursed from the fund under this paragraph unless the department has adopted a written policy in accordance with the Maine Administrative Procedure Act establishing:

(1) Criteria for determining those instances when funds should be disbursed under this paragraph, including criteria for determining what constitutes a sensitive geologic area;

(2) Guidelines that ensure that money disbursed from the fund under this paragraph will be used in the most cost-effective manner, considering the likelihood of actual contamination of water supplies absent action taken pursuant to this paragraph, the costs of remediation of such contamination and the possibility that the owner of an aboveground oil storage tank or facility would retrofit, repair, replace or remove the tank at the owner's own expense;

(3) Guidelines for payments to municipalities for reasonable administrative costs actually incurred by municipalities in assisting the department in taking actions under this paragraph;

(4) A means test for eligibility for disbursements from the fund;

(5) A deductible that is adjusted according to the financial means of the person receiving a disbursement; and

(6) Limits for eligibility to residents of this State; and

O. Sums up to \$2,000,000 annually to distribute to community action agencies as defined in Title 22, section 5321, subsection 2 for loans and grants to retrofit, repair, replace or remove aboveground and underground oil storage tanks and associated piping at single-family residences. Money may not be disbursed from the fund for the purposes of this paragraph until the department has presented a plan for such disbursements to the Clean-up and Response Fund Review Board. A community action agency shall administer the funds in accordance with program operating standards, including the allocation formula established by the Maine State Housing Authority for its weatherization program. Sums available under this paragraph may be disbursed by the department to pay reasonable costs actually incurred by a community

action agency in providing services pursuant to this paragraph. Money may not be disbursed from the fund under this paragraph unless the department has adopted a written policy in accordance with the Maine Administrative Procedure Act establishing guidelines for payments to community action agencies for reasonable administrative costs actually incurred by community action agencies in providing services pursuant to this paragraph.

**6. Reimbursements to Maine Ground and Surface Waters Clean-up and Response Fund.** For the use of the fund, the commissioner shall seek recovery of ~~all~~ disbursements from the fund for the following purposes, including overdrafts and interest computed at 15% a year from the date of expenditure, unless the department finds the amount involved too small, the likelihood of success too uncertain or that recovery of costs is unlikely due to the inability of the responsible party to pay those costs, ~~provided except~~ that recoveries resulting from damage due to an oil pollution disaster declared by the Governor pursuant to section 547 must be apportioned between the ~~Maine Coastal and Inland Surface Oil Clean-up Fund~~ fund and the General Fund so as to repay the full costs to the General Fund of any bonds issued as a result of the disaster:

A. All disbursements made by the fund pursuant to subsection 5, paragraphs ~~A~~, B, D, E, H and I in connection with a prohibited discharge; ~~and~~

B. In the case of a licensee promptly reporting a discharge as required by this subchapter, disbursements made by the fund pursuant to subsection 5, paragraphs B, D and E in connection with any single prohibited discharge including 3rd-party claims in excess of \$15,000, except to the extent that the costs are covered by payments received under any federal program;

E. Disbursements made by the fund greater than \$750,000 per occurrence expended from the fund pursuant to subsection 5, paragraph K for an applicant for coverage by the fund found by the commissioner to be eligible under section 568-A, subsection 1, excluding occurrences at underground oil storage facilities; and

F. Disbursements made by the fund greater than \$1,000,000 per occurrence at an underground oil storage facility expended from the fund pursuant to subsection 5, paragraph K for an applicant for coverage by the fund found by the commissioner to be eligible under section 568-A, subsection 1.

Requests for reimbursement to the fund, if not paid within 30 days of demand, may be turned over to the Attorney General for collection or may be submitted to a collection agency or agent or an attorney retained by the department with the approval of the Attorney General in conformance with Title 5, section 191, or the

department may file suit in District Court. The commissioner may file claims with appropriate federal agencies to recover for the use of the fund all disbursements from the fund in connection with a prohibited discharge.

Requests for reimbursement to the fund for disbursements pursuant to subsection 5, paragraph B, if not paid within 60 days of demand, are subject to a penalty not to exceed twice the total amount of reimbursement requested. This penalty is in addition to the reimbursement requested and any other fines or civil penalties authorized by this Title.

**6-A. Lien.** All costs incurred by the State in the removal, abatement and remediation of a prohibited discharge of oil, all costs incurred by the State in the abandonment of an underground oil storage facility or tank under section 566-A, subsection 4 and interest are a lien against the real estate of the responsible party. The lien does not apply to the real estate of a licensee if the discharge was caused or suffered by a carrier destined for the licensee's facilities. For a responsible party determined eligible for coverage under section 568-A, subsection 1, the lien is for the amount of any unpaid deductible assigned under section 568-A, subsection 2 and any eligible clean-up costs and 3rd-party damage claims above \$750,000, or above \$1,000,000 for underground oil storage facilities.

A certificate of lien signed by the commissioner must be sent by certified mail to the responsible party prior to being recorded and may be filed in the office of the clerk of the municipality in which the real estate is located. The lien is effective when the certificate is recorded with the registry of deeds for the county in which the real estate is located. The certificate of lien must include a description of the real estate, the amount of the lien and the name of the owner as grantor.

When the amount for which a lien has been recorded under this subsection has been paid or reduced, the commissioner, upon request by any person of record holding interest in the real estate that is the subject of the lien, shall issue a certificate discharging or partially discharging the lien. The certificate must be recorded in the registry in which the lien was recorded. Any action of foreclosure of the lien must be brought by the Attorney General in the name of the State in the Superior Court for the judicial district in which the real estate subject to the lien is located.

**7. Waiver of reimbursement.** Upon petition of any licensee, the board may, after hearing, waive the right to reimbursement to the fund if it finds that the occurrence was the result of any of the following:

- A. An act of war;
- B. An act of government, either state, federal or municipal, except insofar as the act was pursuant to section 548; or

C. An act of God, which means an unforeseeable act exclusively occasioned by the violence of nature without the interference of any human agency.

Upon such finding by the board, immediate credit therefor must be entered for the party involved. The findings of the board are conclusive as it is the legislative intent that waiver provided in this subsection is a privilege conferred, not a right granted.

**8. Disbursements to state agencies.** A state agency that seeks reimbursement from the ~~Maine Coastal and Inland Surface Oil Clean-up Fund~~ fund for costs incurred in undertaking oil spill response activities shall keep time records demonstrating the amount of spill response activities performed for which reimbursement is sought. A state agency may establish a dedicated account for receipt of disbursements from the fund. Disbursements from the fund to a state agency pursuant to subsection 5, paragraph B must be deposited in that account, if it has been established, and may be used by the agency to support its activities.

**Sec. 17. 38 MRSA §551-A**, as amended by PL 2007, c. 292, §§30 to 32, is repealed.

**Sec. 18. 38 MRSA §562-A, sub-§4-A** is enacted to read:

**Sec. 21. 38 MRSA §562-A, sub-§17, ¶E**, as amended by PL 2007, c. 655, §3, is further amended to read:

E. With regard to sections 551, 568, 568-A, ~~569-A~~ and 570, persons described in paragraphs A to D with regard to aboveground oil storage facilities.

**Sec. 22. 38 MRSA §566-A, sub-§4**, as amended by PL 2009, c. 121, §11, is further amended to read:

**4. Commissioner role.** If the owner of an underground oil storage facility or tank fails to properly abandon the facility or tank within a reasonable time period, the commissioner may undertake the abandonment. The commissioner shall seek recovery of costs incurred to undertake the abandonment, whether

from state or federal funds, in accordance with the procedures set forth in section ~~569-A~~ 551, subsection ~~10~~ 6. Costs incurred by the commissioner to undertake the abandonment are a lien against the real estate of the owner as provided under section ~~569-A~~ 551, subsection ~~10-A~~ and section ~~569-B~~, subsection 6-A.

**Sec. 23. 38 MRSA §568, sub-§1**, as amended by PL 2009, c. 121, §12, is further amended to read:

**1. Removal.** Any person discharging or suffering a discharge of oil from an underground oil storage facility or an aboveground oil storage facility in the manner prohibited by section 543 and any other responsible party shall immediately undertake to remove that discharge to the commissioner's satisfaction. Notwithstanding this requirement, the commissioner may order the removal of that discharge pursuant to subsection 3 or may undertake the removal of that discharge and retain agents and contractors for that purpose, who shall operate under the direction of the commissioner. Any unexplained discharge of oil within state jurisdiction must be removed by or under the direction of the commissioner. Any expenses involved in the removal of discharges, whether by the person causing the discharge, the person reporting the discharge, the commissioner or the commissioner's agents or contractors, may be paid in the first instance from the ~~Ground Water Oil Clean-up Fund~~ fund, including any expenses incurred by the State under subsection 3, and any reimbursements due that fund must be collected in accordance with section ~~569-A~~ or ~~569-B~~ 551, subsection 6.

**Sec. 24. 38 MRSA §568, sub-§6**, as enacted by PL 1991, c. 763, §7, is amended to read:

**6. Reimbursement.** If the commissioner requires an underground oil storage facility owner or operator to remove or close an underground oil storage facility upon evidence of a leak and if after investigation that facility is found not to be the source of a leak, the commissioner shall immediately reimburse that facility owner or operator from the fund for the documented costs of that removal. The facility owner or operator may be reimbursed for damages resulting from the removal, such as loss of income, through the 3rd-party damage claim process in section ~~569~~ 551.

**Sec. 25. 38 MRSA §568-A, sub-§1, ¶A**, as amended by PL 1995, c. 361, §4, is further amended to read:

A. The applicant must submit within 180 days of reporting the discharge a written request to the commissioner to be covered by the fund. The request must include:

- (1) A description of the discharge and the locations threatened or affected by the discharge, to the extent known;

- (2) An agreement that the applicant shall pay the deductible amount specified in subsection 2;

- (3) For underground storage facilities, documentation regarding the applicant's compliance with the requirements of subsection 2, paragraph B; and

- (4) For aboveground facilities, documentation required by the Clean-up and Response Fund Insurance Review Board.

The commissioner with respect to a claim involving an underground oil storage facility, or the State Fire Marshal with respect to a claim involving an aboveground oil storage facility, may waive the 180-day filing requirement for applicants for coverage of clean-up costs for discharges discovered after April 1, 1990 when the applicant has cooperated in a timely manner with the department in cleaning up the discharge.

**Sec. 26. 38 MRSA §568-A, sub-§1, ¶H**, as enacted by PL 1995, c. 361, §4, is amended to read:

H. The Clean-up and Response Fund Insurance Review Board shall develop, in consultation with the State Fire Marshal, the documentation requirements for claims submitted under this section by owners of aboveground oil storage facilities.

**Sec. 27. 38 MRSA §568-A, sub-§2**, as amended by PL 2013, c. 300, §11, is further amended to read:

**2. Deductibles.** Except as provided in subsection 2-A, applicants eligible for coverage by the fund under subsection 1 shall pay on a per occurrence basis the applicable standard deductible amount specified in paragraph A. In addition to the applicable standard deductible amount required under paragraph A, the applicant shall pay on a per occurrence basis one or more of the conditional deductible amounts specified in paragraphs B and C to the extent applicable.

A. Standard deductibles are calculated under this paragraph based on the number of underground storage facilities or the capacity of gallons owned by the aboveground storage facility owner at the time the covered discharge is discovered. Standard deductibles are as follows.

- (1) For expenses related to a leaking underground oil storage facility, the deductible amount is determined in accordance with the following schedule:

Number of underground storage facilities owned by the facility owner	Deductible
1	\$2,500

2 to 5	5,000
6 to 10	10,000
11 to 20	25,000
21 to 30	40,000
over 30	62,500

(2) For expenses related to a leaking above-ground oil storage facility, the deductible amount is determined in accordance with the following schedule:

Total aboveground oil storage capacity in gallons owned by the facility owner	Deductible
Less than 1,320	\$500
1,321 to 50,000	2,500

**7. Cash match for planning grants; restrictions.**

H.P. 941 - L.D. 1391**

**An Act Regarding the Treatment of Forensic Patients**

**Emergency preamble.** **Whereas,** acts and resolves of the Legislature do not become effective until 90 days after adjournment unless enacted as emergencies; and

**Whereas,** this legislation needs to take effect as soon as possible in order to provide an environment that is safe and secure for hospital staff and to reduce costs associated with lost work time due to injuries to staff; and

**Whereas,** in the judgment of the Legislature, these facts create an emergency within the meaning of the Constitution of Maine and require the following legislation as immediately necessary for the preservation of the public peace, health and safety; now, therefore,

**Be it enacted by the People of the State of Maine as follows:**

**Sec. 1. 15 MRSA §§106, 107 and 108** are enacted to read:

**§106. Involuntary medication of incompetent defendant**

**1. Definition.** As used in this section, "commissioner" means the Commissioner of Health and Human Services or the commissioner's designee.

**2. Notice required; contents.** At any time after a defendant has been found incompetent to proceed and has been committed to the custody of the commissioner under section 101-D, subsection 5, the commissioner shall notify the court, prosecuting attorney and attorney for the defendant if the commissioner has determined that the defendant is not consenting to or responding to treatment and is unlikely to be restored to competency without the administration of psychiatric medication over the defendant's objection. The commissioner shall provide this notice only if there is no basis for involuntarily medicating the defendant other than to restore the defendant's competency. The commissioner shall state in the notice whether the commissioner believes that:

A. Medication is necessary to render the defendant competent;

B. Medication is substantially likely to render the defendant competent;

C. Medication is substantially unlikely to produce side effects that would significantly interfere with the defendant's ability to assist in the defendant's defense;

D. No less intrusive means of treatment are available; and

E. Medication is medically appropriate and is in the defendant's best medical interest in light of the defendant's medical condition.

The commissioner shall also state in the notice whether less intrusive means of treatment have been attempted to render the defendant competent.

**3. Court authorization.** The following provisions govern court authorization for the involuntary medication of a defendant under this section.

A. Upon receipt of the notice under subsection 2, the prosecuting attorney shall assess whether important state interests are at stake in restoring the defendant's competency and shall promptly notify the commissioner of the result of that assessment. If the prosecuting attorney determines that important state interests are at stake, the prosecuting attorney shall file a motion seeking court authorization for involuntary medication of the defendant, and the court shall conduct a hearing within 30 days of the filing of the motion, unless the court extends the time for good cause.

B. The court, in determining whether a defendant should be medicated over the defendant's objection, shall consider whether:

(1) Important state interests are at stake in restoring the defendant's competency;

(2) Involuntary medication will significantly further important state interests, in that the medication proposed:

(a) Is substantially likely to render the defendant competent to proceed; and

(b) Is substantially unlikely to produce side effects that would significantly interfere with the defendant's ability to assist the defense counsel in conducting the defendant's defense;

(3) Involuntary medication is necessary to further important state interests;

(4) Any alternate less intrusive treatments are unlikely to achieve substantially the same results; and

(5) The administration of the proposed medication is medically appropriate, as it is in the defendant's best medical interest in light of the defendant's medical condition.

**4. Findings; order.** If the court finds by clear and convincing evidence that the involuntary administration of psychiatric medication to a defendant under this section is necessary and appropriate, it shall make findings addressing each of the factors in subsection 3, paragraph B and shall issue an order authorizing the administration of psychiatric medication to the defendant over the defendant's objection in order to restore the defendant to competency. When issuing the order, the court may order that medication may be administered by more intrusive methods only if the defendant has refused administration by less intrusive methods. The court may order that the commissioner report to the court within a reasonable period following entry of the order as to whether the authorized treatment remains appropriate.

**5. Application.** This section applies only if the prosecuting attorney seeks an order of involuntary medication for the purpose of rendering a defendant competent to proceed.

#### **§107. Involuntary medication of patient**

**1. Definitions.** As used in this section, unless the context otherwise indicates, the following terms have the following meanings.

A. "Commissioner" means the Commissioner of Health and Human Services or the commissioner's designee.

B. "Department" means the Department of Health and Human Services.

C. "Patient" means a person held in a hospital under section 101-D or 103.

D. "Psychiatrist" includes a physician assistant working under the supervision of a psychiatrist and a psychiatric nurse practitioner.

**2. Administration of psychiatric medication over objection prohibited; exceptions.** A patient may not be administered psychiatric medication over the objection of the patient except:

A. As ordered by the court under section 106;

B. In accordance with an advance health care directive;

C. For a patient under guardianship, as authorized by the guardian; or

D. For a patient who is not under guardianship, for whom no advance health care directive is known to be in effect and for whom no administration of medication under section 106 has been ordered, as provided in subsection 3.

**3. Involuntary medication on nonemergency basis.** A hospital may seek to initiate involuntary medication of a patient under this section on a non-emergency basis only if all of the following conditions have been met:

A. A psychiatrist has determined that the patient has a mental illness or disorder;

B. A psychiatrist has determined that, as a result of the patient's mental illness or disorder, the patient poses a substantial risk of harm to self or others or there is a reasonable certainty that the patient will suffer severe physical or mental harm as manifested by recent behavior demonstrating an inability to avoid risk or to protect the patient adequately from impairment or injury;

C. A psychiatrist has determined that the patient should be treated with psychiatric medication and has prescribed one or more psychiatric medications for the treatment of the patient's mental illness or disorder, has considered the risks and benefits of and treatment alternatives to involuntary medication and has determined that the need for treatment outweighs the risks and side effects;

D. The patient has been advised of the risks and benefits of and treatment alternatives to the psychiatric medication and refuses or is unable to consent to the administration of the medication;

E. The patient is provided a hearing before a hearing officer. The hearing must be held not more than 14 days after the filing of the notice by the hospital pursuant to paragraph G with the department's office of administrative hearings, unless counsel for the patient agrees to extend the date of the hearing;

F. The patient is provided counsel at the department's expense at least 7 days prior to the hearing under paragraph E;

G. The patient and counsel are provided with written notice of the hearing under paragraph E by the hospital at least 7 days prior to the hearing. The written notice must:

(1) Set forth the patient's diagnosis, the factual basis for the diagnosis, the basis upon which psychiatric medication is recommended, the expected benefits, potential side effects and risks of the medication to the patient and treatment alternatives to medication, if any;

(2) Advise the patient of the right to be present at the hearing, the right to be represented by counsel, the right to present evidence and the right to cross-examine witnesses. Counsel for the patient must have access to all medical records and files of the patient; and

(3) Inform the patient of the patient's right to file an appeal in Superior Court of a decision of the commissioner authorizing involuntary treatment.

Failure of the hospital to provide timely or adequate notice pursuant to this paragraph may be excused only upon a showing of good cause and the absence of prejudice to the patient. In making this determination, the hearing officer may consider factors including, but not limited to, the ability of the patient's counsel to prepare the case adequately and to confer with the patient, the continuity of care and, if applicable, the need for protection of the patient or institutional staff that would be compromised by a procedural default;

H. The hearing officer at the hearing under paragraph E determines by clear and convincing evidence that:

(1) The patient has a mental illness or disorder;

(2) As a result of that illness or disorder the patient poses a substantial risk of harm to self or others or there is a reasonable certainty that the patient will suffer severe physical or mental harm as manifested by recent behavior demonstrating an inability to avoid risk or to protect the patient adequately from impairment or injury if not medicated;

(3) There is no less intrusive alternative to involuntary medication; and

(4) The need for treatment outweighs the risks and side effects;

I. The hearing officer at the hearing under paragraph E recommends to the commissioner that an order authorizing administration of involuntary medication be issued;

J. The commissioner issues an order authorizing administration of involuntary medication. The decision whether to issue an order authorizing administration of involuntary medication rests with the commissioner. An order authorizing administration of involuntary medication provides authority to undertake procedures and administer medication to monitor and manage side effects, all consistent with medical standards of care; and

K. The historical course of the patient's mental illness or disorder, as determined by available relevant information about the course of the patient's mental illness or disorder, is considered when it has direct bearing on the determination of whether the patient, as the result of a mental illness or disorder, poses a substantial risk of harm to self or others or there is a reasonable certainty that the patient will suffer severe physical or mental harm as manifested by recent behavior demon-

strating an inability to avoid risk or to protect the patient adequately from impairment or injury.

**4. Emergency action.** Nothing in this section prohibits a physician from taking appropriate action in an emergency, as defined by the department in rules adopted pursuant to Title 34-B, section 3003 and in accordance with procedures contained in those rules.

**5. Effective date and expiration of order.** An order authorizing involuntary medication pursuant to subsection 3 is effective 24 hours after it is issued and expires one year after the date of the order, unless a new authorization is given pursuant to the procedures set forth in subsection 7 or authorization is terminated early based on a significant change to the patient's medical condition such that the need for treatment no longer outweighs the risks and side effects pursuant to the procedures set forth in subsection 8.

**6. Effect of subsequent consent.** A patient's subsequent informed consent does not abrogate an order authorizing involuntary medication under this section.

**7. Extension.** To extend an authorization that is in effect allowing involuntary medication under this section, the hospital shall, no later than 21 days prior to the expiration of the authorization, file with the department's office of administrative hearings and provide the patient and the patient's counsel with a written notice indicating the hospital's intent to extend the authorization under the existing decision.

A. A patient who is the subject of a filing under this subsection must be given the same due process protections as specified in subsection 3. The hearing on any request to extend an order for involuntary medication must be conducted prior to the expiration of the authorization that is in effect. If the hospital wishes to add a basis to an existing decision authorizing involuntary medication, the notice required by subsection 3, paragraph G must also specify the additional basis and the conduct within the past year that supports that additional basis. The hospital must prove the additional basis and conduct at the hearing as specified in subsection 3, paragraph H. If the hearing officer determines that the requirements for the extension of an authorization described in paragraph B have been met, the hearing officer must recommend an extension of the authorization to the commissioner. While the hearing officer may consider evidence of behavior during the period of involuntary medication, no new acts necessarily need to be alleged or proven in order to support an extension of the authorization that is in effect.

B. The commissioner may order an extension of an authorization under this subsection. An order extending an authorization that is in effect must

be granted based on clear and convincing evidence that:

- (1) The patient has a mental illness or disorder;
- (2) As a result of that illness or disorder the patient poses a substantial risk of harm to self or others or there is a reasonable certainty that the patient will suffer severe physical or mental harm as manifested by recent behavior demonstrating an inability to avoid risk or to protect the patient adequately from impairment or injury if not medicated;
- (3) There is no less intrusive alternative to involuntary medication; and
- (4) The need for treatment outweighs the risks and side effects.

C. An extension under this subsection is valid for one year after the date of the hearing under paragraph A.

**8. Early termination.** To request early termination of an authorization allowing involuntary medication, the patient or the patient's designated representative shall file a request with the department's office of administrative hearings, along with copies of documents from the patient's hospital record, or from another medical source, demonstrating that there has been a significant change to the conditions leading to the original order or the patient's medical condition. The hearing officer shall determine within 14 days whether the documents are sufficient to show such a change, and, if so, shall schedule a hearing to determine whether the change in the conditions leading to the original order or the patient's medical condition is such that the benefits of the authorized treatment no longer outweigh the risks and side effects.

A. A hearing under this subsection must be held no more than 14 days after the hearing officer's determination, unless the patient or the patient's designated representative agrees to extend the date of the hearing. The authorization remains in effect unless it is terminated following the hearing.

B. The patient, the patient's designated representative, if any, and the hospital must be provided with written notice of the hearing under this subsection at least 7 days prior to the hearing. The written notice must:

- (1) Advise the patient of the right to be present at the hearing, the right to present evidence and the right to present and examine witnesses; and
- (2) Inform the patient of the patient's right to file an appeal in Superior Court of a decision of the commissioner determining that the

benefits of the authorized treatment continue to outweigh the risks and side effects.

C. For purposes of a request for early termination of an authorization under this subsection, the patient may name as the patient's designated representative a lay advisor provided by the hospital, a lawyer provided by the patient at the patient's own expense or another representative who is selected by the patient and who is willing and able to assist in the proceeding. If the hearing officer determines that a hearing is warranted, the patient must be provided counsel at the department's expense at least 7 days prior to the hearing.

D. If, following a hearing under this subsection, the hearing officer determines by clear and convincing evidence that the benefits of authorized treatment no longer outweigh the risks and side effects, the hearing officer must recommend termination of the authorization to the commissioner. The decision whether to terminate the authorization of involuntary treatment rests with the commissioner, who shall act within 48 hours upon the hearing officer's recommendation.

**9. Final agency action.** An order issued by the commissioner under subsection 3, paragraph J, subsection 7, paragraph B or subsection 8, paragraph D is a final agency action.

**10. Rules.** The department may adopt rules to implement this section. Rules adopted pursuant to this subsection are routine technical rules as described in Title 5, chapter 375, subchapter 2-A.

**§108. Court-ordered independent examinations**

Before making a determination under section 106 or 107, a court may order an independent psychiatric or medical examination of the patient. The Department of Health and Human Services, within 30 days after receiving a request from the Administrative Office of the Courts, shall reimburse the Judicial Department for the full amount of fees paid by the Judicial Department to providers of psychiatric and medical examinations of forensic patients ordered by the court.

**Emergency clause.** In view of the emergency cited in the preamble, this legislation takes effect when approved.

Effective July 7, 2015.

## PART C

**Sec. C-1. 10 MRSA §1174, sub-§3, ¶U**, as corrected by RR 2013, c. 1, §19, is amended to read:

U. To cancel, terminate, fail to renew or refuse to continue any franchise relationship with a licensed new motor vehicle dealer not less than 180 days prior to the effective date of such termination, cancellation, noncontinuance or nonrenewal that occurs in whole or in part as a result of any change in ownership, operation or control of all or any part of the business of the manufacturer, whether by sale or transfer of assets, corporate stock or other equity interest, assignment, merger, consolidation, combination, joint venture, redemption, operation of law or otherwise; or the termination, suspension or cessation of a part or all of the business operations of the manufacturer; or discontinuance of the sale of the product line or a change in distribution system by the manufacturer, whether through a change in distributors or the manufacturer's decision to cease conducting business through a distributor altogether.

In addition to any other payments or requirements in this chapter, if a termination, cancellation, noncontinuance or nonrenewal was premised in

whole or in part upon any of the occurrences set forth in this paragraph, the manufacturer is liable to the licensed new motor vehicle dealer in an amount at least equivalent to the fair market value of the franchise arising from the termination, cancellation, noncontinuance or nonrenewal of the franchise.

(1) If liability is based on the fair market value of the franchise, which must include diminution in value of the facilities leased or owned by the dealer as a result of the loss of the franchise to operate in the facilities, the fair market value must be computed on the date in divisions (a) to (c) that yields the highest fair market value:

- (a) The date the manufacturer announces the action that results in termination, cancellation, noncontinuance or nonrenewal;
- (b) The date the action that results in termination, cancellation, noncontinuance or nonrenewal first becomes general knowledge; or
- (c) The date 12 months prior to the date on which the notice of termination, cancellation, noncontinuance or nonrenewal is issued.

If the termination, cancellation, noncontinuance or nonrenewal is due to the manufacturer's change in distributors, the manufacturer may avoid paying fair market value to the licensed new motor vehicle dealer if the new distributor or the manufacturer offers the dealer a franchise agreement with terms acceptable to the dealer.

If an entity other than the original manufacturer of a line make becomes the manufacturer for the line make and intends to distribute motor vehicles of that line make in this State, that entity shall honor the franchise agreements of the original manufacturer and its licensed new motor vehicle dealers or offer those dealers of that line make, or of motor vehicles historically of that line make that are substantially similar in their design and specifications and are manufactured in the same facility or facilities, a new franchise agreement with substantially similar terms and conditions; or

**Sec. C-2. 10 MRSA §1174, sub-§3, ¶V**, as corrected by RR 2013, c. 2, §14, is amended to read:

V. Except as expressly authorized in this paragraph, to require a motor vehicle dealer to provide its customer lists, customer information, consumer contact information, transaction data or service files.

(1) The following definitions apply to this paragraph.

(a) "Dealer management computer system" means a computer hardware and software system that is owned or leased by the dealer, including a dealer's use of web applications, software or hardware, whether located at the dealership or provided at a remote location, and that provides access to customer records and transactions by a motor vehicle dealer and that allows the motor vehicle dealer timely information in order to sell vehicles, parts or services through that motor vehicle dealership.

(b) "Dealer management computer system vendor" means a seller or reseller of dealer management computer systems, a person that sells computer software for use on dealer management computer systems or a person that services or maintains dealer management computer systems, but only to the extent the seller, reseller or other person listed is engaged in such activities.

(c) "Security breach" means an incident of unauthorized access to and acquisition of records or data containing dealership or dealership customer information through which unauthorized use of the dealership or dealership customer information has occurred or is reasonably likely to occur or that creates material risk of harm to a dealership or a dealership's customer. An incident of unauthorized access to and acquisition of records or data containing dealership or dealership customer information, or an incident of disclosure of dealership customer information to one or more 3rd parties that was not specifically authorized by the dealer or customer, constitutes a security breach.

(2) Any requirement by a manufacturer, distributor, wholesaler, distributor branch or division, factory branch or division, wholesale branch or division or officer, agent or other representative thereof that a new motor vehicle dealer provide its customer lists, customer information, consumer contact information, transaction data or service files as a condition of the dealer's participation in any incentive program or contest, for a customer or dealer to receive any incentive payments otherwise earned under an incentive program or contest, for the dealer to obtain customers or customer leads or for the dealer to receive any other benefits, rights, merchandise or services that the dealer would otherwise be entitled to obtain under the franchise or any other contract

or agreement or that are customarily provided to dealers is voidable at the option of the dealer, unless all of the following conditions are satisfied:

- (a) The customer information requested relates solely to the specific program requirements or goals associated with such manufacturers' or distributors' own new vehicle makes or specific vehicles of their own make that are certified pre-owned vehicles and the dealer is not required to provide general customer information or other information related to the dealer;
  - (b) The requirement is lawful and would not require the dealer to allow any customer the right to opt out under the federal Gramm-Leach-Bliley Act, 15 United States Code, Chapter 94, Subchapter I; and
  - (c) The dealer is not required to allow the manufacturer, distributor or a 3rd party to have direct access to the dealer's dealer management computer system, but the dealer is instead permitted to provide the same dealer, consumer or customer data or information specified by the manufacturer or distributor by timely obtaining and pushing or otherwise furnishing the required data in a widely accepted file format in accordance with subparagraph (11).
- (3) Nothing contained in this section limits the ability of a manufacturer, distributor, wholesaler, distributor branch or division, factory branch or division, wholesale branch or division or officer, agent or other representative thereof to require that the dealer provide, or use in accordance with law, customer information related solely to that manufacturer's or distributor's own vehicle makes to the extent necessary to:
- (a) Satisfy any safety or recall notice obligations;
  - (b) Complete the sale and delivery of a new motor vehicle to a customer;
  - (c) Validate and pay customer or dealer incentives; or
  - (d) Submit to the manufacturer, distributor, wholesaler, distributor branch or division, factory branch or division, wholesale branch or division or officer, agent or other representative thereof claims under section 1176.

(4) At the request of a manufacturer, distributor, wholesaler, distributor branch or division, factory branch or division, wholesale branch or division or officer, agent or other representative thereof, a dealer may be required to provide customer information related solely to that manufacturer's, distributor's, wholesaler's, distributor branch's or division's, factory branch's or division's or wholesale branch's or division's own vehicle makes for reasonable marketing purposes, market research, consumer surveys, market analysis and dealership performance analysis, except that the dealer is required to provide such customer information only if the provision of the information is lawfully permissible, the requested information relates solely to specific program requirements or goals associated with the manufacturer's or distributor's own vehicle makes and does not require the dealer to provide general customer information or other information related to the dealer and the requested information can be provided without requiring that the dealer allow any customer the right to opt out under the federal Gramm-Leach-Bliley Act, 15 United States Code, Chapter 94, Subchapter I.

(5) A manufacturer, distributor, wholesaler, distributor branch or division, factory branch or division, wholesale branch or division or officer, agent, dealer management computer system vendor or other representative thereof, or a 3rd party acting on behalf of a manufacturer, distributor, wholesaler, distributor branch or division, factory branch or division, wholesale branch or division or officer, agency, dealer management computer system vendor or other representative thereof, may not access or obtain dealer or customer data from or write dealer or customer data to a dealer management computer system used by a motor vehicle dealer or require or coerce a motor vehicle dealer to use a particular dealer management computer system, unless the dealer management computer system allows the dealer to reasonably maintain the security, integrity and confidentiality of the data maintained in the system. A manufacturer, distributor, wholesaler, distributor branch or division, factory branch or division, wholesale branch or division or officer, agent, dealer management computer system vendor or other representative thereof, or a 3rd party acting on behalf of a manufacturer, distributor, wholesaler, distributor branch or division, factory branch or division, wholesale branch or division or officer, agency, dealer management computer system vendor or other representative thereof, may not prohibit a

dealer from providing a means to regularly and continually monitor the specific data accessed from or written to the dealer's dealer management computer system or from complying with applicable state and federal laws, rules and regulations. Nothing in this subparagraph imposes an obligation on a manufacturer, distributor, wholesaler, distributor branch or division, factory branch or division, wholesale branch or division or officer, agent, dealer management computer system vendor or other representative thereof, or a 3rd party acting on behalf of a manufacturer, distributor, wholesaler, distributor branch or division, factory branch or division, wholesale branch or division or officer, agency, dealer management computer system vendor or other representative thereof, to provide such capability.

(6) A manufacturer, distributor, wholesaler, distributor branch or division, factory branch or division, wholesale branch or division or officer, agent or other representative thereof or dealer management computer system vendor, or a 3rd party acting on behalf of a manufacturer, distributor, wholesaler, distributor branch or division, factory branch or division, wholesale branch or division or officer, agent or other representative thereof or dealer management computer system vendor may not access or use customer or prospect information maintained in a dealer management computer system used by a motor vehicle dealer for purposes of soliciting a customer or prospect on behalf of, or directing a customer or prospect to, any other dealer. The limitations in this subsection do not apply to:

- (a) A customer that requests a reference to another dealership;
- (b) A customer that moves more than 60 miles away from the dealer whose data were accessed;
- (c) Customer or prospect information that was provided to the dealer by the manufacturer, distributor, wholesaler, distributor branch or division, factory branch or division, wholesale branch or division or officer, agent or other representative thereof; or
- (d) Customer or prospect information obtained by the manufacturer, distributor, wholesaler, distributor branch or division, factory branch or division, wholesale branch or division or officer, agent or other representative thereof in which the dealer agrees to allow the manufac-

turer, distributor, wholesaler, distributor branch or division, factory branch or division, wholesale branch or division or officer, agent or other representative thereof or dealer management computer system vendor or a 3rd party acting on behalf of a manufacturer, distributor, wholesaler, distributor branch or division, factory branch or division, wholesale branch or division or officer, agent or other representative thereof or dealer management computer system vendor the right to access and use the customer or prospect information maintained in the dealer's dealer management computer system for purposes of soliciting a customer or prospect of the dealer on behalf of or directing a customer or prospect to any other dealer in a separate, stand-alone written instrument dedicated solely to such an authorization.

(7) A manufacturer, distributor, wholesaler, distributor branch or division, factory branch or division, wholesale branch or division or officer, agent or other representative thereof or dealer management computer system vendor or a 3rd party acting on behalf of a manufacturer, distributor, wholesaler, distributor branch or division, factory branch or division, wholesale branch or division or officer, agent or other representative thereof or dealer management computer system vendor may not provide access to customer or dealership information maintained in a dealer management computer system used by a motor vehicle dealer without first obtaining the dealer's prior express written consent, revocable by the dealer upon 5 days' written notice, to provide such access. Prior to obtaining such consent and prior to entering into an initial contract or renewal of a contract with a dealer, the manufacturer, distributor, wholesaler, distributor branch or division, factory branch or division, wholesale branch or division or officer, agent or other representative thereof or dealer management computer system vendor or a 3rd party acting on behalf of or through a manufacturer, distributor, wholesaler, distributor branch or division, factory branch or division, wholesale branch or division or officer, agent or other representative thereof or dealer management computer system vendor shall provide to the dealer a written list of all specific 3rd parties to whom any data obtained from the dealer have actually been provided within the 12-month period ending November 1st of the prior year. The list must describe the scope and specific fields of the data provided. In addition to the

initial list, a dealer management computer system vendor or a 3rd party acting on behalf of or through a dealer management computer system vendor must provide to the dealer an annual list of 3rd parties to whom such data are actually being provided on November 1st of each year and to whom the data have actually been provided in the preceding 12 months and describe the scope and specific fields of the data provided. Lists required pursuant to this subparagraph must be provided to the dealer by January 1st of each year. A dealer management computer system vendor's contract that directly relates to the transfer or accessing of dealer or dealer customer information must conspicuously state: "NOTICE TO DEALER: THIS AGREEMENT RELATES TO THE TRANSFER AND ACCESSING OF CONFIDENTIAL INFORMATION AND CONSUMER-RELATED DATA." Consent in accordance with this subparagraph does not change any such person's obligations to comply with the terms of this section and any additional state or federal laws, rules and regulations. A dealer management computer system vendor may not refuse to provide a dealer management computer system to a motor vehicle dealer if the dealer refuses to provide consent under this subparagraph.

(8) A dealer management computer system vendor or 3rd party acting on behalf of or through a dealer management computer system vendor may not access or obtain data from or write data to a dealer management computer system used by a motor vehicle dealer unless the dealer management computer system allows the dealer to reasonably maintain the security, integrity and confidentiality of customer and dealer information maintained in the system. A dealer management computer system vendor or 3rd party acting on behalf of or through a dealer management computer system vendor may not prohibit a dealer from providing a means to regularly and continually monitor the specific data accessed from or written to the dealer management computer system and from complying with applicable state and federal laws, rules and regulations. This subparagraph does not impose on a manufacturer, distributor, wholesaler, distributor branch or division, factory branch or division, wholesale branch or division or officer, agent or other representative thereof or dealer management computer system vendor or a 3rd party acting on behalf of or through a manufacturer, distributor, wholesaler, distributor branch or division, factory branch or division,

wholesale branch or division or officer, agent or other representative thereof or dealer management computer system vendor an obligation to provide such capability.

(9) A manufacturer, distributor, wholesaler, distributor branch or division, factory branch or division, wholesale branch or division or officer, agent or other representative thereof or dealer management computer system vendor or a 3rd party acting on behalf of or through a manufacturer, distributor, wholesaler, distributor branch or division, factory branch or division, wholesale branch or division or officer, agent or other representative thereof or dealer management computer system vendor that has electronic access to customer or motor vehicle dealership data in a dealer management computer system used by a motor vehicle dealer shall provide notice to the dealer of any security breach of dealership or customer data obtained through that access, which at the time of the security breach was in the possession or custody of the manufacturer, distributor, wholesaler, distributor branch or division, factory branch or division, wholesale branch or division or officer, agent or other representative thereof or dealer management computer system vendor or a 3rd party. The disclosure notification must be made without unreasonable delay by the manufacturer, distributor, wholesaler, distributor branch or division, factory branch or division, wholesale branch or division or officer, agent or other representative thereof or dealer management computer system vendor or a 3rd party following discovery by the person, or notification to the person, of the security breach. The disclosure notification must describe measures reasonably necessary to determine the scope of the security breach and corrective actions that may be taken in an effort to restore the integrity, security and confidentiality of the data; these measures and corrective actions must be implemented as soon as practicable by all persons responsible for the security breach.

(10) Nothing in this section precludes, prohibits or denies the right of the manufacturer, distributor, wholesaler, distributor branch or division, factory branch or division, wholesale branch or division or officer, agent or other representative thereof to receive customer or dealership information from a motor vehicle dealer for the purposes of complying with federal or state safety requirements or implement any steps related to manufacturer recalls at such times as necessary in order to comply with federal and state requirements or

manufacturer recalls as long as receiving this information from the dealer does not impair, alter or reduce the security, integrity and confidentiality of the customer and dealership information collected or generated by the dealer.

(11) Notwithstanding any of the terms or provisions contained in this subparagraph or in any consent, authorization, release, novation, franchise or other contract or agreement, whenever any manufacturer, distributor, wholesaler, distributor branch or division, factory branch or division, wholesale branch or division or officer, agent or other representative thereof or dealer management computer system vendor or a 3rd party acting on behalf of or through a manufacturer, distributor, wholesaler, distributor branch or division, factory branch or division, wholesale branch or division or officer, agent or other representative thereof or dealer management computer system vendor requires that a new motor vehicle dealer provide any dealer, consumer or customer data or information through direct access to a dealer's dealer management computer system, the dealer is not required to provide, and may not be required to consent to provide in a written agreement, that direct access to its dealer management computer system. The dealer may instead provide the same dealer, consumer or customer data or information specified by the requesting party by timely obtaining and furnishing the requested data to the requesting party in a widely accepted file format except that, when a dealer would otherwise be required to provide direct access to its dealer management computer system under the terms of a consent, authorization, release, novation, franchise or other contract or agreement, a dealer that elects to provide data or information through other means may be charged a reasonable initial setup fee and a reasonable processing fee based on actual incremental costs incurred by the party requesting the data for establishing and implementing the process for the dealer. A term or provision contained in a consent, authorization, release, novation, franchise or other contract or agreement that is inconsistent with this subsection is voidable at the option of the dealer.

(12) Notwithstanding the terms or conditions of any consent, authorization, release, novation, franchise or other contract or agreement, a manufacturer, distributor, wholesaler, distributor branch or division, factory branch or division, wholesale branch or division or officer, agent or other representative thereof or

dealer management computer system vendor or a 3rd party acting on behalf of or through a manufacturer, distributor, wholesaler, distributor branch or division, factory branch or division, wholesale branch or division or officer, agent or other representative thereof or dealer management computer system vendor that has electronic access to consumer or customer data or other information in a dealer management computer system used by a new motor vehicle dealer, or who has otherwise been provided consumer or customer data or other information by the dealer, shall fully indemnify and hold harmless a dealer from whom it has acquired that consumer or customer data or other information from all damages, costs and expenses incurred by that dealer, including, but not limited to, judgments, settlements, fines, penalties, litigation costs, defense costs, court costs and attorney's fees arising out of complaints, claims, civil or administrative actions and, to the fullest extent allowable under the law, governmental investigations and prosecutions to the extent caused by the access, storage, maintenance, use, sharing, disclosure or retention of that dealer's consumer or customer data or other information by the manufacturer, distributor, wholesaler, distributor branch or division, factory branch or division, wholesale branch or division or officer, agent or other representative thereof or dealer management computer system vendor or a 3rd party acting on behalf of or through a manufacturer, distributor, wholesaler, distributor branch or division, factory branch or division, wholesale branch or division or officer, agent or other representative thereof or dealer management computer system vendor; ~~or~~.

B. A collection site shall track all outgoing shipments of post-consumer paint on a manifest or a bill of lading. The collection site shall maintain these records for at least 3 years.

C. A collection site shall maintain a record for each drop-off of post-consumer paint that is a hazardous waste from an entity other than a household, including the name and address of the entity, the date of the drop-off and a description and quantity of the post-consumer paint that is a hazardous waste. D. A collection site shall store post-consumer paint in structurally sound collection containers that show no visible evidence of leakage, spillage or damage that could cause leakage under reasonably foreseeable conditions, in a secure area, away from ignition sources, storm drains and floor drains. A collection container must be kept closed except when adding containers of post-consumer paint that have been collected from consumers. A collection container must be labeled with the words "Waste Paint." A collection site may not store more than 5,000 kilograms of post-consumer paint that is a hazardous waste at any one time. A collection site that accepts only post-consumer paint and post-consumer paint that is a hazardous waste under an approved plan from households and from conditionally exempt small quantity generators is not a central accumulation facility and does not require a hazardous waste identification number from the federal Environmental Protection Agency. Nothing in this section is intended to exempt a collection site from being considered a central accumulation facility or from being required to obtain a hazardous waste identification number based on activities unrelated to a paint stewardship program.

C. Determine the proportion of statewide county jail prisoner days attributable to each county;

D. Determine the per diem per prisoner reimbursement amount; and

**4. Program administration.** The program is administered by the board. The board shall contract with firms to provide administration, investment, custodial, trustee and auditing services for the program.

**5. Participation eligibility.** An eligible volunteer may participate in the program.

**6. Participation commencement.** Unless an eligible volunteer waives the right of participation pursuant to subsection 7, the eligible volunteer becomes a participant on the last day of the first calendar year during which the eligible volunteer meets the service credit requirements set forth in subsection 8 during a calendar year beginning after December 31, 2015.

**7. Waiver of participation.** An eligible volunteer may waive the right to participate in the program by filing with the board a written, signed and irrevocable waiver of participation that is signed by the fire chief, as described in Title 30-A, section 3153, of a

municipal fire department of which the eligible volunteer is a member.

**8. Service credit.** Service credit may be allowed in the program only for volunteer emergency service rendered as an eligible volunteer. The requirements to be met by an eligible volunteer to earn one year of service credit must be set forth in rules adopted by the board pursuant to subsection 21 and may be amended from time to time at the discretion of the board.

**9. Procedure for reporting service credit.** A municipal fire department shall submit a list of all persons who were eligible volunteers during a calendar year to the board for review and approval by May 1st following the end of that calendar year. The list must indicate which eligible volunteers earned service credit during the calendar year and must be prepared, certified under oath by the fire chief of the municipal fire department, posted in the fire department for at least 30 days and then submitted to and received by the board by May 1st. During the 30-day posting period, an eligible volunteer must be given the opportunity to dispute the service credit shown for the eligible volunteer in accordance with law. The fire chief shall indicate in writing to the board that the list was posted for at least 30 days and that all disputes regarding the service credit shown on the list as having been earned during the year have been resolved. The board, at its sole discretion, may audit a list prepared by a municipal fire department under this subsection. If the list is not received by the board by May 1st, a contribution may not be credited to the program account of any eligible volunteer whose name was or should have been reported on the list as having earned one year of service credit during the calendar year, except as provided in subsection 12.

**10. Contributions to the program.** For each calendar year beginning after December 31, 2015, the program trust fund must accept contributions, if any, from the following:

D. The Federal Government; and

E. A participant, after the United States Internal Revenue Code is amended and any required rules and regulations are issued by the United States Internal Revenue Service to allow defined contribution length of service award programs to be treated as deferred compensation plans under the United States Internal Revenue Code, Section 457. Until the United States Internal Revenue Code is so amended, the board shall contract with

a firm to offer individual retirement accounts to participants.

The annual contributions, if any, for a given calendar year must be deposited into the program trust fund before the following July 1st.

The portion of the annual contributions credited to a program account of a participant who has attained the entitlement age as described in subsection 14 and has been paid the participant's accrued service award must be determined in the same manner as the portion of the annual contributions credited to a program account of a participant who has not attained the entitlement age.

Except for the limit on the amount of the annual contributions credited to a participant's program account set forth in the United States Internal Revenue Code, Section 457, there is no other limit or restriction on the amount credited to a participant's program account for any calendar year.

**11. Subaccounts.** A participant's program account consists of the following subaccounts:

A. A state subaccount, which is an account of a participant reflecting applicable state contributions, forfeitures, investment income or loss as well as administrative and investment expenses allocated to the subaccount and distributions paid from the subaccount. A participant's state subaccount is subject to the vesting schedule set forth in subsection 12.

(1) For a given calendar year, the total state contribution, if any, must be allocated equally to the state subaccounts of the participants who earned one year of service credit during that calendar year.

(2) Forfeitures from a participant's state subaccount must be added to and allocated as state contributions as designated by the State in the calendar year in which the forfeitures are determined to occur pursuant to subsection 13;

B. A municipal subaccount, which is an account of a participant derived from contributions from a specific municipality to the program. A participant's municipal subaccount must reflect the respective contributions from that municipality along with forfeitures, investment income or loss as well as administrative and investment expenses allocated to the subaccount and distributions paid from the subaccount. A participant's municipal subaccount is subject to the vesting schedule set forth in subsection 12.

(1) For a given calendar year, the total contribution from a specific municipality, if any, must be allocated equally to the municipal subaccounts of the participants who are eligible volunteers of that municipality and who

earned one year of service credit during that calendar year.

(2) Forfeitures from a participant's municipal subaccount must be added to and allocated as municipal contributions as designated by the municipality in the calendar year in which the forfeitures are determined to occur pursuant to subsection 13;

C. A municipal fire department subaccount, which is an account of a participant derived from contributions from a specific municipal fire department or a fire company or volunteer organization associated with a municipal fire department to the program. A participant's municipal fire department subaccount must reflect the respective contributions from that municipal fire department or fire company or volunteer organization associated with a municipal fire department along with forfeitures, investment income or loss as well as administrative and investment expenses allocated to the subaccount and distributions paid from the subaccount. A participant's municipal fire department subaccount is subject to the vesting schedule set forth in subsection 12.

(1) For a given calendar year, the total contribution from a specific municipal fire department or a fire company or volunteer organization associated with a municipal fire department, if any, must be allocated equally to the municipal fire department subaccounts of the participants who are eligible volunteers of that municipal fire department or fire company or volunteer organization associated with a municipal fire department and who earned one year of service credit during that calendar year.

(2) Forfeitures from a participant's municipal fire department subaccount must be added to and allocated as municipal fire department contributions as designated by the municipal fire department or fire company or volunteer organization associated with a municipal fire department in the calendar year in which the forfeitures are determined to occur pursuant to subsection 13;

D. A Federal Government subaccount, which is an account of a participant reflecting applicable Federal Government contributions, forfeitures, investment income or loss as well as administrative and investment expenses allocated to the subaccount and distributions from the subaccount. Unless otherwise specified in federal law, a participant's Federal Government subaccount is subject to the vesting schedule set forth in subsection 12.

(1) Unless otherwise specified in federal law, for a given calendar year, the total contribution from the Federal Government, if any, must be allocated equally to the Federal Government subaccounts of the participants who earned one year of service credit during that calendar year.

(2) Unless otherwise specified in federal law, forfeitures from a participant's Federal Government subaccount must be added to and allocated as Federal Government contributions as designated by the Federal Government in the calendar year in which the forfeitures are determined to occur pursuant to subsection 13; and

E. A participant contribution subaccount. If the United States Internal Revenue Code is amended and any required rules and regulations are issued by the United States Internal Revenue Service to allow defined contribution length of service award programs to be treated as deferred compensation plans under the United States Internal Revenue Code, Section 457, a participant may elect to make participant contributions to the program. A participant contribution subaccount must reflect the respective contributions from a participant along with investment income or loss as well as administrative and investment expenses allocated to the subaccount and distributions paid from the subaccount. A participant contribution subaccount must be 100% vested at all times.

**12. Vesting schedule for a participant's accrued service award.** A participant's accrued service award becomes vested as set out in this subsection.

A. If the participant has less than 5 years of service credit, the vested percentage is 0%.

B. If the participant has 5 or more years of service credit, the vested percentage is 100%.

In determining an individual participant's years of service credit for the purpose of vesting, all years of service credit earned as a participant in the program must be counted. Failure to submit the annual eligible volunteer listing to the board under subsection 9 by the required date for any calendar year does not result in the forfeiture of the certified service credit reported to the board for an eligible volunteer.

All calendar years, up to 5 years, ending before January 1, 2016 during which the participant was an eligible volunteer for the entire calendar year count for vesting service credit.

**13. Forfeiture of a participant's accrued service award.** The nonvested portion of a participant's accrued service award is permanently forfeited effective as of December 31st of the calendar year during which the participant has not been an eligible volun-

teer for 36 consecutive months. Service credit earned by a participant is never forfeited.

**14. Entitlement age.** The entitlement age for a participant is the earlier of:

A. Sixty-five years of age or the person's age on the next January 1st after becoming a participant in the program if the person is 65 years of age or older; and

B. The age of a participant as of the end of the calendar year after earning 20 years of service credit.

**15. Payment to participant of accrued service award.** The following provisions govern the payment to a participant of an accrued service award.

A. Upon the attainment of the entitlement age as described in subsection 14, a participant must be paid the vested portion of the participant's accrued service award. A participant who attains the entitlement age while an eligible volunteer and before attaining a 100% vested status must be paid the participant's accrued service award as of December 31st of the calendar year during which the participant achieved a 100% vested status. A participant who attains the entitlement age before 65 years of age may on or before attaining the entitlement age file a written election with the board to defer payment of the participant's accrued service award until attainment of 65 years of age.

B. As of the last day of the first calendar year during which a participant has no longer been an eligible volunteer for at least 36 consecutive months, the vested portion of the participant's accrued service award must be paid to the participant.

C. A participant who has been determined to be totally and permanently disabled by the United States Social Security Administration, any workers' compensation board, any insurance company, any state retirement system, any pension plan administrator or any other entity approved by the board must be paid that participant's accrued service award as soon as administratively feasible after all documentation required by the board to verify and determine total and permanent disablement is submitted to the board and the disability payment is awarded by the board.

D. Should a participant die before attaining the entitlement age, the participant's designated beneficiary or estate if no acceptable beneficiary designation form has been filed with the board by the participant must upon application to the board be paid the participant's accrued service award as soon as administratively feasible after all required documentation is submitted to the board.

E. The portion of the annual contribution credited to the program account of a post-entitlement age participant must be immediately paid to the participant if the participant has achieved a 100% vested status in the program. If the post-entitlement age participant has not achieved a 100% vested status in the program, that participant's accrued service award must be paid to the participant as soon as administratively feasible after December 31st of the calendar year during which the participant achieved a 100% vested status.

**16. Investment of program funds.** The board shall establish a program trust fund within which the funds paid into the program must be deposited. A participant shall select investments for the amounts credited to the participant's program account from a menu of investment options. Distributions of accrued service awards must be made from the program trust fund in accordance with the program provisions. The program trust fund must be established and maintained in accordance with applicable sections of the United States Internal Revenue Code. Subject to review and approval by the Treasurer of State, the program trust fund investment options made available to participants must be selected by the board.

**17. Program audits.** At the discretion of the State, either a state agency or a firm retained by the State shall audit the program at least once every 5 years.

**18. Notice of changes to laws governing the program.** Within 180 days after the effective date of legislation that changes the laws governing the program, a written notice and explanation of these changes must be distributed by the board to all persons who participate or are eligible to participate in the program. Copies of this written notice and explanation must be available upon request to the board to all other persons.

**19. Program termination.** Within 360 days after the effective date of legislation terminating the program, each program participant must be paid the participant's entire accrued service award to the date of payment in a single lump sum. Beneficiaries of deceased participants must be paid any amount owed to them under the program in the same manner within the same 360-day period.

**20. Program trust fund governed by certain provisions.** Until the United States Internal Revenue Code is amended to treat defined contribution length of service award programs as deferred compensation plans under the United States Internal Revenue Code, Section 457, the program trust fund must be governed by all required provisions to ensure that a participating eligible volunteer or the eligible volunteer's beneficiary is not subject to federal income taxation on an accrued service award until actual receipt of payment by

the participant or the beneficiary. After the United States Internal Revenue Code is so amended, the State and the board shall take all required actions to ensure the program complies with the United States Internal Revenue Code, Section 457 and the related United States Internal Revenue Service regulations.

**21. Rules.** The board shall adopt rules, which are routine technical rules pursuant to Title 5, chapter 375, subchapter 2-A, pertaining to the administration of the program.

**3. Representation of the State.** The prosecutorial office that represented the State in the underlying criminal proceeding shall represent the State for purposes of this chapter. On a case-by-case basis, a different prosecutorial office may represent the State on agreement between the 2 prosecutorial offices.

**4. Evidence.** The Maine Rules of Evidence do not apply to a hearing on a motion under this section, and evidence presented at a hearing by the participants may include testimony, affidavits and other reliable hearsay evidence as permitted by the court.

**5. Hearing; certification of results.** The judge or justice shall hold a hearing on the motion under this section. At the conclusion of the hearing, if the court

determines that the person who filed the motion has established by a preponderance of the evidence each of the statutory prerequisites specified in section 2252, the court shall find the person entitled to the special restrictions on dissemination and use of the criminal history record information relating to the criminal conviction as specified in section 2255 and shall issue a written order certifying this determination. If, at the conclusion of the hearing, the court determines that the person has not established one or more of the statutory prerequisites specified in section 2252, the court shall deny the motion and issue a written order certifying this determination. The order must contain written findings of fact supporting the court's determination. A copy of the court's written order must be provided to the person and the prosecutorial office that represented the State pursuant to subsection 3.

**6. Notice to State Bureau of Identification.** If the court determines pursuant to subsection 5 that a person has established by a preponderance of the evidence each of the statutory prerequisites specified in section 2252, a copy of the court's written order certifying its determination must be provided to the Department of Public Safety, Bureau of State Police, State Bureau of Identification. The State Bureau of Identification upon receipt of the order shall promptly alter its records relating to the person's eligible criminal conviction to reflect that future dissemination of this criminal history record information must be pursuant to section 2255 rather than pursuant to Title 16, section 704. The State Bureau of Identification shall notify the person of compliance with that requirement.

**7. Subsequent new criminal conviction; automatic loss of eligibility; person's duty to notify.** Notwithstanding that a person has been determined by a court pursuant to subsection 5 to be entitled to the special restrictions on dissemination and use of criminal history record information relating to a criminal conviction specified in section 2255, if at any time subsequent to the court's determination the person is convicted of a new crime in this State or in another jurisdiction, the new conviction extinguishes that entitlement. In the event of a new criminal conviction, the person shall promptly file a written notice in the underlying criminal proceeding of the person's disqualification from entitlement identifying the new conviction, including the jurisdiction, court and docket number of the criminal proceeding. If the person fails to file the required written notice and the court learns of the existence of the new criminal conviction, the court shall notify the person of its apparent existence and offer the person an opportunity at a hearing to contest the fact of a new conviction. If a hearing is requested by the person, the court shall, after giving notice to the person and the appropriate prosecutorial office, hold a hearing. At the hearing, the person has the burden of proving by clear and convincing evidence that the person does not have the new conviction. At the conclu-

sion of the hearing, if the court determines that the person has not satisfied the burden of proof, it shall find that the person has been convicted of the new crime and as a consequence is no longer entitled to the special restrictions on dissemination and use of the criminal history record information relating to the criminal conviction as specified in section 2255 and shall issue a written order certifying this determination. If, at the conclusion of the hearing, the court determines that the person has satisfied the burden of proof, it shall find that the person has not been convicted of the new crime and issue a written order certifying this determination. The order must contain written findings of fact supporting the court's determination. A copy of the court's written order must be provided to the person and the prosecutorial office that represented the State.

**8. Notice to State Bureau of Identification of new crime.** If the court determines under subsection 7 that a person has been convicted of a new crime and as a consequence is no longer eligible for the special restrictions on dissemination and use of the criminal history record information relating to the criminal conviction as specified in section 2255, a copy of the court's written order certifying its determination must be provided to the Department of Public Safety, Bureau of State Police, State Bureau of Identification. The State Bureau of Identification upon receipt of the order shall alter its records relating to the person's criminal conviction to reflect that dissemination of this criminal history record information is pursuant to Title 16, section 704 rather than pursuant to section 2255. It shall notify the person of compliance with that requirement.

**§2255. Special restrictions on dissemination and use of criminal history record information relating to criminal conviction**

Notwithstanding Title 16, section 704, the criminal history record information relating to a criminal conviction for which the court has determined the person is entitled to special restrictions on dissemination and use is confidential and may not be disseminated by a criminal justice agency, whether directly or through any intermediary, except:

**1. Subject of conviction.** To the person who is the subject of the criminal conviction or that person's designee; and

schedules in effect on January 1, 2013 continue in effect until changed.

**7. Trustee retirement.** A person who has not been a trustee prior to January 1, 1987, or who is not a full-time employee, is not eligible to become a member of the Maine Public Employees Retirement System as a result of the person's selection as a trustee.

**8. Expenses.** The trustees may obtain an office and incur necessary expenses.

**9. Recall.** The trustees may be recalled in accordance with the following provisions.

A. The qualified electors of the district may petition for the recall of a trustee after the first year of the term for which the trustee is elected by filing a petition with the municipal clerk demanding the recall of the trustee. A trustee may be subject to recall for misfeasance, malfeasance or nonfeasance in office. The petition must be signed by electors equal to at least 25% of the vote cast for the office of Governor at the last gubernatorial election within the district. The recall petition must state the reason for removal.

B. Within 3 business days after the petition is offered for filing, the municipal clerk shall determine by careful examination whether the petition is sufficient and so state in a certificate attached to the petition. If the petition is found to be insufficient, the certificate must state the particulars creating the insufficiency. The petition may be amended to correct an insufficiency within 5 days following the affixing of the original certificate. Within 2 days after the offering of the amended petition for filing, the petition must again be carefully examined to determine sufficiency and a certificate stating the findings must be attached. Immediately upon finding an original or amended petition sufficient, the municipal clerk shall file the petition and call a special election to be held not less than 45 days nor more than 90 days from the date the municipal clerk certifies the petition as sufficient. The municipal clerk shall notify the trustee against whom the recall petition is filed of the special election.

C. The trustee against whom the recall petition is filed is a candidate at the special election without nomination, unless the trustee resigns within 10 days after the original filing of the petition. There is no primary. Candidates for the office may be nominated under the usual procedure of nomination for trustees by filing nomination papers, not later than 5 p.m., 4 weeks preceding the election and having their names placed on the ballot at the special election.

D. The trustee against whom a recall petition has been filed shall continue to perform the duties of the trustee's office until the result of the special

election is officially declared. The person receiving the highest number of votes at the special election is declared elected for the remainder of the term. If the incumbent receives the highest number of votes, the incumbent continues in office. If another candidate receives the highest number of votes, the other person succeeds the incumbent within 10 days after receiving notification.

E. After one recall petition and special election, no further recall petition may be filed against the same trustee during the term for which the trustee was elected.

**Sec. 5. Coordination with municipal planning.** The following provisions facilitate coordination of municipal planning and sewer extension planning.

**1. Growth management.** The trustees shall cooperate with municipal officials in the development of municipal growth management and other land use plans and ordinances.

**2. Development that affects the district.** Municipal officers shall cooperate with the trustees during the consideration of development applications that may affect the operations of the district.

**Sec. 6. Powers.** Except as otherwise provided by law, for the purposes of its incorporation, the district may locate, construct and maintain pipes, drains, sewers, conduits, treatment plants, pumping stations and other necessary structures and equipment for the collection, interception and treatment of sewerage, commercial and industrial waste and storm and surface water for the health, welfare, comfort and convenience of the inhabitants of the district.

All incidental powers, rights and privileges necessary to accomplish the objectives of this chapter are granted to the district.

**Sec. 7. Right of eminent domain.** The authority and procedures for the exercise of eminent domain by the district must conform to the Maine Revised Statutes, Title 38, sections 1152, 1152-A, 1153 and 1154. In addition, the district may not take by right of eminent domain any of the property or facilities of any other public utility used or acquired for future use by the owner of the public utility in the performance of a public duty, unless expressly authorized by a special Act of the Legislature.

**Sec. 8. Crossing other public utilities and railroad corporations.** If the district, in constructing, maintaining or replacing any of its facilities, must cross property of another public utility or railroad corporation, the district must obtain the consent of the other public utility or railroad corporation and undertake the work in accordance with conditions established by agreement. If, within 30 days after requesting consent, the district fails to reach an agreement

with the public utility or railroad corporation, the district may petition as follows.

**1. Public utility.** In the case of crossing property of a public utility, the district may petition the Public Utilities Commission to determine the time, place and manner of crossing. All work done on the property of the public utility must be done under the supervision and to the satisfaction of the public utility or as prescribed by the Public Utilities Commission.

**2. Railroad corporation.** In the case of crossing the property of a railroad corporation, the district may petition the Department of Transportation to determine the time, place and manner of crossing. All work done on the property of the railroad corporation must be done under the supervision and to the satisfaction of the railroad corporation or as prescribed by the Department of Transportation.

All work under this section must be done at the expense of the district.

**Sec. 9. Sewer extensions.** Sewer extensions are governed by this section.

**1. Written assurance from municipality.** The district may not construct any sewer extension unless it acquires from the municipal officers or the designee of the municipal officers of any municipality through which the sewer extension will pass written assurance that:

A. Any development, lot or unit intended to be served by the sewer extension is in conformity with any adopted municipal plans and ordinances regulating land use; and

B. The sewer extension is consistent with adopted municipal plans and ordinances regulating land use.

If the municipal officers fail to issue a response to a written request from the district for written assurance within 45 calendar days of receiving the request in writing, the written assurance is deemed granted.

Not less than 7 days prior to the meeting at which the trustees will take final action on whether to proceed with the extension, the trustees shall publish notice of the proposed extension in a newspaper having a general circulation that includes all municipalities through which the sewer extension will pass.

**2. Review of municipal decision.** For an inter-municipal sewer extension, when written assurance is denied by municipal officers pursuant to subsection 1, an aggrieved party may appeal, within 15 days of the decision, to the Department of Agriculture, Conservation and Forestry for a review of the municipal officers' decision. Notwithstanding the Maine Revised Statutes, Title 5, chapter 375, subchapter 4, the following procedures apply to the review by the Department of Agriculture, Conservation and Forestry.

A. The Department of Agriculture, Conservation and Forestry may request any additional information from the sewer district, the municipality or the Department of Environmental Protection. All information requested must be submitted within 30 days of the request, unless an extension is granted by the Department of Agriculture, Conservation and Forestry.

B. Within a reasonable time, the Department of Agriculture, Conservation and Forestry shall hold a hearing. The Department of Agriculture, Conservation and Forestry shall give at least 7 days' written notice of the hearing to the district, the municipality and the party that requested the hearing. The hearing is informal and the Department of Agriculture, Conservation and Forestry may receive any information it considers necessary.

C. Within 15 days of the hearing and within 60 days of the request for review, the Department of Agriculture, Conservation and Forestry shall make a decision that must include findings of fact on whether the sewer extension proposal is inconsistent with adopted municipal plans and ordinances regulating land use. The decision of the Department of Agriculture, Conservation and Forestry constitutes final agency action.

D. Notwithstanding subsection 1, if the Department of Agriculture, Conservation and Forestry determines that the sewer extension proposal is not inconsistent with adopted municipal plans and ordinances regulating land use, the Department of Agriculture, Conservation and Forestry shall issue written assurance that the proposal is consistent with adopted municipal plans and ordinances regulating land use and the sewer district may construct the sewer extension.

**Sec. 10. Conditions for carrying out work.**

When the district enters, digs up or excavates a public way or other land for the purpose of laying its sewers, drains or pipes or constructing or maintaining manholes or catch basins or their appurtenances or for any other purpose, the work must be done expeditiously. Upon completion of the work, the district shall restore the way or land to the condition it was in prior to the work or to a condition equally as good. Whenever the character of the work is such that it endangers travel on a public way, the municipal officers of the Town of Kennebunk may order a temporary closing of the way and of any intersecting way upon request of the district. The way must remain closed to public travel until the municipal officers determine it restored to a condition safe for traffic.

**Sec. 11. Contracts.** The district, through its trustees, in order to carry out the purposes of its incorporation, may contract with a person, district, utility or corporation or with a municipality, the State or other

governmental entity whether located inside or outside the boundaries of the district.

**Sec. 12. Lease of property.** The district may enter into a lease and leaseback transaction with respect to some or all of its real or personal property, other than land, and may take all other necessary action, including, but not limited to, the granting of mortgages and liens, to effectuate the transaction. For purposes of this section, "lease" includes a lease of any length, including leases that may be defined as sales for income tax purposes.

**Sec. 13. Enforcement.** The district has enforcement powers as specified in this section.

**1. Violation of standards by an industrial user.** The district may seek in a civil action injunctive relief from an industrial user that violates a pretreatment standard or requirement, administered by the district. The district may seek a civil penalty of up to \$1,000 per day for each violation by an industrial user of a pretreatment standard or requirement.

**2. Injury to property of the district.** A person may not place, discharge or leave any offensive or injurious matter or material on or in the conduits, catch basins or receptacles of the district contrary to its regulations or knowingly injure any conduit, pipe, reservoir, flush tank, catch basin, manhole, outlet, engine, pump or other property held, owned or used by the district.

A person who violates this subsection is liable to pay twice the amount of the damages to the district to be recovered in any proper action and is subject to a civil penalty not to exceed \$2,500 for each violation, payable to the district. The civil penalty is recoverable in a civil action.

**3. Required connection.** Except as provided in subsection 4, upon receiving a request from the district to connect a building located in the territory of the district that is accessible to a sewer or drain of the district and that is intended for human habitation or occupancy or that has facilities for discharge or disposal of wastewater or commercial or industrial waste, the owner of that building shall arrange to have the building connected through a sanitary sewer or drainage system to the district's accessible sewer or drain in the most direct manner possible. If feasible, each building requiring connection must have its own separate connection. The connection must be completed within 90 days of the receipt by the owner of the request, or within any extended period requested by the owner and agreed to by the trustees. For purposes of this subsection, "owner" includes the owners of record or any person against whom property taxes on the building are assessed.

A person who receives a notice in accordance with this subsection to connect to a building and fails to connect to the building in accordance with this subsection is

subject to a civil penalty not to exceed \$2,500, payable to the district. This penalty is recoverable in a civil action.

**4. Connections not required.** An existing building that is already served by a private sewer system is not required to connect with a sewer or drain of the district as long as the private sewer or drainage system functions in a satisfactory and sanitary manner and does not violate applicable law or ordinance applicable to the connection with a sewer or drain or the district or any applicable requirements of the state plumbing code, as determined by the municipal plumbing inspector or the municipal plumbing inspector's alternate, or, in the event that both are trustees or employees of the sewer district, the division of health engineering within the Department of Health and Human Services.

**5. Permissive connection.** A person not otherwise required to connect a private sewer into a sewer of the district may connect to the district's sewer if that person obtains a permit from the district and pays any charges required by the district. The clerk of the district shall record the permit in the district records.

**Sec. 14. Inspection of sewers.** The officers or agents of the district have free access to all premises served by the district's sewers, at all reasonable hours, for inspection of plumbing and sewage fixtures, to ascertain the quality and quantity of sewage discharged and the manner of discharge and to enforce this Act and the rules prescribed by the trustees.

**Sec. 15. Rights and obligations of abutters and others to enter.** A person may not connect a private sewer to a district sewer until:

**1. Inspection.** The private sewer has been inspected by a designated agent of the district and that agent has certified in writing that the private sewer has been constructed in compliance with and meets all requirements and conditions of the district's regulations;

**2. Payment.** The person has paid or has made arrangements acceptable to the district to pay all assessments, impact fees or other charges the district imposes when a private sewer is connected to any of the district sewers; and

**3. Permit.** The person has obtained a permit in writing permitting the connection from the trustees. Before a permit is issued, the clerk or the clerk's designee of the district shall record the permit in the district's records.

Every building in the district intended for human habitation or occupancy or with facilities for discharge or disposal of sewage or commercial or industrial waste accessible to a sewer of the district must, in the most direct manner possible, connect to the district sewer within 90 days after receiving from the district a

request to connect or within such further time as the trustees of the district may grant. Whenever feasible, each building must have a separate connection to the district's sewer. A building is considered accessible to a sewer of the district if the building is at any point within 200 feet of a district sewer or if any private sewer or drain directly or indirectly connected to the building or carrying wastewater or commercial or industrial waste from the building comes within 200 feet of a district sewer. This section does not require the owner of a building to acquire any real property or easement for the sole purpose of making the connection.

**Sec. 16. Rates and fees.** A person, firm and corporation, whether public or private or municipal, shall pay to the treasurer of the district rates established by the trustees for the sewer or drainage service used or available with respect to their real estate so long as those rates are consistent with this section. For the purposes of this section, "rate" means a rate, toll, rent, assessment, impact fee, supplemental charge or other lawful charge established by the district.

**1. Uniform rates.** Rates must be uniform within the district whenever the cost to the district of installation and maintenance of sewers, treatment facilities or their appurtenances and the cost of service is substantially uniform, except that:

A. The district may establish a higher rate in sections where, for any reason, the cost to the district of construction and maintenance, or the cost of service, exceeds the average as long as the higher rates are uniform throughout the sections where the rates apply; and

B. Trustees may reduce the impact fee or connection fee, as those terms are defined in the Maine Revised Statutes, Title 30-A, section 5061, for sewer service to newly constructed affordable housing in accordance with Title 30-A, chapter 202-A.

**2. Multidistrict rates.** Notwithstanding any other provision of law, the district that shares, supplies or contracts for services with another district shall establish rates mutually agreeable to the trustees of each participating district.

**3. Readiness to serve.** The district's rates may include readiness to serve rates charged against owners of real estate abutting or accessible but not connected to sewers or drains of the district, whether or not the real estate is improved.

**4. Interest on late payments.** The district may charge and collect interest on delinquent accounts at a rate not to exceed the highest lawful rate set by the Treasurer of State for municipal taxes.

**5. Adoption of rate schedule.** Prior to the adoption of a new rate schedule, the trustees shall hold a

public hearing regarding the proposed rate schedule. The trustees shall publish the proposed rates and notice of the hearing not less than once in a newspaper having a general circulation in the district not less than 7 days prior to the hearing. The district shall mail to each ratepayer a notice of the public hearing and the proposed rate at least 14 days prior to the hearing.

**6. Revenue from rates.** The sewer rates, tolls, rents, impact fees, entrance charges and other lawful charges established by the board of trustees in accordance with this Act must be fixed and adjusted with respect to the aggregate of the rates, tolls, rents, impact fees and entrance charges so as to produce revenue at least sufficient, together with any other money available to produce revenue, to:

- A. Pay the current expenses of operating and maintaining the sewerage, drainage and treatment system of the district;
- B. Pay the principal of and premium, if any, and interest on all bonds and notes issued by the district as they become due and payable;
- C. Create and maintain such reserves as may be required by the trustees or any trust agreement or resolution securing bonds and notes;
- D. Provide funds for paying the cost of all necessary repairs, replacements and renewals of the sewerage, drainage and treatment systems of the district;
- E. Pay or provide for any amounts that the district may be obligated to pay or provide for by law or contract, including any resolution or contract with or for the benefit of the holders of its bonds and notes; and
- F. Provide revenue in order to pay all or part of the present or projected cost to improve, enlarge or expand the district's system, including payment of interest accruing on any indebtedness for such purposes.

**7. Civil action for unpaid rates.** If rates under this section are not paid, and the district does not collect unpaid rates pursuant to the Maine Revised Statutes, Title 38, section 1050, the district may maintain a civil action against the person who has not paid rates for the amount of the unpaid rates plus 10% interest.

**Sec. 17. Waiver of sewer district lien foreclosure.** The district may use the following provisions to waive a lien foreclosure.

**1. Waiver.** The treasurer of the district, when authorized by the trustees, may waive the foreclosure of the district lien mortgage created pursuant to this Act by recording in the York County Registry of Deeds a waiver of foreclosure before the period for the right of redemption from the lien mortgage has expired. The lien mortgage remains in full effect after the recording

of a waiver. Other methods established by law for the collection of any unpaid rates are not affected by the filing of a waiver under this section.

**2. Form.** The waiver of foreclosure under subsection 1 must be substantially in the following form.

The foreclosure of the sewer lien mortgage on real estate for charges against.....(NAME) to Kennebunk Sewer District dated.....and recorded in the York County Registry of Deeds in Book....., Page..... is hereby waived.

The form must be dated, signed by the treasurer of the district and notarized. A copy of the form must be provided to the party named on the lien mortgage and each record holder of a mortgage on the real estate.

**Sec. 18. Collection of unpaid rates.** The district may secure payment of the district's rates pursuant to this section.

**1. Lien.** There is a lien on real estate served or benefited by the sewers of the district to secure the payment of the district's rates. The lien established under this section takes precedence over all other claims on such real estate, except claims for taxes.

**2. Collection.** The treasurer of the district may collect rates and all rates must be committed to the treasurer. The treasurer may, after demand for payment, sue in the name of the district in a civil action in any court of competent jurisdiction for any rates remaining unpaid. In addition to other methods established by law for the collection of rates and without waiver of the right to sue for the collection of rates, the lien created under subsection 1 may be enforced in the following manner.

A. Notwithstanding the Maine Revised Statutes, Title 38, section 1050, subsection 3, when rates have been committed to the treasurer of the district for collection, the treasurer may, after the expiration of 3 months and within one year after the date when the rates became due and payable, give to the owner of the real estate served, send by certified mail, return receipt requested, to the owner's last known address or, upon exhausting these options, leave at the owner's last and usual place of abode a notice in writing signed by the treasurer or bearing the treasurer's facsimile signature, stating the amount of the rates due, describing the real estate upon which the lien is claimed and stating that a lien is claimed on the real estate to secure the payment of the rates and demanding the payment of the rates within 30 days after service or mailing, with \$1 added to the demanded rate for the treasurer and an additional fee to cover mailing the notice by certified mail, return receipt requested. The notice must contain a statement that the district is willing to arrange installment payments of the outstanding debt.

B. After the expiration of 30 days and within one year after giving notice pursuant to paragraph A, the treasurer of the district shall record in the York County Registry of Deeds a certificate signed by the treasurer setting forth the amount of the rates due, describing the real estate on which the lien is claimed and stating that a lien is claimed on the real estate to secure payment of the rates and that a notice and demand for payment has been given or made in accordance with this section and stating further that the rates remain unpaid. At the time of the recording of the certificate in the registry, the treasurer shall file in the office of the district a true copy of the certificate and shall mail a true copy of the certificate by certified mail, return receipt requested, to each record holder of any mortgage on the real estate, addressed to the record holder at the record holder's last and usual place of abode.

C. The filing of the certificate in the York County Registry of Deeds creates a mortgage held by the district on the real estate described in the certificate that has priority over all other mortgages, liens, attachments and encumbrances of any nature, except liens, attachments and claims for taxes, and gives to the district all the rights usually possessed by mortgagees, except that the district as mortgagee does not have any right to possession of that real estate until the right of redemption has expired.

D. If the mortgage created under paragraph C, together with interest and costs, has not been paid within 18 months after the date of filing the certificate in the York County Registry of Deeds in accordance with paragraph B, the mortgage is foreclosed and the right of redemption expires. The filing of the certificate in the registry is sufficient notice of the existence of the mortgage. In the event that the rate, with interest and costs, is paid within the period of redemption, the treasurer of the district shall discharge the mortgage in the same manner as provided for discharge of real estate mortgages.

E. The owner of the real estate shall pay the sum of the fees for receiving, recording and indexing the lien, or its discharge, as established by the Maine Revised Statutes, Title 33, section 751, plus \$13, plus all certified mail, return receipt requested, fees.

F. Not more than 45 days or less than 30 days before the foreclosing date of the mortgage created under paragraph C, the treasurer of the district shall notify the party named on the mortgage and each record holder of a mortgage on the real estate in a writing signed by the treasurer or bearing the treasurer's facsimile signature and left at the holder's last and usual place of abode or sent by

certified mail, return receipt requested, to the holder's last known address of the impending automatic foreclosure and indicating the exact date of foreclosure. For sending this notice, the district is entitled to receive \$3 plus all certified mail, return receipt requested, fees, which must be added to and become a part of the amount due under paragraph E. If notice is not given in the time period specified in this paragraph, the person not receiving timely notice has up to 30 days after the treasurer provides notice as specified in this paragraph in which to redeem the mortgage. The notice of impending automatic foreclosure must be substantially in the following form:

STATE OF MAINE

**IF THE LIEN FORECLOSES, THE KENNEBUNK SEWER DISTRICT WILL OWN YOUR PROPERTY, SUBJECT ONLY TO MUNICIPAL TAX LIENS.**

If you cannot pay the outstanding charges, costs and interest that are the subject of this notice or the subject of installment payment arrangements that you have made with the district, please contact me immediately to discuss this notice.

.....  
District Treasurer

G. The district shall pay the treasurer \$1 for the notice, \$1 for filing the lien certificate and the amount paid for certified mail, return receipt requested, fees. The fees for recording the lien certificate must be paid by the district to the register of deeds.

H. A discharge of the certificate given after the right of redemption has expired, which discharge has been recorded in the York County Registry of Deeds for more than one year, terminates all title of the district derived from that certificate or any other recorded certificate for which the right of redemption expired 10 years or more prior to the foreclosure date of this discharge lien, unless the district has conveyed any interest based upon the title acquired from any of the affected liens.

**Sec. 19. District to bill only property owners.** The district may bill only the owner of the property receiving service.

**Sec. 20. Bonds and notes.** The district may authorize bonds and notes.

**1. Authorization of bonds.** The district may provide by resolution of its board of trustees, without district vote, except as provided in subsection 10, for the borrowing of money and the issuance from time to time of bonds, subject to the debt limitation set in this section, for any of its corporate purposes, including, but not limited to:

- A. Paying and refunding its indebtedness;
- B. Paying any necessary expenses and liabilities, whether incurred by the district or the Town of Kennebunk, the district being authorized to reimburse the Town of Kennebunk for any such expenses incurred or paid by it;
- C. Paying costs directly or indirectly associated with acquiring properties, paying damages, laying sewers, drains and conduits, constructing, maintaining and operating sewage and treatment plants or systems and making renewals, additions, extensions and improvements to the same and covering interest payments during the period of construction and for the period after construction as the trustees may determine;
- D. Providing reserves for debt service, repairs and replacements or other capital or current expenses as may be required by a trust agreement or resolution securing bonds; and
- E. Any combination of the purposes in paragraphs A to D.

Bonds may be issued as general obligations of the district or as special obligations payable solely from particular funds. The total outstanding and unpaid indebtedness of the district may not at any one time exceed the sum of \$30,000,000. The principal of and premium if any and interest on all bonds are payable solely from the funds provided for that purpose from revenues. "Revenues" means and includes the proceeds of bonds, all revenues, rates, fees, entrance charges, assessments, rents and other receipts derived by the district from the operation of its sewer system and other properties, including, but not limited to, in-

vestment earnings and the proceeds of insurance, condemnation and sale of or other disposition of properties. All bonds issued by the district are legal obligations of the district. The district is a quasi-municipal corporation within the meaning of the Maine Revised Statutes, Title 30-A, section 5701. Bonds may be issued without obtaining the consent of a commission, board, bureau or agency of the State or the Town of Kennebunk and without any proceedings, limitations or conditions to meet other than those specifically required under this Act. Bonds issued under this Act do not constitute a debt or liability of the State or the Town of Kennebunk or a pledge of the faith and credit of the State or the municipality, but the bonds are payable solely from the funds provided for that purpose, and a statement to that effect must be recited on the face of the bonds.

**2. Notes.** The district may also provide by resolution of its board, without district vote, for the issuance from time to time of notes in anticipation of bonds authorized under this section and of notes in anticipation of the revenues to be collected or received in any year or in anticipation of the receipt of federal or state grants or other aid. The issuance of these notes is governed by the applicable provisions of this section relating to the issuance of bonds, except that notes in anticipation of revenue must mature no later than one year from their respective dates and notes issued in anticipation of federal or state grants or other aid and renewals must mature no later than the expected date of receipt of those grants or aid. Notes in anticipation of revenue issued to mature less than one year from their dates may be renewed from time to time by the issuance of other notes, except that the period from the date of an original note to the maturity of any note issued to renew or pay the same or the interest on the note may not exceed one year.

The district is authorized to enter into agreements with the State or the United States, or any agency of either, or any municipality, corporation, commission or board authorized to grant or loan money to or otherwise assist in the financing of projects of the type the district is authorized to carry out and to accept grants and borrow money from the government, agency, municipality, corporation, commission or board necessary or desirable to accomplish the purposes of the district.

**3. Maturity; interest; form, temporary bonds.** The bonds issued under this section must be dated, mature at a time or times not exceeding 40 years from their date or dates and bear interest at a rate or rates determined by the board. The bonds may be made redeemable before maturity, at the option of the district, at a price or prices and under any terms and conditions as may be fixed by the board prior to the issuance of the bonds. The board shall determine the form of the bonds, including any interest coupons to be attached to the bonds, and the manner of execution of the bonds and shall fix the denomination or denomina-

tions of the bonds and the place or places of payment of principal and interest, which may be at any bank or trust company inside or outside the State. Bonds are executed in the name of the district by the manual or facsimile signature of the officer or officers authorized in the resolution to execute the bonds. One signature on each bond must be a manual signature. Coupons, if any, attached to the bonds must be executed with the facsimile signature of the officer or officers of the district designated in the resolution. If the officer whose signature or a facsimile of whose signature appears on any bonds or coupons ceases to be an officer before the delivery of the bonds, the signature or its facsimile is valid and sufficient for all purposes as if the officer had remained in office until the delivery.

Notwithstanding any of the other provisions in this Act or any recitals on any bonds issued under this section, all bonds are deemed to be negotiable instruments under the laws of this State. The bonds may be issued in coupon or registered form, or both, as the board may determine. Provision may be made for the registration of any coupon bonds as to principal alone and as to both principal and interest and for the reconversion into coupon bonds of any bonds registered as to both principal and interest. The board may sell bonds in that manner, either at public or private sale, at a price as it determines to be in the best interest of the district. The proceeds of the bonds of each issue must be used solely for the purpose for which those bonds are authorized and must be disbursed in such a manner and under such restrictions as the board provides in the resolution authorizing the issuance of the bonds or in the trust agreement securing the bonds. The resolution providing for the issuance of bonds and any trust agreement securing the bonds may contain such limitations upon the issuance of additional bonds as the board determines proper. The additional bonds must be issued under such restrictions and limitations prescribed by that resolution or trust agreement. Prior to the preparation of definitive bonds, the board may, under like restrictions, issue interim receipts or temporary bonds, with or without coupons, exchangeable for definitive bonds when those bonds are executed and are available for delivery. The board may provide for the replacement of any bond that is mutilated, destroyed or lost.

#### **4. Pledges and covenants; trust agreement.**

The issuance of notes or bonds constitutes a pledge of net revenues of the district for the prompt payment of associated debt service or bonds when due.

In the discretion of the board, any issue of bonds may be secured by a trust agreement by and between the district and a corporate trustee that may be any trust company inside or outside the State.

A. The resolution authorizing the issuance of the bonds or the trust agreement must, unless for another specified source of revenue, pledge or as-

sign, in whole or in part, the revenues and other money held or to be received by the district and any account and contract or other rights to receive the same, whether then existing or coming into existence and whether then held or acquired by the district, and the proceeds from the bonds, but the resolution or trust agreement may not convey or mortgage the sewer system or any other properties of the district. The resolution may also contain provisions for protecting and enforcing the rights and remedies of the bondholders that are reasonable and proper and not in violation of law, including, but not limited to, covenants setting forth the duties of the district and the board of trustees in relation to the acquisition, construction, reconstruction, improvement, repair, maintenance, operation and assurance of its sewer system or any of its other properties; the fixing and revising of rates, fees and charges; the application of the proceeds of bonds; the custody, safeguarding and application of revenues; the defining of defaults and providing for remedies in the event of defaults, which may include the acceleration of maturities; the establishment of reserves; and the making and amending of contracts. The resolution or trust agreement may set forth the rights and remedies of the bondholders and of the corporate trustee, if any, and may restrict the individual right of action by bondholders as is customary in trust agreements or trust indentures securing bonds or debentures of corporations. In addition, the resolution or trust agreement may contain such other provisions as the board of trustees determines reasonable and proper for the security of the bondholders. All expenses incurred in carrying out the resolution or trust agreement may be treated as a part of the cost of operation. The pledge by any resolution or trust agreement is valid and binding and is deemed continuously perfected for the purposes of the Uniform Commercial Code from the time when the pledge is made. All revenues, money, rights and proceeds so pledged and received by the district are immediately subject to the lien of the pledge without any physical delivery or segregation of the pledge or further action under the Uniform Commercial Code or otherwise. The lien of the pledge is valid and binding against all parties having claims of any kind in tort, contract or otherwise against the district irrespective of whether those parties have notice of the lien of the pledge.

B. The resolution authorizing the issuance of bonds under this Act, or any trust agreement securing those bonds, must, unless for another specified source of revenue, provide that all or a sufficient amount of revenues, after providing for the payment of the cost of repair, maintenance and operation and reserves for the payment as may be provided in the resolution or trust agreement, is

set aside at such regular intervals as may be provided in the resolution or trust agreement and deposited in the credit of a fund for the payment of the interest on and the principal of bonds issued under this chapter as the principal becomes due and the redemption price or purchase price of bonds retired by call or purchase. The use and disposition of money to the credit of the fund is subject to such regulations as may be provided in the resolution authorizing the issuance of the bonds or in the trust agreement securing the bonds and, except as may otherwise be provided in the resolution or trust agreement, the fund is a fund for the benefit of all bonds without distinction or priority of one over another.

**5. Trust funds.** Notwithstanding any other provision of law, all money received pursuant to the authority provided under this Act is deemed to be trust funds, to be held and applied solely as provided in this Act. The resolution authorizing the issuance of bonds or the trust agreement securing the bonds must provide that any officer to whom, or bank, trust company or other fiscal agent to which, the money is paid acts as trustee of the money and shall hold and apply the same for the purposes of this Act, subject to such regulations as may be provided in the resolution or trust agreement or as may be required under this Act.

**6. Remedies.** A holder of bonds issued under this Act or of any of the coupons appertaining to the bonds or a corporate trustee under any trust agreement, except to the extent the rights given may be restricted by the resolution authorizing the issuance of those bonds or trust agreement, may, either at law or in equity, by suit, action, mandamus or other proceeding, including proceedings for the appointment of a receiver to take possession and control of the properties of the district, protect and enforce any and all rights under the laws of the State or granted under this Act or under the resolution or trust agreement. The holder of bonds and the trustee under any trust agreement may enforce and compel the performance of any duty required by this Act or by the resolution or trust agreement to be performed by the district or by any officer of the district, including the fixing, charging and collecting of rates, fees and charges for the use of or for the services and facilities furnished by the district.

**7. Refunding bonds.** The board by resolution, without district vote, may issue refunding bonds for the purpose of paying any of its bonds at maturity or upon acceleration or redemption. The refunding bonds may be issued at such time prior to the maturity or redemption of the refunded bonds as the board determines to be in the public interest. The refunding bonds may be issued in sufficient amounts to pay or provide the principal of the bonds being refunded, together with any redemption premium on the bonds, any interest accrued or to accrue to the date of payment of those bonds, the expenses of issue of the re-

funding bonds, the expenses of redeeming the bonds being refunded and such reserves for debt service, including costs of issuance, or other capital or current expenses from the proceeds of such refunding bonds as may be required by a trust agreement or resolution securing bonds. The issuance of refunding bonds, the maturities and other details of the refunding bonds, the security for refunding the bonds, the rights of the holders of the refunding bonds and the rights, duties and obligations of the district in respect of the same are governed by the applicable provisions of this section relating to the issuance of bonds other than refunding bonds.

**8. Tax exemption.** All bonds, notes or other evidences of indebtedness issued under this Act, their transfer and the income from the bonds, notes or other evidences of indebtedness, including any profit made on the sale of bonds, notes or other evidences of indebtedness, must at all times be free from taxation within the State.

**9. Bonds declared legal investments.** Bonds and notes issued by the district are securities in which all public officers and public bodies of the State and its political subdivisions, insurance companies and associations and other persons carrying on an insurance business; trust companies, banks, bankers and banking associations; savings banks and savings associations, including savings and loan associations; credit unions; building and loan associations; investment companies; executors, administrators, trustees and other fiduciaries; pension, profit-sharing and retirement funds; and other persons carrying on a banking business, and all other persons who are authorized to invest in bonds or other obligations of the State, may properly and legally invest funds, including capital in their control or belonging to them. The bonds and notes are securities that may properly and legally be deposited with and received by any state, municipal or public officer or any agency or political subdivision of the State for any purpose for which the deposit of bonds or other obligations of the State is authorized by law.

**10. Certain bond issues; special meeting; vote.** If the trustees vote to authorize bonds or notes for any of the corporate purposes of the district, excluding notes payable within one year, notes in anticipation of bonds authorized pursuant to this Act, notes in anticipation of the revenues to be collected or received in any year and notes in anticipation of the receipt of approved federal or state grants, the authorized amount of which singly or in aggregate included in any one financing is \$1,000,000 or more, the trustees must call a special district meeting for the purpose of permitting the collection of testimony from the public concerning the purpose and the amount of debt so authorized. Notice of the special district meeting, stating the approximate amount of the debt and the purpose for which it is being issued, must be published not less than 7 full days prior to the date of the meeting in a

newspaper having general circulation in the district and must be mailed to each ratepayer in the district not later than the date of the publication. A debt may not be incurred under the vote of the trustees until the expiration of 28 full days following the date of the special district meeting.

Except for debt to fund that part of any project that has been approved for grant financing by the State Government or Federal Government to meet the requirements of the United States Clean Water Act, including any related facilities not eligible for that financing but essential to the operation of the approved project as an integral system, for debts in excess of the amount specified in this section, the following petition and referendum procedure applies. If, on or before the 28th day following the date of the special district meeting, a petition signed by at least 5% of the registered voters of the district is filed with the clerk of the district requesting reference of the vote of the trustees to referendum, the clerk of the district shall call and hold a special election of the voters of the district for the purpose of submitting to referendum vote a question of approving the vote of the trustees. The vote of the trustees is suspended until it has received approval by vote of a majority of the voters of the district voting on the question at the special election.

**Sec. 21. Authority to increase debt limits.**

Notwithstanding any provision of this Act to the contrary, the district may increase its debt limit by referendum in accordance with this section. The district is not required to use the procedure provided by this section and may seek to increase its debt limit by any other lawful means, including pursuant to any other means described in this Act or by seeking legislative amendment to this Act.

**1. Referendum.** If the district chooses to increase its debt limit pursuant to this section, the board shall propose a new debt limit and submit the proposal for approval at a districtwide referendum. The referendum must be called, advertised and conducted according to the law relating to municipal elections in the Maine Revised Statutes, Title 30-A, chapter 121, except the registrar of voters is not required to prepare or the clerk to post a new list of voters. The referendum may be held outside the territory of the district if the usual voting place for persons located within the district is located outside the territory of the district. For the purpose of registering voters, the registrar of voters must be in session on the regular work day preceding the election. The question presented must conform to the following:

"Do you favor changing the debt limit of the Kennebunk Sewer District from (insert current debt limit) to (insert proposed debt limit)?"

The voters shall indicate by a cross or check mark placed against the word "Yes" or "No" their opinion on the question.

The results must be declared by the board and entered upon the district's records. Due certificate of results must be filed by the clerk with the Secretary of State.

**2. Approval.** A debt limit proposal becomes effective upon its acceptance by a majority of the legal voters within the district voting at the referendum. Failure of approval by the majority of legal voters voting at the referendum does not prevent subsequent referenda from being held for the same purpose. The cost of referenda are borne by the district.

**Sec. 22. Mutual funds; sewer districts.** The district may invest its funds, including sinking funds, reserve funds and trust funds, to the extent that the term of any instrument creating the funds does not prohibit the investment, in shares of an investment company registered under the federal Investment Company Act of 1940, whose shares are registered under the United States Securities Act of 1933, only if the investments of the investment company are limited to obligations of the United States or any agency or instrumentality, corporate or otherwise, of the United States or repurchase agreements secured by obligations of the United States or any agency or instrumentality, corporate or otherwise, of the United States. This section is in addition to, and not in limitation of, any power of the district to invest its funds.

**Sec. 23. Competitive bidding.** A contract in excess of \$2,000 between the district and a contractor for the construction of facilities located on private property for the exclusive use of a private individual and for which the private individual is required to pay the total cost directly to the district must be awarded by a system of competitive bidding. Unless there are valid reasons to the contrary, the contracts must be awarded to the lowest responsible bidder.

**Sec. 24. District personnel records.** The personnel records of the district are confidential to the same extent as municipal records pursuant to the Maine Revised Statutes, Title 30-A, section 2702, subsection 1. The records are reviewable by employees of the district to the same extent and in the same manner as provided for municipal personnel records pursuant to Title 30-A, section 2702, subsection 2.

**Sec. 25. P&SL 2005, c. 13,** as amended, is repealed.

**Sec. 26. Emergency clause; referendum; effective date.** In view of the emergency cited in the preamble, this Act takes effect when approved but only for the purpose of permitting its submission to the legal voters within the territory described in section 1 at the election called for that purpose by January 1, 2018. The election must be called, advertised and conducted according to the law relating to municipal

elections, except that the registrar of voters is not required to prepare or the town clerk to post a new list of voters. For the purpose of registration of voters, the registrar of voters must be in session on the secular day preceding the election. The subject matter of this Act is reduced to the following question:

"Do you favor adopting the Kennebunk Sewer District charter, 2015 revision?"

The voters shall indicate by a cross or check mark placed against the word "Yes" or "No" their opinion of the same.

The results must be declared by the municipal officers of the Town of Kennebunk and due certificate of the results filed by the town clerk with the Secretary of State.

This Act takes effect for all other purposes immediately upon its approval by a majority of the legal voters voting at the election.

Effective pending referendum.

The department shall adopt a method of educational assessment pursuant to the Maine Revised Statutes, Title 20-A, section 6202 for the 2015-2016 school year and each school year thereafter that complies with federal law but does not collect or disseminate personal data and attributes of students, such as attitudes, values, motivations, stereotypes and feelings. **Sec. 2. Powers of the Southwest Harbor Water and Sewer District.** The district is authorized to take, hold, divert, use and distribute water from any source within the territory of the district, including but not limited to Long Pond in the Town of Southwest Harbor. The district has all the powers of a standard water district under the Maine Revised Statutes, Title 35-A, section 6404 and all the powers of a standard sewer district under Title 38, section 1039.

**Sec. 3. Authority to lay mains, pipes, conduits and other water and sewerage conveyances through public ways and across private lands.** The district is authorized to lay, maintain, repair and replace pipes, mains and other fixtures and appurtenances in, along and through the streets, roads, ways, highways, bridges, tidal waters, lakes, ponds, rivers and watercourses within the district and in, along and through private lands of any person or corporation within the district. When the district lays, maintains, repairs or replaces pipes, mains or any fixtures or appurtenances in any street, road, way or highway, it shall do so with as little obstruction as practicable to public travel and shall at its own expense and without unnecessary delay replace in proper condition the earth and pavement removed by it.

The district is authorized to lay, maintain, repair and replace pipes, mains and other fixtures and appurtenances to or into any drain or sewer now or hereafter built that empties into watercourses or treatment works, the discharge to be at such point or points consistent with the requirements of public health and as convenient and reasonable for the district and consistent with the requirements of applicable federal, state and local laws and the flow of existing watercourses.

**Sec. 4. Sewer extensions.** Sewer extensions are governed by the Maine Revised Statutes, Title 38, section 1042.

**Sec. 5. Coordination with municipal planning.** The trustees of the district shall cooperate with the Board of Selectmen of the Town of Southwest Harbor in the development of municipal growth management and other land use plans and ordinances.

**Sec. 6. Abutting owners have right to enter.** The district shall permit the owners of premises abutting upon its lines of pipes and conduits to enter the same with all proper sewerage and to connect the same for potable water, if the owners of such premises conform to the rules and regulations of the district and pay the established rates, tolls, rents and other lawful charges.

**Sec. 7. Inspection of sewers.** The officers or agents of the district have free access to all premises served by the district's sewers, at all reasonable hours, for inspection of plumbing and sewage fixtures, to ascertain the quality and quantity of sewage discharged and the manner of discharge and to enforce the provisions of this Act and the rules prescribed by the trustees of the district.

**Sec. 8. Injury to the property of the district.** A person may not place, discharge or leave any offensive or injurious matter or material on or in the conduits, catch basins or receptacles of the district contrary to its regulations or knowingly injure any conduit, pipe, reservoir, flush tank, catch basin, man-hole, outlet, engine, pump or other property held, owned or used by the district.

**Sec. 9. Required connection.** Upon receiving a request from the district to connect a building located in the territory of the district that is accessible to a sewer or drain of the district and that is intended for human habitation or occupancy or that has facilities for discharge or disposal of waste water or commercial or industrial waste, the owner of that building shall arrange to have the building connected through a sanitary sewer or drainage system to the district's accessible sewer or drain in the most direct manner possible. If feasible, each building requiring connection must have its own separate connection. The connection must be completed within 90 days of the receipt by the owner of the request, or within any extended period requested by the owner and agreed to by the trustees. For purposes of this section, "owner" in-

cludes the owners of record or any person against whom property taxes on the building are assessed.

A person who receives a notice in accordance with this section to connect to a building and fails to connect to the building in accordance with this section is subject to a civil penalty not to exceed \$2,500, payable to the district. This penalty is recoverable in a civil action.

**Sec. 10. Connections not required.** An existing building that is already served by a private sewer system is not required to connect with a sewer or drain of the district as long as the private sewer or drainage system functions in a satisfactory and sanitary manner and does not violate applicable law or ordinance applicable to the connection with a sewer or drain of the district or any applicable requirements of the state plumbing code, as determined by the municipal plumbing inspector or the municipal plumbing inspector's alternate, or, in the event that both are trustees or employees of the sewer district, the division of health engineering within the Department of Health and Human Services.

**Sec. 11. Permissive connection.** A person not otherwise required to connect a private sewer into a sewer of the district may connect to the district's sewer if that person obtains a permit from the district and pays any charges required by the district. The clerk of the district shall record the permit in the records of the district.

**1. Construction complete.** If construction of the district's sewer is complete at the proposed point of entry of the private sewer and the district has established an entrance charge for entry at that location, the person seeking to connect the private sewer at that location shall pay the entrance charge before the connection is undertaken.

**2. Construction not complete.** If the district's sewer is under construction and not completed at the point of the proposed entry of the private sewer, the person seeking to connect the private sewer at that location is not required to pay an entrance charge until construction is completed.

**Sec. 12. Authority to acquire property; right of eminent domain conferred; procedures in exercising eminent domain.** The district is authorized and empowered to acquire and hold real and personal property necessary or convenient for its purposes. The district is granted the right of eminent domain as specified in the Maine Revised Statutes, Title 38, section 1040 with respect to its sewer functions and is granted the right of eminent domain as specified in Title 35-A, section 6408 with respect to its water functions. The trustees of the district shall obtain the consent of the Board of Selectmen of the Town of Southwest Harbor prior to each exercise of its rights of eminent domain.

**1. Procedures as to the exercise of right of eminent domain for sewer.** With respect to the sewer functions of the district, the procedures for the exercise of eminent domain must conform to Title 38, section 1040.

**2. Procedures as to the exercise of right of eminent domain for water.** With respect to the water functions of the district, the procedures for the exercise of eminent domain must conform to Title 35-A, section 6409.

**Sec. 13. Crossing property of other public utilities and railroad corporations.** If the district, in constructing, maintaining or replacing any of its facilities, must cross property of another public utility or railroad corporation, the district shall obtain the consent of the other public utility or railroad corporation and undertake the work in accordance with conditions established by agreement. If, within 30 days after requesting consent, the district fails to reach an agreement with the public utility or railroad corporation, the district may petition as follows.

**1. Public utility.** In the case of crossing property of a public utility, the district may petition the Public Utilities Commission to determine the time, place and manner of crossing. All work done on the property of the public utility must be done under the supervision and to the satisfaction of the public utility or as prescribed by the Public Utilities Commission.

**2. Railroad corporation.** In the case of crossing property of a railroad corporation, the district may petition the Department of Transportation to determine the time, place and manner of crossing. All work done on the property of the railroad corporation must be done under the supervision and to the satisfaction of the railroad corporation or as prescribed by the Department of Transportation.

**Sec. 14. Trustees, appointment; tenure of office; vacancies; first meeting and organization of board; annual report; transition provisions.** All the affairs of the district must be managed by a board of 3 trustees. One of the trustees must be the town manager for the Town of Southwest Harbor. If the town manager position is vacated and in the absence of an acting town manager, the board of selectmen shall appoint a resident of the Town of Southwest Harbor to serve as a trustee until the town manager position is filled. The remaining 2 trustees must be residents of the Town of Southwest Harbor who are appointed by the board of selectmen. No member of the board of selectmen may, during the term for which the member is elected, be appointed as a trustee of the district. The appointed trustees shall hold office for terms of 3 years and until their respective successors are appointed and qualified. Upon appointment of the first board, the board of selectmen shall determine the terms of the 2 appointed trustees.

Within one week after their initial appointment, after the effective date of this Act, the trustees shall meet and elect from among their members a president and clerk, adopt a corporate seal and elect a treasurer, who may or may not be a trustee, and any other officers and agents as needed, who with the treasurer serve at the pleasure of the trustees. The treasurer shall furnish a bond in the sum and with sureties approved by the trustees. The district shall pay the cost of the bond. Members of the board of trustees may hold any office for the board, but may not receive any compensation, except as trustees, unless authorized by a vote of the Board of Selectmen of the Town of Southwest Harbor.

The trustees of the district shall receive compensation as recommended by the trustees and approved by majority vote of the Board of Selectmen of the Town of Southwest Harbor, including compensation for any duties they perform as officers as well as for their duties as trustees. Certification of the vote must be recorded with the Secretary of State and recorded in the bylaws. Compensation for duties as trustees must be based on an amount specified in the bylaws for each meeting actually attended plus reimbursement for travel and expenses, with the total not to exceed a specific amount as specified in the bylaws.

Whenever the term of office of an appointed trustee expires, the Board of Selectmen of the Town of Southwest Harbor shall appoint a successor to serve the full term of 3 years. If any other vacancy of an appointed trustee arises from any cause it must be filled in like manner for the unexpired term. All appointed trustees are eligible for reappointment. Trustees must be sworn to the faithful performances of their duties by the clerk of the Town of Southwest Harbor. When any appointed trustee ceases to be a resident of the Town of Southwest Harbor, that trustee vacates the office of trustee. The trustees may adopt and establish bylaws consistent with the laws of the State and necessary for the convenience and the proper management of the affairs of the district and perform other acts within the powers delegated by law to the trustees. The trustees shall publish an annual financial report.

A person who has not been a trustee of a sewer district prior to January 1, 1987 and who is not a full-time employee is not eligible to become a member of the Maine Public Employees Retirement System as a result of the person's appointment as a trustee.

**Sec. 15. Removal of appointed trustees.** An appointed trustee may be removed under the following provisions.

**1. Vote of board of selectmen.** An appointed trustee may be removed from the board of trustees with a majority vote of the Board of Selectmen of the Town of Southwest Harbor for misfeasance, malfeasance or nonfeasance in office. The selectmen must

state at a regularly scheduled meeting of the board of selectmen the reason for which removal is sought.

**2. Appeal.** Within 30 days after the vote by the board of selectmen pursuant to subsection 1, the trustee may appeal the decision to the Board of Appeals of the Town of Southwest Harbor.

**3. Further appeals.** Further appeals may be made to the Maine Superior Court under Rule 80B of the Maine Rules of Civil Procedure once all municipal procedures have been followed.

**Sec. 16. Authority to make and assume contracts.** The district, through its trustees, in order to carry out the purposes of its incorporation, may contract with a person, standard district, utility or corporation or with a municipality, the State or other governmental entity whether located inside or outside the boundaries of the district.

**Sec. 17. Authority to acquire water utility property and franchises of the Town of Southwest Harbor.** The Town of Southwest Harbor is authorized to sell to the district and the district is authorized and empowered to acquire by purchase or by the exercise of the right of eminent domain the entire water utility plant, property, franchise, property rights, privileges and assets owned by the Town of Southwest Harbor, including all land, waters, water rights, reservoirs, pipes, machinery, fixtures, hydrants, tools and all apparatus and appliances used or usable in supplying water facilities and drainage in the territory served by the municipal water department. Upon transfer by the Town of Southwest Harbor to the district of its plant, property, franchise, property rights, privileges and assets, the district assumes all the outstanding debts and liabilities of the municipal water department, including, without limitation, any outstanding bonds, notes or other evidence of indebtedness of the municipal water department that are due on or after the date of transfer.

The sale and transfer by the Town of Southwest Harbor of its water utility plant, property, franchise, property rights, privileges and assets; the assumption by the district of all the outstanding debts and liabilities of the municipal water department and the department assets; and all other water utility activities are subject to the approval of the Public Utilities Commission as may be required by the Maine Revised Statutes, Title 35-A.

**Sec. 18. Authority to acquire sewer-related property and franchises of the Town of Southwest Harbor.** The Town of Southwest Harbor is authorized to sell to the district and the district is authorized and empowered to acquire by purchase or by the exercise of the right of eminent domain the entire sewer plant, property, franchise, property rights, privileges and assets owned by the Town of Southwest Harbor, including all land, easements, mains, conduits,

fixtures, pumping stations, basins, treatment facilities and outlets used or usable in providing a public system of public sewerage and drainage in the territory served by the municipal sewer department. Upon transfer by the Town of Southwest Harbor to the district of its plant, property, franchise, property rights, privileges and assets, the district assumes all the outstanding debts and liabilities of the municipal sewer department, including, without limitation, any outstanding bonds, notes or other evidence of indebtedness of the municipal sewer department that are due on or after the date of transfer.

**Sec. 19. Completion of transfer.** Promptly after completion of the transfer and assumption of assets and liabilities pursuant to sections 17 and 18, the Town of Southwest Harbor shall cause to be filed with the Secretary of State notice that all sewer and water assets of the municipality and all debts and liabilities of the water and sewer departments of the Town of Southwest Harbor have been transferred to the district. The notice must be signed by the chair of the Board of Selectmen of the Town of Southwest Harbor and by the municipal clerk.

**Sec. 20. Authorized to borrow money; to issue bonds and notes.** For accomplishing the purposes of this Act, the district, by vote of its board of trustees, is authorized to borrow money temporarily and to issue for the borrowing of money its negotiable notes.

The district, by vote of its board of trustees, is authorized to issue bonds, notes or other evidences of indebtedness of the district, bearing interest at a rate or rates and having terms and provisions as the trustees determine. All notes and bonds with a maturity of more than one year and issued in connection with the water system only must first be approved by the Public Utilities Commission.

All bonds, notes and other evidences of indebtedness issued by the district must have inscribed upon their face the corporate name of the district and be signed by the treasurer and countersigned by the president of the board of trustees of the district.

All bonds, notes and other evidences of indebtedness issued by the district are legal obligations of the district, which is declared to be a quasi-municipal corporation within the Maine Revised Statutes, Title 30-A, section 5701. All bonds, notes and other evidences of indebtedness issued by the district are legal investments for savings banks and are exempt from state income tax.

**Sec. 21. Property tax exempt.** The property of the district is exempt from all taxation in the Town of Southwest Harbor.

**Sec. 22. Sewer rates payable; adoption of new rates; application of revenue; collection of unpaid rates; authority to disconnect water for**

**nonpayment of sewer service.** Notwithstanding the Maine Revised Statutes, Title 38, section 1048, this section governs the sewer rates of the district.

An individual, firm or corporation, whether public, private or municipal, shall pay to the treasurer the rates, tolls, rents, entrance charges and other lawful charges established by the trustees for the sewer or drainage service used or available with respect to its real estate, including rates for the district's readiness to serve, that are charged against owners of real estate abutting on or accessible to sewers or drains of the district, but not actually connected thereto, whether or not such real estate is improved. In this Act, "other lawful charges" and "other charges" include, but are not limited to, interest on delinquent accounts at a rate not to exceed the highest lawful rate set by the Treasurer of State for municipal taxes.

Rates, tolls, rents and entrance charges must be uniform within the district whenever the cost to the district of installation and maintenance of sewers or their appurtenances and the cost of service is substantially uniform, but nothing precludes the district from establishing a higher rate, toll, rent or entrance charge than the regular rates, tolls, rents and entrance charges in sections where, for any reason, the cost to the district of construction and maintenance, or the cost of service, exceeds the average, but such higher rates, tolls, rents and entrance charges must be uniform throughout the sections where they apply.

Prior to the adoption of a new rate schedule, the trustees shall hold a public hearing regarding the proposed rate schedule. The trustees shall publish the proposed rates and notice of the hearing at least once in a newspaper of general circulation in the district not less than 7 days prior to the hearing. The district shall mail to each ratepayer a notice of the public hearing and the proposed new rate at least 14 days prior to the hearing.

Notwithstanding any other provision of law, if the district shares, supplies or contracts for services with another sewer or sanitary district, the district shall establish rates, tolls, rents and entrance charges mutually agreeable to the trustees of each participating district.

The sewer rates, tolls, rents, entrance charges, assessments and other lawful charges established by the board of trustees in accordance with this Act must be fixed and adjusted to produce, in the aggregate, revenue at least sufficient, with any other funds available for the purpose, to:

**1. Current operating expenses.** Pay the current expenses of operating and maintaining the sewerage, drainage and treatment system of the district including the cost of depreciation;

**2. Payment of interest and principal.** Pay the principal of, premium, if any, and interest on all bonds

and notes issued by the district under this Act as the bonds and notes become due and payable;

**3. Sinking fund for retirement of obligations.** Create and maintain such reserves as may be required by any trust agreement or resolution securing bonds and notes;

**4. Repairs, replacements and renewals.** Provide funds for paying the cost of all necessary repairs, replacements and renewals of the sewerage, drainage and treatment systems of the district; and

**5. Payment of obligations.** Pay or provide for all amounts that the district may be obliged to pay or provide for by law including any resolution with or for the benefit of the holders of its bonds and notes.

Notwithstanding any other provision of law, in the event a user of the district's sewer system fails within a reasonable time to pay the district's rates, fees or charges for sewer service, the district may disconnect water service to the user, as long as the disconnection is accomplished in accordance with procedures established in applicable law or rules governing disconnection of utility services and terms and conditions approved by the Public Utilities Commission.

There is a lien issued on real estate served by the district to secure the payment of unpaid sewer rates and other lawful charges. The sewer lien takes precedence over all other claims on the real estate, except claims for taxes. The procedures for obtaining, enforcing and receiving payment on the lien are governed by Title 38, section 1050.

**Sec. 23. Water rates; application of revenue; sinking fund.** An individual, firm or corporation, whether public, private or municipal, shall pay to the treasurer of the district the rates and other lawful charges established by the trustees for the water used or made available to it. All water rates and other lawful charges of the district are governed by the Maine Revised Statutes, Title 35-A, chapter 61.

The water rates and other lawful charges are established to provide revenue for the following purposes:

**1. Current operating expenses.** To pay the current expenses for operating and maintaining the water system including depreciation;

**2. Payment of interest.** To provide for the payment of interest on the indebtedness created by the district for the benefit of its water system; and

**3. Sinking fund.** To provide each year a sum equal to not less than 1% nor more than 5% of the entire indebtedness created by the district for the benefit of its water system, which sum must be turned into a sinking fund to provide for the extinguishment of the indebtedness. The money set aside for the sinking fund must be devoted to the retirement of the obliga-

tions of the district or invested in such securities as savings banks are allowed to hold. The trustees may, in their discretion and in lieu of the establishment of a sinking fund, issue bonds of the district so that not less than 1% of the amount of the bonds so issued mature and are retired each year.

There is a lien issued on real estate served by the district to secure the payment of unpaid water rates and other lawful charges. The water lien takes precedence over all other claims on the real estate, except claims for taxes and sewer rates. The procedures of obtaining, enforcing and receiving payment on the water lien are governed by Title 35-A, section 6111-A.

**Sec. 24. Incidental powers granted.** All incidental powers, rights and privileges necessary to the accomplishment of the objectives set forth in the Act are granted to the district.

**Sec. 25. Replacement of equipment; road openings.** Upon the reconstruction of any public roadway by the Town of Southwest Harbor, the district shall coordinate the replacement of any sewer or water lines, equipment, valves or hydrants that have reached their maximum useful life. A rebuilt or resurfaced road may not be opened or excavated by the district except under emergency conditions, within 5 years of reconstruction or repavement of the road.

**Sec. 26. Referendum; effective date.** This Act takes effect when approved only for the purpose of permitting its submission to the legal voters within the Town of Southwest Harbor at a referendum called for that purpose and held within 2 years of the effective date of this Act. The election must be called by the Board of Selectmen of the Town of Southwest Harbor and must be held at the regular voting place. The referendum must be called, advertised and conducted according to the law relating to municipal elections. The registrars shall make a complete list of all the eligible voters of the proposed district as described in this Act. The list prepared by the registrars governs the eligibility of a voter. For the purpose of registration of voters, the registrars of voters must be in session the regular workday preceding the referendum. The subject matter of this Act is reduced to the following question:

"Do you favor merging the Southwest Harbor water department and the Southwest Harbor sewer department to create the Southwest Harbor Water and Sewer District and transferring all municipal water and sewer assets to the Southwest Harbor Water and Sewer District?"

The voters shall indicate by a cross or check mark placed against the word "Yes" or "No" their opinion of the same.

The results must be declared by the Board of Selectmen of the Town of Southwest Harbor and due certificate of the results filed by the clerk with the Secretary of State.

This Act takes effect for all other purposes immediately upon its approval by a majority of the legal voters of the Town of Southwest Harbor voting at the election. Failure to achieve the necessary approval in any referendum does not prohibit subsequent referenda consistent with this section as long as the referenda are held within 2 years after the effective date of this Act.

Effective pending referendum.

#### Resolve, To Study Options for a State Demand Response Program

**Preamble. In conducting its study, the trust shall consult with the Governor's Energy Office, the Public Utilities Commission, the Office of the Public Advocate and ISO-New

England and shall survey other states in New England regarding their interest in demand response programs at the state or regional level and consider demand response program rules that do not unduly burden or discourage consumer participation. The trust shall solicit the involvement of transmission and distribution utilities and electricity consumers in the State and determine consumer preferences for demand response program elements and rules. The trust shall issue a draft report and accept comments from the public and other interested parties. The trust shall coordinate with the other state agencies involved in order to efficiently and effectively solicit such public comment. The trust shall submit a report of its study and conclusions, including recommended legislation, by February 1, 2016 to the Joint Standing Committee on Energy, Utilities and Technology, which may report out a bill to the Second Regular Session of the 127th Legislature.

**Resolve, To Create  
Sustainable Growth in Maine's  
Distributed Energy Sector  
That Uses Market Forces To  
Fairly Compensate Energy  
Producers**

**Preamble. Whereas,** the Legislature finds that net energy billing is a simple mechanism that has supported the development of distributed generation in Maine, but net energy billing may not provide a suitable long-term foundation for distributed generation; and

**Whereas,** the Legislature finds that it is in the public interest to develop an alternative to net energy billing that fairly and transparently allocates the costs and benefits of distributed generation to all customers, allows participation by all customers and creates a sustainable platform for future growth of distributed generation to the benefit of all ratepayers; and

**Whereas,** the Legislature finds that the policy structure described within the Office of the Public Advocate's white paper entitled "A Ratepayer Focused Strategy for Distributed Solar in Maine" merits further exploration; now, therefore, be it

**Sec. 1. Stakeholder discussions. Resolved:** That the Public Utilities Commission shall, using existing resources, convene a stakeholder group to develop an alternative to net energy billing, as defined in

the Maine Revised Statutes, Title 35-A, section 3209-A. To the maximum extent possible, the recommendations from this group must reflect consensus among the stakeholders. In developing an alternative, the commission shall:

1. Ensure the alternative includes fixed, long-term compensation mechanisms for distributed generation that, when feasible, obtain the best price for ratepayers using market-based competition or capacity-based step downs, as described in the Office of the Public Advocate's white paper entitled "A Ratepayer Focused Strategy for Distributed Solar in Maine," and ensure the maximum level of compensation for a given technology does not exceed the ratepayer benefits as determined by a commission evaluation of the specific benefits of that technology;

2. Develop at least 3 aggregate market size scenarios representing low, medium and high estimates of the total installed capacity that would be developed under existing rate structures if net energy billing were to continue through 2021;

3. Ensure the alternative provides opportunities for meaningful participation by all market segments identified in the Office of the Public Advocate's white paper, including residential, commercial, industrial, community and wholesale or grid-scale solar distributed generation;

4. Include a method to aggregate, capture and monetize for ratepayers the benefits of distributed generation assets, including, but not limited to, benefits related to energy supply, capacity and renewable energy credits, in order to maximize revenues for aggregation to all ratepayers and identify the appropriate entity to initially serve as an aggregator, while providing for the opportunity for 3rd-party aggregation at a future date; and

5. Develop a process and timeline for transition from current net energy billing policies to the alternative that address the following:

A. The continued availability of net energy billing pending an assessment of the alternative, or until such date as the commission may recommend;

B. Options for participation by existing net energy billing customers in the alternative; and

C. Continuing opportunities for self-consumption by distributed generation customers once the alternative is fully implemented; and be it further

**Sec. 2. Report. Resolved:** That the Public Utilities Commission shall submit a report to the Joint Standing Committee on Energy, Utilities and Technology by January 30, 2016 that includes an overview of the stakeholder discussions; an overview of the alternative under section 1; any areas in which stakeholders were unable to reach consensus; technical

specifications, rules or policies needed to carry out the alternative; a proposed timeline for implementation of the alternative; technical or legal barriers to implementation of the alternative; and any other recommendations. The committee may report out a bill to the Second Regular Session of the 127th Legislature related to the report.

(c) "Security breach" means an incident of unauthorized access to and acquisition of records or data containing dealership or dealership customer information through which unauthorized use of the dealership or dealership customer information has occurred or is reasonably likely to occur or that creates material risk of harm to a dealership or a dealership's customer. An incident of unauthorized access to and acquisition of records or data containing dealership or dealership customer information, or an incident of disclosure of dealership customer information to one or more 3rd parties that was not specifically authorized by the dealer or customer, constitutes a security breach.

(2) Any requirement by a manufacturer, distributor, wholesaler, distributor branch or division, factory branch or division, wholesale branch or division or officer, agent or other representative thereof that a new motor vehicle dealer provide its customer lists, customer information, consumer contact information, transaction data or service files as a condition of the dealer's participation in any incentive program or contest, for a customer or dealer to receive any incentive payments otherwise earned under an incentive program or contest, for the dealer to obtain customers or customer leads or for the dealer to receive any other benefits, rights, merchandise or services that the dealer would otherwise be entitled to obtain under the franchise or any other contract or agreement or that are customarily provided to dealers is voidable at the option of the dealer, unless all of the following conditions are satisfied:

(a) The customer information requested relates solely to the specific program requirements or goals associated with such manufacturers' or distributors' own new vehicle makes or specific vehicles of their own make that are certified pre-owned vehicles and the dealer is not required to provide general customer information or other information related to the dealer;

(b) The requirement is lawful and would not require the dealer to allow any customer the right to opt out under the federal Gramm-Leach-Bliley Act, 15 United States Code, Chapter 94, Subchapter I; and

(c) The dealer is not required to allow the manufacturer, distributor or a 3rd party to have direct access to the dealer's dealer management computer system, but the dealer is instead permitted to provide the same dealer, consumer or customer data or information specified by the manufacturer or distributor by timely obtaining and pushing or otherwise furnishing the required data in a widely accepted file format in accordance with subparagraph (11).

(3) Nothing contained in this section limits the ability of a manufacturer, distributor, wholesaler, distributor branch or division, factory branch or division, wholesale branch or division or officer, agent or other representative thereof to require that the dealer provide, or use in accordance with law, customer information related solely to that ~~manufacturer~~ manufacturer's or distributor's own vehicle makes to the extent necessary to:

(a) Satisfy any safety or recall notice obligations;

(b) Complete the sale and delivery of a new motor vehicle to a customer;

(c) Validate and pay customer or dealer incentives; or

(d) Submit to the manufacturer, distributor, wholesaler, distributor branch or division, factory branch or division, wholesale branch or division or officer, agent or other representative thereof claims under section 1176.

(4) At the request of a manufacturer, distributor, wholesaler, distributor branch or division, factory branch or division, wholesale branch or division or officer, agent or other representative thereof, a dealer may be required to provide customer information related solely to that manufacturer's, distributor's, wholesaler's, distributor branch's or division's, factory branch's or division's or wholesale branch's or division's own vehicle makes for reasonable marketing purposes, market research, consumer surveys, market analysis and dealership performance analysis, except that the dealer is required to provide such customer information only if the provision of the information is lawfully permissi-

ble, the requested information relates solely to specific program requirements or goals associated with the manufacturer's or distributor's own vehicle makes and does not require the dealer to provide general customer information or other information related to the dealer and the requested information can be provided without requiring that the dealer allow any customer the right to opt out under the federal Gramm-Leach-Bliley Act, 15 United States Code, Chapter 94, Subchapter I.

(5) A manufacturer, distributor, wholesaler, distributor branch or division, factory branch or division, wholesale branch or division or officer, agent, dealer management computer system vendor or other representative thereof, or a 3rd party acting on behalf of a manufacturer, distributor, wholesaler, distributor branch or division, factory branch or division, wholesale branch or division or officer, agency, dealer management computer system vendor or other representative thereof, may not access or obtain dealer or customer data from or write dealer or customer data to a dealer management computer system used by a motor vehicle dealer or require or coerce a motor vehicle dealer to use a particular dealer management computer system, unless the dealer management computer system allows the dealer to reasonably maintain the security, integrity and confidentiality of the data maintained in the system. A manufacturer, distributor, wholesaler, distributor branch or division, factory branch or division, wholesale branch or division or officer, agent, dealer management computer system vendor or other representative thereof, or a 3rd party acting on behalf of a manufacturer, distributor, wholesaler, distributor branch or division, factory branch or division, wholesale branch or division or officer, agency, dealer management computer system vendor or other representative thereof, may not prohibit a dealer from providing a means to regularly and continually monitor the specific data accessed from or written to the dealer's dealer management computer system or from complying with applicable state and federal laws, rules and regulations. Nothing in this subparagraph imposes an obligation on a manufacturer, distributor, wholesaler, distributor branch or division, factory branch or division, wholesale branch or division or officer, agent, dealer management computer system vendor or other representative thereof, or a 3rd party acting on behalf of a manufacturer, distributor, wholesaler, distributor branch or division, factory branch or division, wholesale branch or division or officer, agency, dealer man-

agement computer system vendor or other representative thereof, to provide such capability.

(6) A manufacturer, distributor, wholesaler, distributor branch or division, factory branch or division, wholesale branch or division or officer, agent or other representative thereof or dealer management computer system vendor, or a 3rd party acting on behalf of a manufacturer, distributor, wholesaler, distributor branch or division, factory branch or division, wholesale branch or division or officer, agent or other representative thereof or dealer management computer system vendor may not access or use customer or prospect information maintained in a dealer management computer system used by a motor vehicle dealer for purposes of soliciting a customer or prospect on behalf of, or directing a customer or prospect to, any other dealer. The limitations in this subsection do not apply to:

- (a) A customer that requests a reference to another dealership;
- (b) A customer that moves more than 60 miles away from the dealer whose data were accessed;
- (c) Customer or prospect information that was provided to the dealer by the manufacturer, distributor, wholesaler, distributor branch or division, factory branch or division, wholesale branch or division or officer, agent or other representative thereof; or
- (d) Customer or prospect information obtained by the manufacturer, distributor, wholesaler, distributor branch or division, factory branch or division, wholesale branch or division or officer, agent or other representative thereof in which the dealer agrees to allow the manufacturer, distributor, wholesaler, distributor branch or division, factory branch or division, wholesale branch or division or officer, agent or other representative thereof or dealer management computer system vendor or a 3rd party acting on behalf of a manufacturer, distributor, wholesaler, distributor branch or division, factory branch or division, wholesale branch or division or officer, agent or other representative thereof or dealer management computer system vendor the right to access and use the customer or prospect information maintained in the dealer's dealer management computer system for purposes of soliciting a cus-

tomor or prospect of the dealer on behalf of or directing a customer or prospect to any other dealer in a separate, stand-alone written instrument dedicated solely to such an authorization.

(7) A manufacturer, distributor, wholesaler, distributor branch or division, factory branch or division, wholesale branch or division or officer, agent or other representative thereof or dealer management computer system vendor or a 3rd party acting on behalf of a manufacturer, distributor, wholesaler, distributor branch or division, factory branch or division, wholesale branch or division or officer, agent or other representative thereof or dealer management computer system vendor may not provide access to customer or dealership information maintained in a dealer management computer system used by a motor vehicle dealer without first obtaining the dealer's prior express written consent, revocable by the dealer upon 5 days' written notice, to provide such access. Prior to obtaining such consent and prior to entering into an initial contract or renewal of a contract with a dealer, the manufacturer, distributor, wholesaler, distributor branch or division, factory branch or division, wholesale branch or division or officer, agent or other representative thereof or dealer management computer system vendor or a 3rd party acting on behalf of or through a manufacturer, distributor, wholesaler, distributor branch or division, factory branch or division, wholesale branch or division or officer, agent or other representative thereof or dealer management computer system vendor shall provide to the dealer a written list of all specific 3rd parties to whom any data obtained from the dealer have actually been provided within the 12-month period ending November 1st of the prior year. The list must describe the scope and specific fields of the data provided. In addition to the initial list, a dealer management computer system vendor or a 3rd party acting on behalf of or through a dealer management computer system vendor must provide to the dealer an annual list of 3rd parties to whom such data are actually being provided on November 1st of each year and to whom the data have actually been provided in the preceding 12 months and describe the scope and specific fields of the data provided. Lists required pursuant to this subparagraph must be provided to the dealer by January 1st of each year. A dealer management computer system vendor's contract that directly relates to the transfer or accessing of dealer or dealer customer information must conspicuously state:

"NOTICE TO DEALER: THIS AGREEMENT RELATES TO THE TRANSFER AND ACCESSING OF CONFIDENTIAL INFORMATION AND CONSUMER-RELATED DATA." Consent in accordance with this subparagraph does not change any such person's obligations to comply with the terms of this section and any additional state or federal laws, rules and regulations. A dealer management computer system vendor may not refuse to provide a dealer management computer system to a motor vehicle dealer if the dealer refuses to provide consent under this subparagraph.

(8) A dealer management computer system vendor or 3rd party acting on behalf of or through a dealer management computer system vendor may not access or obtain data from or write data to a dealer management computer system used by a motor vehicle dealer unless the dealer management computer system allows the dealer to reasonably maintain the security, integrity and confidentiality of customer and dealer information maintained in the system. A dealer management computer system vendor or 3rd party acting on behalf of or through a dealer management computer system vendor may not prohibit a dealer from providing a means to regularly and continually monitor the specific data accessed from or written to the dealer management computer system and from complying with applicable state and federal laws, rules and regulations. This subparagraph does not impose on a manufacturer, distributor, wholesaler, distributor branch or division, factory branch or division, wholesale branch or division or officer, agent or other representative thereof or dealer management computer system vendor or a 3rd party acting on behalf of or through a manufacturer, distributor, wholesaler, distributor branch or division, factory branch or division, wholesale branch or division or officer, agent or other representative thereof or dealer management computer system vendor an obligation to provide such capability.

(9) A manufacturer, distributor, wholesaler, distributor branch or division, factory branch or division, wholesale branch or division or officer, agent or other representative thereof or dealer management computer system vendor or a 3rd party acting on behalf of or through a manufacturer, distributor, wholesaler, distributor branch or division, factory branch or division, wholesale branch or division or officer, agent or other representative thereof or dealer management computer sys-

tem vendor that has electronic access to customer or motor vehicle dealership data in a dealer management computer system used by a motor vehicle dealer shall provide notice to the dealer of any security breach of dealership or customer data obtained through that access, which at the time of the security breach was in the possession or custody of the manufacturer, distributor, wholesaler, distributor branch or division, factory branch or division, wholesale branch or division or officer, agent or other representative thereof or dealer management computer system vendor or a 3rd party. The disclosure notification must be made without unreasonable delay by the manufacturer, distributor, wholesaler, distributor branch or division, factory branch or division, wholesale branch or division or officer, agent or other representative thereof or dealer management computer system vendor or a 3rd party following discovery by the person, or notification to the person, of the security breach. The disclosure notification must describe measures reasonably necessary to determine the scope of the security breach and corrective actions that may be taken in an effort to restore the integrity, security and confidentiality of the data; these measures and corrective actions must be implemented as soon as practicable by all persons responsible for the security breach.

(10) Nothing in this section precludes, prohibits or denies the right of the manufacturer, distributor, wholesaler, distributor branch or division, factory branch or division, wholesale branch or division or officer, agent or other representative thereof to receive customer or dealership information from a motor vehicle dealer for the purposes of complying with federal or state safety requirements or implement any steps related to manufacturer recalls at such times as necessary in order to comply with federal and state requirements or manufacturer recalls as long as receiving this information from the dealer does not impair, alter or reduce the security, integrity and confidentiality of the customer and dealership information collected or generated by the dealer.

(11) Notwithstanding any of the terms or provisions contained in this subparagraph or in any consent, authorization, release, novation, franchise or other contract or agreement, whenever any manufacturer, distributor, wholesaler, distributor branch or division, factory branch or division, wholesale branch or division or officer, agent or other representative thereof or dealer management computer

system vendor or a 3rd party acting on behalf of or through a manufacturer, distributor, wholesaler, distributor branch or division, factory branch or division, wholesale branch or division or officer, agent or other representative thereof or dealer management computer system vendor requires that a new motor vehicle dealer provide any dealer, consumer or customer data or information through direct access to a dealer's dealer management computer system, the dealer is not required to provide, and may not be required to consent to provide in a written agreement, that direct access to its dealer management computer system. The dealer may instead provide the same dealer, consumer or customer data or information specified by the requesting party by timely obtaining and furnishing the requested data to the requesting party in a widely accepted file format except that, when a dealer would otherwise be required to provide direct access to its dealer management computer system under the terms of a consent, authorization, release, novation, franchise or other contract or agreement, a dealer that elects to provide data or information through other means may be charged a reasonable initial setup fee and a reasonable processing fee based on actual incremental costs incurred by the party requesting the data for establishing and implementing the process for the dealer. A term or provision contained in a consent, authorization, release, novation, franchise or other contract or agreement that is inconsistent with this subsection is voidable at the option of the dealer.

(12) Notwithstanding the terms or conditions of any consent, authorization, release, novation, franchise or other contract or agreement, a manufacturer, distributor, wholesaler, distributor branch or division, factory branch or division, wholesale branch or division or officer, agent or other representative thereof or dealer management computer system vendor or a 3rd party acting on behalf of or through a manufacturer, distributor, wholesaler, distributor branch or division, factory branch or division, wholesale branch or division or officer, agent or other representative thereof or dealer management computer system vendor that has electronic access to consumer or customer data or other information in a dealer management computer system used by a new motor vehicle dealer, or who has otherwise been provided consumer or customer data or other information by the dealer, shall fully indemnify and hold harmless a dealer from whom it has acquired that consumer or customer data or other information from all dam-

ages, costs and expenses incurred by that dealer, including, but not limited to, judgments, settlements, fines, penalties, litigation costs, defense costs, court costs and attorney's fees arising out of complaints, claims, civil or administrative actions and, to the fullest extent allowable under the law, governmental investigations and prosecutions to the extent caused by the access, storage, maintenance, use, sharing, disclosure or retention of that dealer's consumer or customer data or other information by the manufacturer, distributor, wholesaler, distributor branch or division, factory branch or division, wholesale branch or division or officer, agent or other representative thereof or dealer management computer system vendor or a 3rd party acting on behalf of or through a manufacturer, distributor, wholesaler, distributor branch or division, factory branch or division, wholesale branch or division or officer, agent or other representative thereof or dealer management computer system vendor; or

**JOINT RESOLUTION  
MEMORIALIZING THE  
PRESIDENT AND  
CONGRESS OF THE  
UNITED STATES TO  
SUPPORT THE REFORM OF  
THE SOCIAL SECURITY  
OFFSETS OF THE  
GOVERNMENT PENSION  
OFFSET AND THE  
WINDFALL ELIMINATION  
PROVISION**

**S.P. 382**

**WE**, your Memorialists, the Members of the One Hundred and Twenty-seventh Legislature of the State of Maine now assembled in the First Regular Session, most respectfully present and petition the President of the United States and the Congress of the United States, as follows:

**WHEREAS**, under current federal law, individuals who receive a Social Security benefit and a public retirement benefit derived from employment not covered under Social Security are subject to a reduction in the Social Security benefits; and

**WHEREAS**, these laws, contained in the federal Social Security Act, 42 United States Code, Chapter 7, Subchapter II, Federal Old-Age, Survivors, and Disability Insurance Benefits, and known as the Government Pension Offset and the Windfall Elimination Provision, greatly affect public employees, particularly women; and

**WHEREAS**, the Windfall Elimination Provision reduces by a formula the Social Security benefit of a person who is also receiving a pension from a public employer that does not participate in Social Security; and

**WHEREAS**, the Government Pension Offset and the Windfall Elimination Provision are particularly burdensome on the finances of low-income and moderate-income public service workers, such as school teachers, clerical workers and school cafeteria employees, whose wages are low to start; and

**WHEREAS**, the Government Pension Offset and the Windfall Elimination Provision both unfairly reduce benefits for those public employees and their spouses whose careers cross the line between the private and public sectors; and

**WHEREAS**, since many lower-paying public service jobs are held by women, both the Government Pension Offset and the Windfall Elimination Provision

have a disproportionately adverse effect on women; and

**WHEREAS**, in some cases, additional support in the form of income, housing, heating and prescription drug and other safety net assistance from state and local governments is needed to make up for the reductions imposed at the federal level; and

**WHEREAS**, other participants in Social Security do not have their benefits reduced in this manner; and

**WHEREAS**, to participate or not to participate in Social Security in public sector employment is a decision of employers, even though both the Government Pension Offset and the Windfall Elimination Provision directly punish employees and their spouses; and

**WHEREAS**, although the Government Pension Offset was enacted in 1977 and the Windfall Elimination Provision was enacted in 1983, many of the benefits in dispute were paid into Social Security prior to that time; now, therefore, be it

**RESOLVED:** That We, your Memorialists, request that the President of the United States and the United States Congress work together to support reform proposals that include the following protections for low-income and moderate-income government retirees:

1. Protections permitting retention of a combined public pension and Social Security benefit with no applied reductions;
2. Protections permanently ensuring that level of benefit by indexing it to inflation; and
3. Protections ensuring that no current recipient's benefit is reduced by the reform legislation; and be it further

**RESOLVED:** That suitable copies of this resolution, duly authenticated by the Secretary of State, be transmitted to the Honorable Barack H. Obama, President of the United States; the President of the United States Senate; the Speaker of the House of Representatives of the United States; and each Member of the Maine Congressional Delegation.

**JOINT RESOLUTION  
RECOGNIZING THE 50TH  
ANNIVERSARY OF THE  
MARCH FROM SELMA TO  
MONTGOMERY**

**H.P. 765**

**WHEREAS**, March 25, 2015 marks the 50th anniversary of the end of the 3rd of 3 marches from Selma, Alabama to Montgomery, Alabama in support of the voting rights movement, which in turn contributed to passage of the federal Voting Rights Act of 1965, a landmark achievement of the civil rights movement in the 1960s; and

**WHEREAS**, on March 7, 1965 approximately 600 civil rights marchers, led by John Lewis of the Student Nonviolent Coordinating Committee, who is now a member of the United States House of Representatives, and Reverend Hosea Williams of the Southern Christian Leadership Conference, headed east out of Selma, Alabama to the State Capitol in Montgomery, Alabama; and

**WHEREAS**, the civil rights activists sought to nonviolently protest discriminatory voter registration practices and the shooting of Jimmie Lee Jackson, who was shot after protecting his mother and grandfather in a civil rights demonstration on February 18, 1965 in a restaurant in Marion, Alabama and who died 8 days later on February 26, 1965; and

**WHEREAS**, the nonviolent marchers were met and attacked with clubs, whips, police dogs and tear gas by state troopers, local law enforcement officers and townspeople at the Edmund Pettus Bridge as they were leaving Selma; and

**WHEREAS**, dozens of peaceful marchers were injured by state troopers, local law enforcement officers and townspeople in the forced retreat; and

**WHEREAS**, images of innocent protestors brutally beaten and severely injured on March 7, 1965, remembered as "Bloody Sunday," were depicted on television screens and in newspaper articles across the country; and

**WHEREAS**, Bloody Sunday galvanized a generation of nonviolent civil rights activists and heightened support and awareness for the civil rights movement; and

**WHEREAS**, on March 9, 1965, 2 days later, Reverend Martin Luther King, Jr., led a nonviolent protest of reportedly as many as 2,500 people before turning around after crossing the Edmund Pettus Bridge due to a barricade of state troopers; and

**WHEREAS**, on March 15, 1965, despite pressure from political figures, United States District Court Judge Frank M. Johnson, Jr., issued an injunction al-

lowing the voting rights march from Selma to Montgomery to proceed, overturning Governor George Wallace's prohibition of the protest; and

**WHEREAS**, on March 21, 1965, with the protection of United States Army troops, the Alabama National Guard under federal command, the FBI and federal marshals, more than 3,000 people, led by Reverend Martin Luther King, Jr., set out from Selma to Montgomery, a 54-mile journey, marching an average of 10 miles a day along Route 80 and sleeping in fields; and

**WHEREAS**, the nonviolent protestors safely reached the steps of the State Capitol building on March 25, 1965, at which point their numbers had grown to 25,000, including many religious and community leaders of all denominations, races and backgrounds; and

**WHEREAS**, on March 17, 1965, with the Selma protestors at the forefront of the news, President Lyndon B. Johnson addressed a joint session of Congress, calling for federal voting rights legislation to dismantle the barriers that prevented African Americans from voting; and

**WHEREAS**, with the country captivated by the courage and conviction displayed by the civil rights marchers and activists, the United States Congress passed and President Lyndon B. Johnson enacted into law the landmark Voting Rights Act of 1965 on August 6, 1965; and

**WHEREAS**, many people from Maine, of all races and religions, were involved in not only the march from Selma to Montgomery, but the civil rights struggle as well; now, therefore, be it

**RESOLVED:** That We, the Members of the One Hundred and Twenty-seventh Legislature now assembled in the First Regular Session, on behalf of the people we represent, take this opportunity to commemorate the 50th anniversary of the historic civil rights marches from Selma to Montgomery and to honor all those who struggled in search of equality and the freedom to participate in our democracy.

**WE**, your Memorialists, the Members of the One Hundred and Twenty-seventh Legislature of the State of Maine now assembled in the First Regular Session, most respectfully present and petition the United States Congress as follows:

**WHEREAS**, military personnel from the State of Maine have answered the call to serve our Nation many times and Maine is estimated to be 3rd in the Nation per capita for military service. According to Veterans Administration records, Maine has had 11,531 military members serve since the tragic events of 9/11; and

**WHEREAS**, many have returned home with post-traumatic stress disorder, traumatic brain injury, hearing problems and other physical and mental disabilities; and

**WHEREAS**, many communities in Maine need someone who can meet with veterans and survivors to explain benefits and to get the word out to veterans and their families concerning frequently changing Veterans Administration benefits and eligibility; and

**WHEREAS**, major issues for returning veterans concerning increasing suicide rates, homelessness, unemployment and education were brought before the 113th Congress with little or no substantive results; and

**WHEREAS**, as the 114th Congress begins, veterans and their families in Maine and across the Nation hope that the new Congress will be responsive and helpful and aggressively address the many issues facing the veterans of the wars in Iraq and Afghanistan; and

**STATE OF THE STATE ADDRESS  
OF  
GOVERNOR PAUL R. LEPAGE  
FEBRUARY 3, 2015**

---

---

Chief Justice Saufley, President Thibodeau, Speaker Eves, members of the 127th Legislature, distinguished guests, and fellow Mainers.

Tonight, I am here to update you, the people of Maine, about the condition of our great state.

First, I must recognize my wife, Ann. I would not be here tonight without you.

You have made Maine proud as our First Lady, especially through your support of our armed services and their families.

To my family and friends, I appreciate all you have done—and all you continue to do—to support me.

Staff Sergeant Sarah Cayia, the military herald this evening, thank you for your courageous service to our state and nation.

I ask that we all take a moment to remember, recognize and thank our men and women in uniform.

I would like to make a very important announcement. I am the only Republican that will not be running for President—yet.

I became Governor for one simple reason. I want prosperity—not poverty—for all Maine people.

Doing “business as usual” hurts our ability to be competitive. It favors poverty and prevents prosperity.

Mainers, it’s time to innovate. We need an efficient, effective and affordable government. But change is hard. It’s much easier to protect the status quo.

Studies sit on shelves, collecting dust. Politicians talk about tax reform every year. Nothing meaningful gets done.

We must make hard decisions today so we can have prosperity tomorrow for our future generations.

I made hard decisions all my life—the necessary decisions to help companies grow and expand.

I was a mayor. I understand the needs versus the wants for municipalities.

As Governor, I’ve listened to Mainers. They want to succeed and prosper.

My budget takes bold action. It is the first step—a big leap forward. Friends, I can’t do it alone. I need your help. We must do it together.

The Maine people want results, not rhetoric. They want action!

#### TAX REFORM

Washington, D.C. is broken. Our future depends now more than ever on the states. They are the 50 laboratories of democracy.

Our country has the highest income taxes in the world. This makes our nation uncompetitive.

Maine is currently not competitive nationally or globally. Our tax system is antiquated. We must modernize it.

My fellow Mainers, you work hard for your paycheck. The government takes your earnings, and you have no control over how it is spent.

You earned it. You should keep it!

An income tax cut puts money back in your pocket. It is a pay raise for all working Mainers.

With consumption taxes, you make the choice. You decide where you spend your money. And let me be clear: this plan does not tax funerals. It does not tax car repairs. It does not tax groceries or other necessities.

My plan makes sure more taxes are paid by tourists—not by Mainers. Approximately 650,000 Maine tax returns pay the income tax.

On the other hand, 29 million tourists a year pay sales taxes on almost every purchase they make.

Our refundable sales tax credit helps lower- and middle-income Mainers get their money back.

This plan is different from past plans. It is not a tax shift. It is a tax cut for all Mainers.

## STATE OF THE STATE ADDRESS

My vision is a Maine with no income tax. But I'm no magician. It takes time.

When I took office, Maine's top income tax rate was 8.5 percent—one of the highest in the nation.

We reduced the rate to 7.95 percent—a baby step. This plan cuts it to 5.75 percent—a 40 percent decrease in the income tax since I took office. That's one big step.

A young married couple, both teachers with one child, claiming a standard deduction, would get a \$1,500 pay raise.

That's a mortgage payment. That's few tanks of heating oil. It's several car payments or back-to-school clothes for the kids. It's real money. It makes a real difference.

Other tax reform plans were "revenue neutral." They were created by politicians to serve special interests. My one special interest is the Maine people.

My plan cuts spending. It gives money back to you: the Maine people.

This plan reduces the tax burden on Maine families and small businesses by \$300 million. That's a real pay raise for the Maine people!

If Maine is to prosper, we must have courage.

There are 9 states with no income tax. 19 other states are working to reduce or eliminate the income tax. Maine is leading the nation with our bold plan. We're the first out of the chute.

Let's show the nation—and the world—that Maine is serious about job creation. The Tax Foundation says this plan would propel Maine's ranking from 33 to 23. That's not a jump, that's a leap.

But 23 is not good enough. Let's aim for the top 10.

Maine's corporate tax is a job killer. My plan cuts it. We also eliminate the Alternative Minimum Tax.

We will catapult Maine from 45th to 17th place in corporate tax rankings. And trust me, that's a big deal for job creators.

## SELECTED ADDRESSES TO THE LEGISLATURE

Our past rankings said: "Stay away from Maine." My plan says: "Come to Maine. We want your jobs!"

### REVENUE SHARING

Local officials care about municipal budgets. They take money from Mainers to grow the town office.

I care about the people who live in the town. I want to give Mainers their hard-earned money back. Someone must lobby for the Maine taxpayer.

The Maine Municipal Association is supposed to represent cities and towns. MMA is not a taxpayer-friendly organization. Its mission is to protect local officials—not local taxpayers.

Your local officials pay dues to MMA with your tax dollars. MMA uses those dues to fight for bigger and more expensive local government.

They should be called the Middle Man Association. They pit local taxpayers against local officials. They fight against any kind of tax reductions.

In Waterville, the city manager worries about a one-million-dollar loss in revenue sharing. Neighboring Winslow gets \$500,000 in revenue sharing.

But residents of Waterville and Winslow are paying 17-million-dollars in income taxes.

I ask them: Would you trade 1.5-million-dollars to keep 17-million-dollars in your pockets? I'll take that deal any day.

A number of property tax relief programs have passed—and all failed. It's time for state government to worry about state taxes. Local government should focus on local taxes.

Programs to lower property taxes should benefit homeowners—not government offices. My plan expands the Property Tax Fairness Credit. That helps low- and middle-income homeowners.

We double the Homestead Exemption for our senior citizens. They worked all of their lives for their homes. Let's make sure they can stay in them.

## SELECTED ADDRESSES TO THE LEGISLATURE

We help local government identify other sources of revenue. We give them the telecommunications excise tax.

We allow local government to collect tax revenue from large non-profits. They provide valuable services.

However, they do use public services—just like everyone else. They must help ease the burden on all Maine people.

For our state to prosper, everyone has to pitch in. Working-class Mainers cannot do it alone.

### RETIREEES, VETERANS AND ELDERLY

My budget is not a Band-Aid to get us through the next budget cycle.

It drives prosperity for decades to come. It looks past the next election and focuses on future generations.

We need to attract more young people and families. We need to keep our retirees here.

My plan reduces the tax burden on our families, our veterans and our retirees.

Family businesses are the backbone of our economy. We must keep them alive and well.

We will eliminate the estate tax. Only 19 other states impose this “death tax.” It punishes family businesses in Maine.

We end the tax on military pensions. Let’s attract military retirees to Maine. We want these highly trained men and women to live and work here.

Too many Mainers move to Florida or elsewhere for 6 months and a day. That’s why we cut taxes on all other retirement pensions.

This keeps our retirees in Maine. Even better, it keeps their assets here.

### BUDGET PRIORITIES

My budget also ensures our most vulnerable get the care that they need and deserve.

## STATE OF THE STATE ADDRESS

We have reformed Maine’s Medicaid program. We now prioritize our elderly, the disabled and those with intellectual disabilities.

My budget increases funding for nursing homes. I will continue to fight to keep our nursing homes open.

Maine needs commonsense welfare reforms. We are drug testing TANF recipients. Welfare dollars should not support a drug habit.

We are putting photos on EBT cards. We are sending the message that we do not support welfare fraud.

We are making sure our limited welfare dollars go to Mainers in need, not illegal aliens.

We are getting people off welfare. Our administration has helped more than 1,200 Mainers who were on welfare find full-time careers. Our welfare-to-work program is moving Mainers from poverty to prosperity.

Throwing money at poverty does not help people prosper—it never did and never will.

Instead, we are investing our time to teach needy Mainers how to succeed. We are giving them the skills and self-esteem they need to lead productive and satisfying lives.

My budget also addresses the drug epidemic facing Maine. We fund more agents in the Maine Drug Enforcement Agency. We add more prosecutors and judges.

More Mainers are dying from drug overdoses than traffic deaths. Too many babies are being born addicted to drugs. This has to stop.

We must save our children and families from the poison being sold on our streets.

We cannot allow vicious, out-of-state drug traffickers to use Maine as their marketplace. My plan will hunt down these criminals and hold them accountable.

### ENERGY

High energy costs drive away business and raise rates for Mainers. We must lower electricity rates and home heating costs.

## STATE OF THE STATE ADDRESS

Maine's renewable energy policies are broken—they are expensive and ineffective.

Look at the mills in Millinocket and Bucksport—look at the curtailment in other paper mills.

We have affordable natural gas right in our backyard and hydropower just over the border in Canada and right here in Maine. Let's use it!

We will seek to lift the 100 megawatt cap on all forms of renewable energy. I favor any kind of energy that lowers prices for Mainers now—not 20 years from now.

We need more affordable and efficient hydropower and access to more natural gas—not just high-priced, special-interest energy.

We should follow other states and return money from the regional cap-and-trade program to our businesses that are struggling with high energy costs. This will return millions of dollars to Maine rate payers.

We must help Mainers invest in more affordable heating options.

Once again, we will request to use \$5 million from the increased timber harvest to do this.

For four years, we fought for more affordable heating options for Mainers. Legislators and special interests stopped us cold.

This hurts Maine. This hurts Maine people. We must expose it for what it is.

No Mainer should be cold during the winter. Let's help them invest in heat pumps, install wood stoves or upgrade to highly efficient oil burners.

Furthermore, if we do nothing, our forest resources will be destroyed by invasive insects, as happened in the 1970s and '80s.

We are on the verge of another budworm epidemic on our forest in the next few years. We can shorten its devastation.

## SELECTED ADDRESSES TO THE LEGISLATURE

### DOMESTIC VIOLENCE

The First Lady's personal mission has been to serve our veterans and military families. My mission is the fight against domestic violence.

If you have not lived through this heinous crime, you cannot imagine how destructive it is or the unseen scars it leaves on its victims.

There were 21 homicides in Maine in 2014. That's down from 25 in 2013.

But 14 of these homicides were related to domestic violence. Even worse, 8 of those murders were children under 13.

Domestic violence is killing our children and our families. This is unconscionable. We must speak out to eradicate this heinous crime.

### CONCLUSION

I want prosperity, not poverty, for all Mainers—even my adversaries.

My vision is an economy that allows all Maine families to thrive and succeed.

Every Mainer deserves the chance to achieve their American Dream.

My budget is just the start. I cannot do it alone. I need your help.

We must make sure the income tax keeps going down every year until it is gone.

I ask for a constitutional amendment that will direct all growth in revenue to go toward eliminating the income tax—once and for all.

We're not doing all this work just to let career politicians reverse it after I'm gone.

I want prosperity for all Mainers. We must work together to make it happen. We must take bold action now. The time for talk is over. Let's get to work.

**STATE OF THE JUDICIARY ADDRESS  
OF  
CHIEF JUSTICE LEIGH INGALLS SAUFLEY  
FEBRUARY 24, 2015**

---

---

***Efficiency and Innovation***

Thank you, President Thibodeau. Good Morning, Governor LePage, Speaker Eves, Honorable Members of the 127th Maine Legislature, Probate Judge Dubois, and citizens of the great State of Maine.

My incredible husband, Bill Saufley, sometimes known as the “long-suffering” Bill Saufley, joins me today. And with him are my parents, Jan and Dick Ingalls, who taught me so much about the value of hard work and collaboration.

And, of course, with me today are the members of the Maine Supreme Judicial Court and the Trial Court Chiefs. It is an honor for me to work every day with this wonderful, dedicated group of judges.

It is also a particular honor to be presenting this report this year, in 2015.

Eight hundred years ago this year, in 1215, in a field in Runnymede, England, King John set his seal to the Magna Carta, the document that created some of the most important modern concepts of liberty and justice.

You may be aware that the Magna Carta is understood to have created the foundation of the Rule of Law. But you may not be aware that Justice Donald G. Alexander, the longest serving judge ever to grace the benches in Maine, was there when it was signed!

Many of you may not have had the opportunity to meet the newest member of the Supreme Judicial Court, so I want to take a minute to introduce Justice Jeffrey Hjelm.

Justice Hjelm served in both the District and Superior Courts. He was a trial judge for 22 years before his appointment last fall to the SJC. He has extensive experience with jury trials, and, given his earlier work in the Criminal Division of the Attorney General’s Office, he brings a wealth of experience in criminal process and sentencing. He is well known for his thoughtful and thorough work, and I am delighted to have the opportunity to work with him on the SJC.

**The Chief**

I also want to take just a minute to say goodbye to one of my heroes.

This past December, we lost Chief Justice Vincent McKusick, who died at the age of 93. The Chief, as we all called him, had a very full career in private practice before serving as the Chief Justice from 1977 to 1992. It is particularly fitting to salute him today because, as Chief Justice, he had a special focus on the relationships among the branches of government.

For those of you who are historians, we understand that the first Chief Justice to present a report regarding the State of the Judiciary in Maine to the Maine Legislature was Chief Justice Armand Dufresne, in 1977. CJ Dufresne was also our very first Franco-American Chief Justice.

Chief Justice McKusick, noting the value of communication among the branches, helped make that address a tradition. He was the first Chief who was regularly invited to speak to the Maine Legislature, eventually providing the annual presentation that brings us here today.

The Chief was a man of towering intellect, and more than that, he was a gentleman. His nonpartisan, collegial and respectful approach to cross-branch relationships helped make my presentation here today possible. Many of you remember his kind, warm style, and I will always be grateful for his support as I took on a job he had done so well.

**The Past**

And with that, I present to you—the State of the Judiciary in Maine.

I begin with a bit of context. For more than a dozen years, I have talked with Maine Legislators about the need to support a solid system of justice for Maine people. During that time, the Judicial Branch has had to address the chronic underfunding of justice in Maine.

Ten years ago, in 2005, the resource limitations on the provision of justice were so severe that I dispensed with the ordinary annual report and made a direct appeal to this august body. I told Legislators then that the resources for providing justice in Maine were “woefully inadequate.”

The result of that underfunding was evident throughout the system:

## STATE OF THE JUDICIARY ADDRESS

Many courthouses were in disrepair;  
Too many were physically inaccessible;  
Court safety was nonexistent; and  
Reduced budgets had resulted in vacancies  
that created unconscionable delays.

The situation was truly dire.

### **The Efforts at Improvement**

Given this background, I am particularly pleased to be presenting this report on the State of Maine's Judiciary, because today I bring you good news.

I am pleased to report that, with legislative support, and the support of Governor LePage, we are turning the corner.

Over the last several years, we have been able to improve facilities, accomplish consolidations, redirect resources and implement changes that make the Judicial Branch more efficient and more responsive to the public.

Although much remains to be done, and I will give you a road map for some of that work later this morning, I first want to take a moment today to celebrate the improvements that have been achieved.

### **Security**

First and foremost, our courthouses are safer.

Entry screening has been instituted in courthouses throughout the State, and the final steps are at hand to make it available nearly every day in every court.

We must be able to tell everyone coming to court in tense and dangerous situations, including victims of domestic violence, that, at least within the courthouse, they are safe.

We are almost there. Your support for that aspect of the Governor's budget will make it a reality.

### **Facilities**

Second, there have been substantial improvements in many courthouses.

In renovating and repairing Maine's courthouses, we have taken the opportunity to consolidate facilities.

## SELECTED ADDRESSES TO THE LEGISLATURE

Ten court buildings in 4 cities have been consolidated into 4 buildings in Houlton, Dover-Foxcroft, Bangor and Augusta.

The resulting consolidations provide much more effective public service. The buildings require only one team of marshals for entry screening and one team of clerks, and they allow for greater collaboration among trial judges. Public confusion about which courthouse to go to has been eliminated.

In the last 12 years, we have reduced the number of court facilities from 47 to 39, without sacrificing access to justice in our rural regions. Every one of the consolidations improves efficiency and public service. Projects in Oxford, Franklin, York and Waldo Counties, where 3 of the county courthouses are more than 100 years old, are next on the drawing board. We will be talking to you about those needs soon.

### **Clerks**

At the same time, we have consolidated most of our clerks' offices so that 42 formerly separate units are now organized into 27 units. This has allowed us to use existing positions more effectively.

### **Service center**

We have been able to repurpose some of those existing positions to create a central phone bank of highly trained, customer-service oriented staff to respond to questions that come into the courts by phone. The public response has been uniformly positive, and the goal is to expand the service center statewide.

### **Technology: Case Management System and e-filing**

And, with the support of the 126th Maine Legislature and the Governor, this year we will begin the digital upgrade to create e-filing for Maine's courts.

This has taken months of planning, including learning what other states have done right, and what they have done wrong. We have involved representatives of state government and other stakeholders to assure that we are creating a system that is integrated and effective throughout the State. And soon we will be ready to publish the RFP and issue the bond approved by the 126th Legislature.

### **Capital Judicial Center**

Finally, regarding efficiencies, let me tell you about the extraordinary improvement in public service that

## SELECTED ADDRESSES TO THE LEGISLATURE

will be demonstrated in the brand new Capital Judicial Center, which opens for business next Monday. Justice Jabar has taken the lead on guiding the work for this new building.

The Capital Judicial Center will consolidate all trial court functions in Augusta under one roof, replacing 3 facilities with one. And thanks to KVCAP, a new bus stop will provide public transportation right to the courthouse door.

In addition to the trial courts, all Augusta-based Judicial Branch administrative offices, including the technology center, will be in the new building.

Like the old Kennebec County Courthouse, which opened in 1830 (2 years before this very State House), the new courthouse, fit for the State's Capital, is designed to serve the public for generations to come.

It is filled with natural light, and, from the public spaces, the view of the Kennebec River, the lifeblood of the region, will be featured everywhere.

There are multiple mediation and conference rooms, wide corridors for safety and a more private space for filing domestic violence documents.

It is built, in great part, with Maine's natural resources: the beautiful granite is from Jay, much of the lumber is from Maine forests and the woodwork was milled in southern Maine.

Most of the businesses and individuals who worked on the building were from Maine. During the height of construction, more than 100 people were employed daily on site.

It will be LEED certified and energy efficient, taking advantage of new natural gas lines and a design that makes the best use of its southern exposure.

It is attached by a skybridge to the venerable county courthouse, so that the beautiful old courtroom, which will now be upgraded for ADA compliance and for technology, will be a seamless part of the new courthouse. Maintaining that historic courtroom, which we could never replicate today, was a high priority.

This project represents the best of bipartisan government collaboration. It was initially proposed in the 124th Legislature and approved by Governor Baldacci.

## STATE OF THE JUDICIARY ADDRESS

Each successive Legislature and Governor LePage have continued to support the project.

The end result is a building that has been completed on time, and on budget, and that will stand as a symbol for justice in the State's Capital for the next two hundred years.

We will have a grand opening on Law Day, May 1st, and I hope that all of you will be able to join us.

As the Capital Judicial Center opens and the Washington County Courthouse addition and renovation in Machias are completed later this year, we are well on our way to a cost-efficient, solid facility infrastructure for the next century.

### **Process Improvements**

At the same time that we have been laying the groundwork for a more efficient and productive infrastructure, we have undertaken several projects to reform court process.

Why are we focusing on improving process?

You have all heard the phrase:

### ***Justice Delayed is Justice Denied.***

Although it sounds like a platitude, it is truly a description of reality.

If you are a victim of crime who must wait for trial so long that the witnesses no longer recall events with accuracy,

If you are a ten-year-old child waiting to learn which school district you will attend while your parents' divorce remains pending,

If your plans to expand a business get tied up in court,

You know what Justice Delayed really means.

And I would add to that phrase:

### **Justice that is too expensive is no Justice at all.**

Justice that is financially out of the reach of the litigants cannot be tolerated. Any court process that includes nonproductive trips to the courthouse creates impediments to achieving the Justice we all seek.

## STATE OF THE JUDICIARY ADDRESS

Therefore, we are working on improving all court procedures to streamline the process.

### **The Business and Consumer Docket**

A good example of improved process can be found in the Business and Consumer Docket, which now handles 100 or more complex business cases every year. As a result of intense judicial management, cases accepted into the Business and Consumer Docket benefit from an average completion time of less than 11 months—for case types that once required 3 to 5 years to complete!

### **The Unified Criminal Docket**

The latest court project to streamline proceedings is the Unified Criminal Docket. We began the Unified Criminal Docket as a pilot project in 2009 in Cumberland County, and it was expanded to Bangor in 2011. In the last year, several more counties have streamlined their criminal process, and by July 1, 2015, the Unified Criminal Docket will be implemented statewide.

By eliminating the existing 2-tiered process, we have created a system where a schedule of every court event in a criminal case is produced on the first day that the defendant appears in court. This process respects the serious aspects of criminal law, while at the same time ending the practice of requiring crime victims, witnesses, lawyers and defendants to appear repeatedly without resolution.

This docketing change has substantially reduced the time for resolution of criminal cases. I am grateful for the skills of Justice Gorman, who has been the primary architect and judicial guide for this docketing innovation.

The focus on criminal process is critically important right now and leads me to address the challenges we face and where we need further improvement.

In fiscal year 2014, almost 56,000 new criminal cases were filed in the trial courts.

### **Domestic violence**

Despite the consistent efforts of law enforcement, the victim advocates, the court system and the Governor, the Attorney General reports that 21 homicides occurred in Maine in 2014 and that 14 of those homicides involved domestic violence. As you heard during the

## SELECTED ADDRESSES TO THE LEGISLATURE

State of the State, 8 of those who were murdered were children.

We must do better.

### **Drug addictions and drug-affected babies**

And we also know from the Attorney General that there is another tragedy affecting Maine's children every day. In 2012, 779 babies were born into a world where their first experience was detoxifying from drugs.

In 2013, that number climbed to 927, and last year saw a new record of 961. This is almost 8% of the live births in our small State—one out of every 12 babies born in Maine is affected at birth by drug abuse, a tragedy of enormous proportions.

It is clear that our efforts to eliminate drug addiction and address family violence must be redoubled. The Drug Treatment Courts for families, veterans and people with mental illness will need your support this session. Please help.

In addition, the pending proposal for 4 new judge positions could not come at a better time.

The trial judges' ability to reach the relentless arrival of new criminal cases is strained to the maximum right now.

To assist the trial courts, the Supreme Court deferred its own caseload in January to allow Supreme Court judges to assist with the trial court caseload. Justice Alexander led the SJC in assisting the trial courts with the unceasing caseload. We are hopeful that these efforts will help the entire system, but more judges are necessary if we are to keep up with the demands.

### **Access to justice**

Another impediment to accessing justice in Maine, as in every other state, is the inability of so many people, even those with modest incomes, to afford legal assistance.

Even the best, most efficient court proceedings require the expertise of lawyers to assist the litigants. We do not expect people to diagnose and treat their own illnesses, nor should it be acceptable that they are unassisted in critical, life-changing legal proceedings.

## SELECTED ADDRESSES TO THE LEGISLATURE

We are very fortunate to have Justice Mead leading the efforts to improve access to justice and working with a legal profession that is among the most generous in the country.

Maine lawyers donated more than \$2 million dollars in free legal services to people in need in 2014, and Maine lawyers and judges reached deep into their own pockets to give more than half a million dollars to the Campaign for Justice, which provides funds for legal services for low-income and elderly people.

Justice Mead will be here next week in the Hall of Flags with the civil legal services lawyers to provide you with more information that may assist you in helping your constituents.

### NEW INITIATIVES

Finally, in keeping with our efforts to reform process, I am very pleased today to launch a new initiative:

All three branches of government have come together to create

#### **The Maine Task Force on Pretrial Justice Reform.**

Context is helpful.

In 2005, the Legislature asked the Corrections Alternatives Advisory Committee to obtain a study of Maine's pretrial case processing. The committee reported back in 2006 with recommendations for changes and improvements throughout the criminal justice system: in the jails, with law enforcement, in the courts, with bail commissioners, with the lawyers.

Some changes were accomplished, and the reduction in criminal backlogs accomplished by the Unified Criminal Process is one significant improvement. But many recommendations have yet to be addressed.

At the same time, I don't need to tell you that the costs of Maine's jails have been ever increasing.

We know that more than 60% of the people held in county jails are in pretrial status.

Some are serious flight risks, others present a very real risk of danger in their communities; Some are there because they failed to appear in court to address an unpaid fine;

## STATE OF THE JUDICIARY ADDRESS

Some are there because they failed to appear for a charge that would not have resulted in a jail sentence;

Some are there because they do not have the necessary funds to post cash bail;

Others are waiting for a bed in a treatment facility;

Many are mentally ill and unable to control their behaviors long enough to stay out of jail.

Defendants who present a risk of flight or violence need the attention and resources of the jails. But many others could be better addressed with the focused attention of less costly resources.

We are not the only state that is struggling with these challenges. In the last several years, there have been a number of efforts throughout the country to address overcrowding in community jails.

Information is emerging regarding a number of promising practices that may help turn this around.

The goals are simple:

Reduce the financial and human costs of unnecessary incarceration without compromising individual or community safety or the integrity of the criminal justice system.

There is a growing body of research that tells us that reaching these goals is possible.

The research supports the adoption of effective practices such as:

Enhanced risk assessment;  
Diversion of nonviolent offenders into community-based programs;  
Development of supervised, meaningful community services programs; and  
Case management and diversion programs that require:

The acceptance of personal responsibility,  
Sobriety and  
Continued employment.

At the same time, these new evidence-based practices can help identify offenders who pose a serious risk of violence. This allows a critical focus on enhancing public and victim safety.

## STATE OF THE JUDICIARY ADDRESS

In Kentucky, a pilot project demonstrated a 15% reduction in pretrial violence while achieving substantial reduction in the costs of local jails. The Kentucky study also demonstrated that improved risk assessment can be “highly accurate” at identifying the small group of defendants who are at an elevated risk of committing violence if released before trial.

The national research demonstrates the long-term benefits of risk assessments and better attention to suitability for pretrial release. Objective risk assessments provide an additional means for ensuring that neither a person’s poverty nor a person’s ethnicity leads to unnecessary pretrial incarceration.

And there is more emerging information:

The initial research demonstrates that the pretrial incarceration of low-risk offenders creates a higher risk of recidivism in later years.

But the pretrial incarceration of high-risk offenders, those who may be violent, appears to actually *reduce* recidivism after a conviction.

Put bluntly, without better up-front assessments, pretrial detention may make less dangerous people more dangerous, and we may be missing the need to detain people who currently present a serious threat for violence.

The Maine Legislature has already mandated risk assessment for domestic violence charges. Applying similar tools to other charges could be equally effective.

Therefore, in collaboration, the Judicial, Executive and Legislative Branches will bring together some of the best minds in Maine on issues of criminal justice. Justice Robert Mullen will Chair the Task Force, bringing a wealth of experience in both trial courts and in working with the bail commissioners.

We will ask the Task Force to study the research that has been undertaken nationally, look at what is working and what is not working in Maine and in other states, and make proposals for improvements in time for consideration in the Second Regular Session.

I am grateful for the support of Governor LePage, President Thibodeau, Speaker Eves and Minority Leaders Senator Alfond and Representative Fredette,

## SELECTED ADDRESSES TO THE LEGISLATURE

and Attorney General Mills. They have each agreed to name members to serve on this Task Force.

We have also received commitments from the prosecutors, law enforcement, the Sheriffs’ Association, the Victims’ Advocates and the defense bar to join this effort.

It is time for us to take on this challenge.

Working together, we could make real, lasting improvements for Maine.

### WE NEED YOUR HELP

Finally, as I said when I began, we are starting to turn the corner, but we have an enormous amount of work ahead of us.

Here are the things that you can do to make sure your constituents have safe, prompt access to justice when they need it:

1. Support the Governor’s budget proposed for the Judicial Branch
  - a. Safer courthouses are critical to these efforts.
  - b. More judges are desperately needed.
  - c. Jurors should be appropriately compensated for their time and for the miles they drive to perform their civic duties.
2. Visit courthouses
  - a. Mary Ann Lynch will make arrangements for you to shadow a judge, see a courthouse that serves your District and spend time watching justice in action.
  - b. Talk with us about High School Appellate Arguments.
    - i. Last year, we had terrific experiences at Presque Isle High School, Mattanawcook and Yarmouth.
    - ii. This year, in October, we will sit in Hermon, at Senator Gratwick’s invitation, and at Mt. Blue in Farmington, at the invitation of the very patient Senator Saviello. We have one opening still available. Contact Mary Ann Lynch.
    - iii. We hope that many of you will join us for those arguments.
3. Finally, keep working with us on innovations. While I will admit that the courts are not an institution that changes on a dime, we want to

**SELECTED ADDRESSES TO THE LEGISLATURE**

**STATE OF THE JUDICIARY ADDRESS**

be responsive to the justice needs of your constituents. Keep talking to us.

Thank you for your time and attention, and your support for justice in the State of Maine.
